

**Single Source Justification (Simplified Acquisition)**

**Section A: General Contract Information**

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? ☐ Yes ☒ No

Contracting Activity: 22 CONS/PKA

Project/Program Name: [REDACTED] Advantor System for 22 CS

Purchase Request / Local ID Number: F2Z3134253AC01

Estimated Contract Cost (including Options): [REDACTED]

**Section B: Description of the Supplies/Services Required**

Design and install an Advantor Brand electronic access control system in [REDACTED], including the installation of proximity card readers, request-to-exit motion sensors, MAGLOCKS, door latches, and door release buttons, to enhance security for the 22d Communications Squadron.

**Section C: Justification for Soliciting from a Single Source or Brand Name**

Advantor Systems Corporation is the only contractor authorized to install, service, and integrate components into the existing Advantor security framework already deployed across multiple facilities on the base. Integrating a different security system or vendor would require replacing the entire infrastructure, retraining personnel, and ensuring interoperability, resulting in significant delays and additional costs that exceed the project budget. Advantor provides proprietary hardware and software, which makes it uniquely qualified to deliver the system upgrade and support required for [REDACTED] without compromising the operational integrity of existing security systems. The [REDACTED] reflects the most cost-effective approach to maintain compatibility, security, and compliance with Air Force requirements.

**Section D: Efforts to Obtain Competition**

The Air Force Life Cycle Management Center (AFLCMC) Force Protection (HB) office publishes the Non-Nuclear Configuration Management Database (CMD) Equipment Approval listing. Attachment 1 of this list identifies equipment approved for new procurement and installs, or for upgrading existing equipment to the latest configuration. Attachment 2 identifies previously-approved equipment that is still approved for use and sustainment in existing installs; however, the equipment in Attachment 2 is not approved for new procurements or new installs, even if the item is still available from the Original Equipment Manufacturer.

**Section E: Steps to Preclude Future Single Source or Brand Name Awards**

22 CONS will continue to reference the Non-Nuclear Configuration Management Database (CMD) Equipment Approval letter published by AFLCMC/HBU prior to awarding any IDS, ACS, or VMS contracts to Advantor Systems Corporation in the future.

Single Source Justification (Simplified Acquisition)

**Section F: Contracting Officer's Determination**

I have determined, in accordance with FAR 13.106-1(b)(1), that the circumstances of this contract action deem only a single source is reasonably available.
