

Fort Johnson Portable Latrine Solicitation RFIs

1. Is there an incumbent? What is the final price?
 - Major Contracting Services, Inc. for an estimated \$864,020.00
2. How many latrines are expected to be service during normal month? during peak months?
 - Latrines are not serviced monthly, they are based on the training requirements of the units.
3. How many latrines are expected to be relocated during normal month? peak month?
 - Latrines are not relocated monthly, they are based on the training requirements of the units.
4. How many porta pottys and Hand wash stations are expected per training event? How many are expected per month? How many services are expected per training event?
 - Latrines are based on the number of personnel per unit during each event. Hand wash stations are not included in this contract.
 - Latrines are not calculated monthly, they are based on unit training events.
5. Is mowing required under this contract?
 - The Contractor shall mow and trim the grass in and around the storage areas on a regular basis and shall ensure the area is kept in a clean neatly organized and uncluttered at all times. The COR will direct these activities to be performed if the areas become unsightly, unsafe or inefficient.
6. How many gallons are expected to be pumped from the vaults?
 - Up to 1000 gallons
7. Unit quantity is presented as "JOB" with no estimated quantities. No estimated quantities were provided, please advise how the contractor should determine the "Amount". As presented, there is no way to total each CLIN nor the annual requirements.
 - CLIN verbiage has been adjusted to reflect estimated quantities per year.
8. CLIN 1, 2, 3, and 4 all have the same description of task to include "delivery, setup, cleaning, and removal". Unclear if CLINs 2,3, and 4 all stand alone, or if all service

options also require a CLIN 1 (Delivery) to arrive at required location. This has a significant effect on pricing.

- Verbiage has been adjusted and unnecessary CLINS have been removed. CLINS are stand alone.

9. There is no separate CLIN for rates at the APOD (airport location in Alexandria). This location does not have a local waste disposal facility (it was shutdown in 2019 and is not currently scheduled to re-open) and requires significant travel/hauling of waste. Please confirm it was intentionally omitted, as those costs would need to be distributed into all other service costs for a fair proposal.

- Left out in error. Please see CLIN 0003

10. Is there a particular format required for proposal and past performance?

- Please fill in the requested information on the provided PDF solicitation. Any additional proposal information should be PDF or word format.

11. Could you please confirm the number of portable latrines required for this contract.

- All latrines are provided by the Government.

12. How many septic tanks will need to be pumped out?

- One
