L.2 PROVISIONS INCORPORATED BY FULL TEXT

52.211-14 NOTICE OF PRIORITY RATING FOR NATIONAL DEFENSE, EMERGENCY PREPAREDNESS, AND ENERGY PROGRAM USE (APR 2008)

Any contract awarded as a result of this solicitation will be X DX rated order; __ DO rated order certified for national defense, emergency preparedness, and energy program use under the Defense Priorities and Allocations System (DPAS) (15 CFR 700), and the Contractor will be required to follow all of the requirements of this regulation.

(End of provision)

52.215-20 REQUIREMENTS FOR COST OR PRICING DATA OR INFORMATION OTHER THAN COST OR PRICING DATA (OCT 2010) –ALTERNATE II (OCT 1997), ALTERNATE III (OCT 1997), AND ALTERNATE IV (OCT 2010)

(a) Submission of certified cost or pricing data is not required.

(b) Provide information described below: Reference sections L.5 and L.9.

(c) When the proposal is submitted, also submit one electronic copy each to: (1) the Administrative Contracting Officer, and (2) the Contract Auditor. This requirement also applies to each major subcontractor.

(d) Submit the cost portion of the proposal via the following electronic media: Reference sections L-5 and L.9.

(End of provision)

52.216-1 TYPE OF CONTRACT (APR 1984)

The Government contemplates award of an indefinite delivery, indefinite quantity (IDIQ) contract resulting from this solicitation. Contract types will be as specified in each task order. Although any contract type and incentive arrangement is possible, the anticipated predominant task order contract types are cost-plus incentive-fee (CPIF), CPIF with award fee, fixed-price-incentive-firm (FPIF), and FPIF with award fee.

(End of provision)

52.233-2 SERVICE OF PROTEST (SEP 2006)

(a) Protests, as defined in section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the Government Accountability Office (GAO), shall be served on the Contracting Officer (addressed as follows) by obtaining written and dated acknowledgment of receipt from:

Maureen Atwood, Contracting Officer
Missile Defense Agency (MDA)
MDIOC Contracts Directorate (DACJ)
730 Irwin Ave, Room 105A
Schriever AFB, CO 80912

(b) The copy of any protest shall be received in the office designated above within one day of filing a protest with the GAO.

(End of provision)

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

<https://www.acquisition.gov/>
<https://www.federalregister.gov/>

(End of provision)

52.252-5 AUTHORIZED DEVIATIONS IN PROVISIONS (APR 1984)

(a) The use in this solicitation of any Federal Acquisition Regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the provision.

(b) The use in this solicitation of any Defense Acquisition Regulation (48 CFR Chapter 2) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of provision)

252.234-7001 NOTICE OF EARNED VALUE MANAGEMENT SYSTEM (DEVIATION 2015-O0017)(SEP 2015)

(a) If the offeror submits a proposal in the amount of \$100,000,000 or more—

(1) The offeror shall provide documentation that the Cognizant Federal Agency (CFA) has determined that the proposed Earned Value Management System (EVMS) complies with the EVMS guidelines in the American National Standards Institute/Electronic Industries Alliance Standard 748, Earned Value Management Systems (ANSI/EIA-748) (current version at time of solicitation). The Government reserves the right to perform reviews of the EVMS when deemed necessary to verify compliance.

(2) If the offeror proposes to use a system that has not been determined to be in compliance with the requirements of paragraph (a)(1) of this provision, the offeror shall submit a comprehensive plan for compliance with the guidelines in ANSI/EIA-748.

(i) The plan shall—

(A) Describe the EVMS the offeror intends to use in performance of the contract, and how the proposed EVMS complies with the EVMS guidelines in ANSI/EIA-748;

(B) Distinguish between the offeror's existing management system and modifications proposed to meet the EVMS guidelines;

(C) Describe the management system and its application in terms of the EVMS guidelines;

(D) Describe the proposed procedure for administration of the EVMS guidelines as applied to subcontractors; and

(E) Describe the process the offeror will use to determine subcontractor compliance with ANSI/EIA-748.

