

## **STATEMENT OF WORK**

### **1. Objective/Requirements**

The objective of this work is for Dynetics, a wholly owned subsidiary of Leidos, to fabricate glass electrodynamic dust shield (EDS) for the NASA Lunar Outpost Lunar Terrain Vehicle (LTV).

### **2. Characteristics, Scope, and Specs**

The contractor shall perform the following duties:

- Perform SiO<sub>2</sub>, Al<sub>2</sub>O<sub>3</sub>, and other appropriate dielectric coating on the space solar cell cover glass.
- Ship the glass samples to the Electrostatics and Surface Physics Laboratory at NASA Kennedy Space Center.

### **3. Place of Performance**

1004 explorer Blvd, Huntsville, AL 35806

### **4. Period of Performance**

The period of performance is 6 months starting when the payment is made to Dynetics.
