

STATEMENT OF WORK

PR: *****

Background

The NASA Construction of Facilities (CoF) Management course provides instruction and explanation of the lifecycle CoF process. This process includes how to improve facilities project management skills and increase the effectiveness by using construction industry proven best practices. Through the use of shared experiences, this course facilitates improved communications within and between centers.

Scope

The NASA CoF class consists of 50 students that will require on-site lodging and meals at WFF. There will also be 20 instructors supporting the class that will require on-site meals for the duration of the class. The class dates are 03/24/25 through 03/28/25.

Requirements

Fifty dormitory rooms for the performance period 03/24/25 through 03/28/25.
Meals (breakfast, lunch, and dinner) for 50 breakfast and 70 lunch/dinners for the performance period 03/24/25 through 03/28/25.