(ii) The offeror shall provide information and assistance as required by the Contracting Officer to support review of the plan.

(iii) The offeror's EVMS plan must provide milestones that indicate when the offeror anticipates that the EVMS will be compliant with the guidelines in ANSI/EIA-748.

(b) If the offeror submits a proposal in an amount less than \$100,000,000—

(1) The offeror shall submit a written description of the management procedures it will use and maintain in the performance of any resultant contract to comply with the requirements of the Earned Value Management System clause of the contract. The description shall include—

(i) A matrix that correlates each guideline in ANSI/EIA-748 (current version at time of solicitation) to the corresponding process in the offeror's written management procedures; and

(ii) The process the offeror will use to determine subcontractor compliance with ANSI/EIA-748.

(2) If the offeror proposes to use an EVMS that has been determined by the CFA to be in compliance with the EVMS guidelines in ANSI/EIA-748, the offeror may submit a copy of the documentation of such determination instead of the written description required by paragraph (b)(1) of this provision.

(c) The offeror shall identify the subcontractors (or the subcontracted effort if subcontractors have not been selected) to whom the EVMS requirements will apply. The offeror and the Government shall agree to the subcontractors or the subcontracted effort selected for application of the EVMS requirements. The offeror shall be responsible for ensuring that the selected subcontractors comply with the requirements of the Earned Value Management System clause of the contract.

(End of provision)

252.237-7024 NOTICE OF CONTINUATION OF ESSENTIAL CONTRACTOR SERVICES (OCT 2010)

(a) Definitions. "Essential contractor service" and "mission-essential functions" have the meanings given in the clause at 252.237-7023, Continuation of Essential Contractor Services, in this solicitation.

(b) The offeror shall provide with its offer a written plan describing how it will continue to perform the essential contractor services listed in each task order statement of objectives during periods of crisis. The offeror shall—

(1) Identify provisions made for the acquisition of essential personnel and resources, if necessary, for continuity of operations for up to 30 days or until normal operations can be resumed;

(2) Address in the plan, at a minimum—

(i) Challenges associated with maintaining essential contractor services during an extended event, such as a pandemic that occurs in repeated waves;

(ii) The time lapse associated with the initiation of the acquisition of essential personnel and resources and their actual availability on site;

- (iii) The components, processes, and requirements for the identification, training, and preparedness of personnel who are capable of relocating to alternate facilities or performing work from home;
- (iv) Any established alert and notification procedures for mobilizing identified “essential contractor service” personnel; and
- (v) The approach for communicating expectations to contractor employees regarding their roles and responsibilities during a crisis.

(End of provision)

**L-01 MDA SUPPLEMENTAL SUBCONTRACTING PLAN REQUIREMENTS
(OCT 2009)**

In addition to the content requirements specified in the small business subcontracting plan clauses incorporated herein, plans submitted for consideration by the Contracting Officer shall include the following.

- a. Percentage goals expressed in terms of total contract value. (Note: For the estimated total contract value, reference to the total proposed cost figure from Attachment L-16, WS3-10 [Cost Price Summary] of the offeror’s proposal.)
- b. Individual descriptions and dollar amounts of the planned use of Alaska Native Corporations, Indian tribes and AbilityOne (formerly Javits-Wagner-O’Day) organizations that are included in the proposed small disadvantaged business and small business goals/dollars.
- c. A statement that block 15 of the Individual Subcontract Report and Summary Subcontract Report will contain the email addresses of both the Contracting Officer and the Missile Defense Agency (MDA) Office of Small Business Programs (subcontracting-oversight@mda.mil) in addition to any contractor representatives.
- d. A description of the process the prime contractor will use to ensure timely and accurate small business subcontract reporting for all tiers.

