Justification for an Exception to Fair Opportunity or to Use Brand-Name Restriction

Is this a brand-name justification? ☐ Yes ☒ No

Is this a Bridge Action as defined in the AF Bridge Action Reduction Plan? ☐ Yes ☒ No

Contracting Activity: Air Force District of Washington (AFDW/PK), 1500 W. Perimeter Rd., Ste 5750, JBA, MD 20762

Purchase Request / Local ID Number: FA701423F0412

Program Name (and Program Element, if applicable): Financial Improvement & Audit Readiness (FIAR) Task Order 0071

Estimated Cost/Price of the Order (including options): [redacted]

Type Program (see DAFFARS 5302.101 for definitions): ☐ PEO Program ☐ Operational ☒ Enterprise

Type of Determination: ☒ Individual ☐ Class Expires: [click and select]

Fair Opportunity Exception: FAR 16.505(b)(2)(i) (Check the applicable subparagraph below.)

☒ (A) ☐ (B) ☐ (C) ☐ (D) ☐ (E) ☐ (F) ☐ (G) Check this box to display the FAR 6.302 exceptions.

Click here for instructions to complete the boxes below.

(1) Contracting Activity:

Air Force District of Washington (AFDW/PK), 1500 W. Perimeter Rd., Ste 5750, JBA, MD 20762

(2) Nature and/or description of the action being approved:

This action is a modification to task order FA701423F0412 for Financial Improvement & Audit Readiness (FIAR) Task Order (TO) 0071 awarded to Deloitte & Touche LLP on 30 September 2023, to extend the period of performance by 6 months in accordance with the Federal Acquisition Regulation (FAR) 52.217-8. This modification will permit the continuation of mission critical FIAR services on Audit Corrective Action Plan (CAPs), Notice of Findings and Recommendations (NFRs), Valuation of real property baseline and Go Forward Sustainment for the Air Force Civil Engineering Center (AFCEC) while they finalize a follow-on competition. The valuation of real property is a top audit roadmap priority for the DAF in FY25. AFCEC plays a critical role in the downgrade of the Real Property material weakness for the DAF. Contract FA701423F0412 TO71 is the AFCEC vehicle where the valuation of real property FIAR work is being performed. The contract type is a Firm Fixed Price (FFP).

(3) Description of the supplies/services required to meet the agency's needs:

The Office of the Assistant Secretary of the Air Force for Financial Management and Financial Operations (SAF/FMF) was mandated by the Fiscal Year (FY) 2024 National Defense Authorization Act (NDAA) to achieve an unmodified audit opinion by December 2028. Financial Improvement and Audit Readiness (FIAR) requirement is owned by SAF/FMF. The existing task order FA701423F0412 was awarded on 30 September 2023 to 29 March 2025 for [redacted] total contract value to include Modifications P00001 - P00003. AFCEC requires continued support as follows:

FIAR CAPs - The Contractor shall consider both as-is and to-be process business processes and IT systems/environments when recommending CAPs to include efficiencies and adequate solutions are considered for applying CAPs in both environments to include:

- Support related to business process re-engineering and standardization.
- Assisting with the development and implementation of updated policies and procedures, including as applicable necessary training activities.
- Assist with updating existing gap analysis on in scope systems that have a financial impact and determine if system

controls exist and are operating effectively. Assist where necessary in development of System requirement information in coordination with the Performance Work Statement (PWS). Guide organizations and action officers on the Deficiency, Evaluation, Remediation, and Tracking for all financial statement related findings and recommendations. Assisting with collecting, developing and briefing CAP metrics.

• Assist SAF/FMF in sustaining the valuation beginning balances baseline for each category of asset based on existing strategies and approaches for General Equipment, Operating Materials and Supplies, and Real Property until such time as an automated Go Forward compliant process is in place. This will involve supporting the Government in development of processes and procedures to obtain necessary Key Supporting Documentation and updating all associated documentation as it relates to beginning balance effort. The Contractor shall support the development of executive level briefings and metrics for monitoring and oversight. This should include any metrics that relate to reporting to the United States Secretary of the Air Force (SECAF) and the Office of the Under Secretary of Defense - Comptroller (OUSD (C)).

