

Required Buoy Deck Crane Encoder for
USCGC Cypress

1. **Background.** CGC CYPRESS's buoy deck Crane Encoder has failed.
2. **Scope.** Vendor shall provide replacement MULTI-TURN ethernet Encoder (P/N YMD-15180) as well as Angled M12 Socket Cable 10M (P/N YMD-12698). A program change is required when replacing obsolete Encoder (YMD-12674).
3. **Objective.** The objective of this requirement is to replace obsolete encoder and conduct program change with crane as well as calibrating settings.
4. **Tasks.** The contractor shall provide one of each: PN: YMD-15190 Multi-turn ethernet encoder nano-coated. P/N: Angled M12 Socket Cable 10M.
5. **Delivery.** Contractor shall provide once available.
6. **Government furnished property.** N/A
7. **Security Requirement.** N/A
8. **Place of performance:**
CGC CYPRESS (WLB – 210) 15250
190651 CHINIAK HWY
KODIAK AK, 99615
9. **Period of performance-** at earliest convenience
10. **Points of Contact.**