(End of provision)

L.3 INFORMATION TO OFFERORS

L.3.1 Solicitation Point of Contact

The Contracting Officer is the sole point of contact for this acquisition. Address any questions or concerns you may have to Contracting Officer using the following contact information and the communication methods identified in paragraph L.3.2. To ensure a timely written response, submit all questions in writing not later than May 31, 2016, 0800 MDT.

Maureen Atwood, Contracting Officer
Missile Defense Agency
MDIOC Contracts Directorate (DACJ)
730 Irwin Ave, Room 105A

Schriever AFB, CO 80912
Phone: 719.721.0722
Fax: 719.721.9575
Email: IRESCoreTeam@mda.mil

L.3.2 Written Communications

- L.3.2.1 The Joint National Integration Center (JNIC) Research and Development Contract (JRDC) provides all administrative and general services information technology support to the MDA. To minimize the risk of JRDC workforce access to interested party communications related to the IRES acquisition, the IRES Contracting Officer provides three secure methods for written communications.
- L.3.2.2 Send digitally signed and encrypted unclassified emails to the Contracting Officer at IRESCoreTeam@mda.mil. Commercial organizations that do not have an established Public Key Infrastructure (PKI) architecture that is trusted by the Federal Bridge can send encrypted, unclassified email to and receive encrypted, unclassified email from Department of Defense (DoD) entities by leveraging the external certification authority (ECA) Program. The DoD established the ECA program to support the issuance of DoD-approved certificates to industry partners and other external entities and organizations. The ECA Program is designed to provide the mechanism for these entities to securely communicate with DoD (e.g., exchange digitally signed and encrypted email) and authenticate to DoD information systems (e.g., access DoD websites). For information on how to obtain an ECA certificate, visit the DISA ECA PKI Program website. MDA requires the Medium Assurance ECA certificate and the Identity/Signature and Encryption certificate types. Encrypted email is the preferred method of written communications from prospective offerors.
- L.3.2.3 Mail hard copy or CD/DVD communications to the address in paragraph L.3.1. CD/DVD is preferred over hard copy. Please be aware that delivery of mail (even overnight mail) may be delayed by several days after arrival at Schriever Air Force Base (AFB). Hand-carried submissions of communications will not be accepted unless expressly authorized by the Contracting Officer.
- L.3.2.4 Fax the information to 719-721-9575. This fax machine is within the acquisition team's secure area, so you need not call in advance of the transmission.
- L.3.2.5 The Contracting Officer strongly encourages all prospective offerors to obtain email encryption capability as described in paragraph L.3.2.2. Use of unencrypted email by the submitter prior to receipt of proposals is done at the submitter's own risk, but will be accepted by the Contracting Officer. The appropriate transmission method for exchanges with offerors after receipt of proposals (reference Federal Acquisition Regulation (FAR) 15.306) will be as directed or allowed by the Contracting Officer.

L.3.3 Errors, Omissions and /or Ambiguities

If an offeror believes the requirements in these instructions or the solicitation, including any of the solicitation's attachments, contain an error, omission, ambiguity, or are otherwise unsound, the offeror shall notify the Contracting Officer in writing with supporting rationale not later than May 31, 2016, 0800 MDT.

L.3.4 Solicitation Amendments

The Government reserves the right to amend any portion of this solicitation. Amendments will be available on the FedBizOpps website at <https://www.fbo.gov/>. Offerors are encouraged to subscribe for real-time email notifications when information has been posted to FedBizOpps. If amendments include material changes, the proposal due date may be extended at the discretion of the Contracting Officer. In such cases, the amendment will include the new proposal due date and time.

L.3.5 Bidders' Library

Interested parties may request the IRES Bidders' Library at any time using the attached IRES Request for Bidders' Library and Document Handling and Safeguarding Procedures Agreement provided at Attachment L-01. Companies that have already requested the library need not submit another request to receive any and all updates. After receipt of proposals, offerors are the only parties that will be eligible to receive library updates.