These services are performance based and will be funded with Operations and Maintenance (O&M) 3400 appropriations. The total estimated value of this 6 month extension is [redacted]. The estimated value of this extension was calculated, using the current FIAR Order prices. The above tasks constitute the services that will be acquired for this period of performance starting 30 March 2025 - 29 September 2025. The current Performance Work Statement (PWS) is performance based and will be used for this six-month extension period. There will be two new FFP Contract Line Items (CLINs) as follows:

CLIN	Description	Quantity	Unit Price	Total Price
2003	Corrective Actions	6 Months	[redacted]	[redacted]
2010	Travel	1 Lot	[redacted]	[redacted] [redacted]
			Total	[redacted]

FAR 52.217-8 Extension of Services: 30 March 2025 - 29 September 2025. The task order will be modified to add this period of performance. This is within the scope of the FIAR Order.

(4) Identification of the exception to fair opportunity and the supporting rationale:

FAR 16.505(b)(2)(i)(A), The agency need for the supplies or services is so urgent that providing a fair opportunity would result in unacceptable delays.

The tasks executed by Deloitte under the contract/task order FA701423F0412 provides for FIAR CAP services that directly supports the Department of the Air Force in achieving FY24 National Defense Authorization Act (NDAA) mandate to achieve an unmodified audit opinion by December 2028. This Extension of Services six-month effort is required to prevent a break in critical FIAR services until award of a competitive follow-on. There is insufficient time to award a follow-on contract prior to the expiration of the current contract/task order. Award to any other source for this need would result in unacceptable delays, estimated at approximately 6 months, and substantial duplication of costs not expected to be recouped during competition, estimated at approximately [redacted] to the Government ([redacted] for re-competing task order, [redacted]/month two (2) month transition period, learning, duplication of efforts) and places the Department of the Air Force (DAF) at risk of not meeting FY24 NDAA mandate, resulting in potential reduction in budget authority.

(5) Contracting Officer's determination that the anticipated cost to the Government will be fair and reasonable:

This is a request for continuation of the existing FIAR IDIQ Task Order 0071 in accordance with FAR 52.217-8, the Government may require continued performance of any services within the limits and at the rates specified in the contract. The Contracting Officer will determine fair and reasonable price prior to award of this contract modification in accordance with DFARS Part 8 and FAR 15.4 Contract Pricing. Price analysis will be based on historical costs incurred, price analysis using the current contract prices, the Independent Government Cost Estimates, and technical evaluation.

Justification for an Exception to Fair Opportunity or to Use Brand-Name Restriction

As this requirement meets the commercial services definition IAW FAR 2.101, certified cost and pricing data are not applicable.

(6) Other facts supporting the justification:
N/A.

(7) Actions the agency may take to remove or overcome any barriers to increasing fair opportunity before any subsequent acquisition for the supplies or services:
The Government acquisition strategy allows for decentralized ordering for future FIAR requirements. The AFCEC will engage in updating Market Research and building a solicitation for requirements. DAF conducted market research through various methods for continued audit and audit system remediation services in support of the FIAR program. To date, four (4) Requests for Information (RFI) were posted to SAM.gov. Additionally, the DAF hosted an Industry Day to better tailor the FIAR requirements and assist industry in understanding the DAF's specific needs.

(8) Program Manager's certification that supporting data is accurate and complete:
As evidenced by my signature below, I certify that any supporting data contained herein, which is my responsibility, is both accurate and complete.

(9) Contracting Officer's certification that the justification is accurate and complete:
As evidenced by my signature below, I certify that the justification is accurate and complete to the best of my knowledge and belief.

(10) Approving Official's determination that one of the circumstances in FAR 16.505(b)(2)(i) applies to the order.
As evidenced by my signature below, I hereby determine that the fair opportunity exception checked on page 1 applies.
