# AFSS II Price Volume Overview

- Hybrid Type Contract (Firm Fixed Price (FFP) Phase-In & Cost-Plus Award Fee (CPAF)) with FFP & CPAF Task Orders.
- For Pricing Purposes, the Contact Effective Date is Anticipated to be October 13, 2025.

- The cost/price factor is used to determine what the Offeror's proposal will likely cost the Government should it be selected for award. It is anticipated that the reasonableness of the proposed price will be determined based on competition.

- A price analysis will be conducted on the Firm-Fixed Price CLIN (Phase-In) to ensure a fair and reasonable price by the Government. Offerors should refer to FAR 15.404-1(b) for a discussion of a techniques of a price analysis.

- A cost realism analysis will be conducted on the Cost-Type CLINs to ensure that the Government determines and considers a realistic cost. Offerors should refer to FAR 2.101(b) for a definition of "cost realism" and to FAR 15.404-1(d) for a discussion of "probable cost."

- As noted in FAR 15.404(d)(1), the cost realism analysis consists of "independently reviewing and evaluating specific elements of each Offeror's proposed cost estimate to determine whether the estimated proposed cost elements are realistic for the work to be performed; reflect a clear understanding of the requirements; and are consistent with the unique methods of performance and materials described in the Offeror's technical proposal." A lack of supporting documentation in the Offeror's Cost/Price proposal may result in cost realism adjustments under the Cost factor.
- For purposes of source selection, and in accordance with FAR 52.217-5, "Evaluation of Options," the total proposed price will be evaluated. The total proposed price consists of the Phase-in period, base and option periods, fee, IDIQ pricing, and the option to extend services.

# AFSS II Price Volume Requirements

- **Certified Cost or Pricing Data is not required based on the anticipated competition.**
- **Offerors are provided detailed instructions in the RFP.**
- **Summary of RFP Price Volume requirements:**

  - **The Cost/Price volume shall include a narrative portion that explains all judgment-based elements of cost/price projections and profit/fee policies including any proposed price ceilings and team fee sharing arrangements.**

  - **The Cost/Price volume shall explain in detail all pricing and estimating techniques, disclose the basis of all projections, rates, ratios, percentages, and factors in enough detail to facilitate the Source Evaluation Board's (SEB's) understanding and ability to mathematically verify the results of these estimating tools.**

  - **Failure to provide supporting documentation for the unburdened direct labor rates may result in an adjustment to the proposed price by taking the higher of the proposed unburdened direct labor rate and readily available market data. Offerors shall provide a crosswalk detailing the labor categories if needed.**

  - **Provide the basis and supporting documentation for all indirect rates. Offerors are required to provide their current Forward Pricing Rate Agreement (FPRA) with DCMA/DCAA (if applicable). If an Offeror does not have a current FPRA, it shall provide its current Forward Pricing Rate Submission/Proposal submitted to DCMA/DCAA if applicable) and the past three years of historical actual indirect rates. As stated in Provisional Billing Rate approval letters, they are not to be used for proposal purposes. If an offer has a Forward Pricing Rate Submission/Proposal and does not utilize those rates in their proposal, rationale and supporting documentation shall be provided to support the rate deviation.**

  - **The Cost/Price volume shall include a detailed narrative and supporting documentation for each cost element (direct labor, G&A, etc.) being proposed under each Cost-plus Award Fee (CPAF) CLIN.**

  - **For Cost/Price Volume purposes only, Major Subcontractors are defined as those subcontractors providing a total value, on this contract, of $15,000,000 or greater covering a performance period of up to five (5) years, or $3,000,000 or greater in anyone (1) year of period of performance on this contract. Major Subcontractors are required to submit the same level of detail as the Prime, including the pricing template and supporting documentation .**

# AFSS II Pricing Template Overview

- Pricing Template includes pre-populated formulas (cells are shaded yellow)
- Offerors are responsible for the accuracy of these formulas and editing/correcting them, as necessary.
- Government-provided labor categories and hours shall not be adjusted.
- Instructions for completing the pricing template can be found in the RFP and on the first tab of the pricing template.
- Offerors should propose their pricing for each line item/labor category for base and option periods. (cells requiring fill-in are shaded green)
- Failure to provide a price for all line items/labor categories may result in the offerors proposal being rejected.

# AFSS II Price Evaluation

- The Government will perform a price analysis of the Total Evaluated Price (TEP) of all proposals received and found to be acceptable.
- The TEP will be sum of the following:
  - CLIN 0001 Phase-In
  - CLIN 0002, 1002, 2002, 3002, 4002 O&M
  - CLIN 0003, 1003, 2003, 3003, 4003 Reactive Maintenance
  - CLIN 0004, 1004, 2004, 3004, 4004 Specialty Support Services
  - CLIN 0005A CPAF Task Orders
  - CLIN 0005B FFP Task Orders
- The Government will also evaluate proposals for unbalanced pricing. A proposal may be rejected if it is determined that the lack of balance poses an unacceptable risk to the Government.