L.3.6 Site Visit

Reference FAR 52.237-1, *Site Visit*. A site visit was conducted on December 2, 2015. If additional site visits for self-identified prospective prime contractors are scheduled, the details will be published on the FedBizOpps website.

L.3.7 Pre-Proposal Conference

The details associated with a pre-proposal conference, if conducted, will be published on the FedBizOpps website.

L.3.8 Use of Non-Government Support Services and Advisors

L.3.8.1 Non-Government personnel from the companies identified below will be utilized in support and advisory roles. Contractor personnel supporting this acquisition have signed non-disclosure agreements (NDAs) and are subject to organizational conflict of interest (OCI) restrictions. These companies, having access to the proprietary information of others during source selection activities, are contractually required to protect proprietary data submitted by prospective offerors. If a prospective offeror desires an NDA with any of these companies to further protect submitted proprietary information from unauthorized use or disclosure, please contact the company directly.

L.3.8.2 The companies are:

BCF Solutions
14325 Willard Road, Suite 107
Chantilly, VA 20151

Canvas Management Associates
4092 Memorial Parkway SW, Suite 100
Huntsville, AL 35802

Kepler Research Inc.
13663 Office Place, Suite 202
Woodbridge, VA 22192

LinTech Global, Inc.
31600 W 13 Mile Rd, Suite 122
Farmington Hills, Michigan 48334-1407

Modern Technology Solutions, Inc.
5285 Shawnee Road, Suite 400
Alexandria, VA 22312

Quantech Services, Inc.
6703 Odyssey Drive, Suite 101
Huntsville, AL 35806

- L.3.8.3 If an offeror objects to disclosure of its submittals to non-Government personnel, the offeror shall provide its written objections to the Contracting Officer not later than May 31, 2016, 0800 MDT (or as specifically required in a solicitation amendment). If an offeror objects to disclosure of a portion of its proposal, it shall provide its consent for the remainder of the proposal to the Contracting Officer within the same timeframe. Written objections must include a detailed statement of the basis for the objection and identify specific portions of the proposal that are not to be disclosed to non-Government personnel. The Contracting Officer will adjudicate the identified concerns with the offeror to reach agreement on the appropriate resolution.

L.3.9 Examination / Audit of Records and Preaward Survey

The Contracting Officer, or an authorized representative of the Contracting Officer to include the Defense Contract Management Agency (DCMA) and the Defense Contract Audit Agency (DCAA), shall have the right to examine and audit all records necessary to permit an adequate evaluation of the proposed cost / price and offeror business systems. A preaward survey or similar survey may be accomplished to support a determination regarding any or all of the contractor responsibility factors identified in FAR Subpart 9.1 as supplemented. The survey may be conducted with the assistance of DCMA and DCAA and may include, if necessary, the examination and audit of all records to permit an adequate evaluation of contractor responsibility.

L.3.10 Major Subcontractor

Throughout this solicitation and unless otherwise stated, “major subcontractor” is defined as a subcontractor, teammate, or partner: 1) whose proposed effort provides 10% or more of the proposed total price of the task orders associated with Attachments L-08, L-10, L-11, and L-12; or 2) included in the offeror’s Contract Data Matrix at Attachment L-04.

L.3.11 Classified Data

Classified submissions from offerors are not requested or authorized.

L.3.12 Alternate Proposals

Alternate proposals will not be considered.

L.3.13 Awardable Task Orders

The Government reserves the right to award task orders associated with Attachments L-08, L-10, L-11, and L-12 in conjunction with contract award or at any time during the transition period following award of the basic contract. All information necessary to negotiate and prepare the task orders for award is included / requested in the solicitation or will be obtained during the discussion / negotiation process. If those task orders are to be awarded in conjunction with the basic contract award and without further negotiation, those task orders in their negotiated format will be provided to each offeror in the competitive range for signature and submittal with its final proposal revision.

L.4 PROPOSAL SUBMISSION**L.4.1 General Requirements and Guidelines**

Reference FAR 52.215-1(c) for overarching submission requirements and guidelines.

L.4.2 Proposal Due Dates and Times

L.4.2.1 Proposals are due by the “Due Date / Time” specified in Exhibit L-1. All time identified in Exhibit L-1 are Mountain Daylight Time (MDT). Request offerors submit Volume 1 (Contract Documentation, Part 1) and Volume 2 (Past Performance) by the “Early Date / Time” in Exhibit L-1.

L.4.2.2 Volumes 1 and 2 may be omitted from the package delivered by the “Due Date / Time” if the content remains unchanged. If any modifications are made to Volumes 1 and 2 after the early delivery date, the entire volume must be submitted with the remainder of the proposal by the “Due Date / Time.” In addition to all other content required in section L.5, a narrative summary of all modifications made and an electronic track-changes version of the volume(s) modified must be included with the submission.

Exhibit L-1. Proposal Due Dates and Times

Volume	Due Date / Time	Early Date / Time	# Hard Copies	# CDs / DVDs
1 – Contract Documentation, Part 1	Jul 19, 2016 / 1400 MDT	Jun 20, 2016 / 1400 MDT	0	Original + 2
2 – Past Performance	Jul 19, 2016 / 1400 MDT	Jun 20, 2016 / 1400 MDT	1	Original + 2
3 – Technical	Jul 19, 2016 / 1400 MDT	Not applicable	1	Original + 2
4 – Cost / Price	Jul 19, 2016 / 1400 MDT	Not applicable	0	Original + 2
5 – Contract Documentation, Part 2	Jul 19, 2016 / 1400 MDT	Not applicable	0	Original + 2

L.4.3 Proposal Delivery

All proposals shall be hand-delivered to the IRES representative at the Schriever AFB Visitor's Center/Pass and Registration (Building 15, on the right immediately prior to entering the North/Main/Enoch gate on Enoch Road) on the dates specified in Exhibit L-1, 0900 – 1400 MDT. Early submission of proposals can be accommodated if delivery date / time are pre-

coordinated with the Contracting Officer identified in paragraph L.3.1 at least 3 days prior to the delivery date. To ensure an IRES representative is at the Visitor's Center to receive the proposal, offerors shall confirm their delivery date and time with the Contracting Officer identified in paragraph L.3.1 at least 3 calendar days prior to the delivery date.

L.4.4 Packaging and Marking

All copies, paper and electronic, of an offeror's proposal shall be submitted together in accordance with the due date for the particular volumes defined in Exhibit L-1. Offeror and team member information (including sealed packages) must be packaged into the proposal submission. The proposal may be submitted in multiple boxes. If multiple boxes are used, the outside of each box is to be labeled with the box numbered (e.g., box 1 of 3) on the top and sides. An inventory of the contents of each box (e.g., Vol 1, “#” binders, Vol 2, “#” binders) should be enclosed within the box.

L.4.5 Receipt

Bring two copies of the delivery receipt for the IRES representative to sign. The IRES representative will keep one signed receipt and provide the other signed receipt to the offeror's delivery person.

L.4.6 Proposal Expiration Date

Proposals in response to this solicitation shall be valid for at least 270 days after the proposal due date.

L.5 PROPOSAL CONTENT

L.5.1 General Instructions

L.5.1.1 The proposal instructions in this section are designed to assist offerors in preparing a complete response that addresses all solicitation requirements.

L.5.1.2 Proposals shall be clear, concise, and shall include sufficient detail for effective evaluation and for substantiating the validity of stated claims. Elaborate brochures or documentation, binding, or detailed artwork are unnecessary and are not desired.

L.5.1.3 Offerors shall assume that the MDA has no prior knowledge of their capabilities and experience, and will base its evaluation of Volume 3 (Technical) solely on the information presented in the offeror's proposal.

L.5.2 Responsiveness and Completeness

By submission of its offer, the offeror consents and agrees to all solicitation terms and conditions, unless otherwise stated. The proposal must include all data and information requested and must be submitted in accordance with these instructions. Non-conformance with the instructions provided may result in an unfavorable proposal evaluation or the offeror being ineligible for award of the contract.

L.5.3 Proposal Organization

The offeror shall prepare the proposal as set forth in Exhibit L-2 Proposal Organization. [Note: Replace “xxx” under File Naming Convention column with a consistent short name for the offeror.]

Exhibit L-2. Proposal Organization

Notes:

- Document, as negotiated, will be incorporated into Section J of the awarded contract or as an attachment to a task order.
- The Property Management Plan, as negotiated, will be incorporated into Section J of the awarded contract.
- Worksheets (WS) 3-2 Contract Rates and WS3-3 Fee Structure Table, as negotiated, will be incorporated into Section J of the awarded contract
- Submission using the Section L MS Excel templates / workbooks is required.

L.5.3.1 Page Limitations

L.5.3.1.1 Page limitations shall be treated as maximums. Compliance with page count limits shall be verified on the electronic “original.” Each side of each 8½ x 11

inch sheet that displays printed material shall be counted as one page for page limitation purposes. Each side of each 11 x 17 inch sheet that displays printed material shall be counted as two pages for page limitation purposes. Sheet size is limited to 8½ x 11 and 11x17 inches.

L.5.3.1.2 If page limits are exceeded, the excess pages and/or content will not be considered in the evaluation of the proposal.

L.5.3.1.3 Page limitations may be placed on responses to evaluation notices (ENs). The specified page limits for EN responses will be identified in the letters forwarding the ENs to the offerors.

L.5.3.2 Page Format

L.5.3.2.1 General. The formatting required by section L.5.3.2 applies only to proposal tabs 2a, 2b, 2e, 2f, 3a, 3b, 3c, 3d, 3e, 3f, 3g, 3h, 3i, 3j, 3k, 3l, 3m, 3n, and 3o. Compliance with formatting requirements shall be verified on the electronic “original.” Noncompliant content will not be considered in the evaluation of the proposal. The Contracting Officer may waive noncompliance issues that she determines do not provide an offeror with an unfair competitive advantage—such as noncompliance issues that, if corrected, would not provide the offeror with the potential for exceeding the page limitations in L.5.3.1.

L.5.3.2.2 Text. Text includes free text as well as text in tables, focus boxes, and other representations of several sentences or paragraphs of information. Text size shall be Times New Roman or Arial font with no font kerning and at least single spaced; point size shall be 10-point or larger. Any words, including words in graphics, that meet these requirements will be deemed compliant.

L.5.3.2.3 Graphics. Graphics are graphs, charts, figures, diagrams, and pictures. Words in a graphic shall convey the meaning of or complement the image. Graphics are not text as defined above, nor do they include more than two continuous sentences of text. Graphics may include identifiers, bullets, labels, titles, and the like. Words within graphics shall be Times New Roman or Arial font with no font kerning and at least single spaced; point size shall be 8-point or larger. Graphics shall not be linked to corporate portals (e.g., SharePoint) or network drive locations. All links to external sources of content shall be removed before the documents are delivered.

L.5.3.2.4 Margins. Margins on all four edges of each sheet shall be at least one inch; proprietary statements, security markings, and page numbers can fall within the defined margin area. Information included in the margins will not be considered in the evaluation of the proposal; so text within the margins may be any font and any point size..

L.5.3.3 Hard Copies

L.5.3.3.1 The content, page size, and font of electronic copies must be identical to the electronic “original.”

- L.5.3.3.2 Each hard copy volume of the proposal shall be separately bound in a three-ring loose-leaf binder, which shall permit the volume to lie flat when open.
- L.5.3.3.3 The front cover of each binder shall clearly identify the volume number, copy number, offeror's name, solicitation title, and solicitation number.
- L.5.3.3.4 The spine of each binder shall clearly identify the volume number, copy number, offeror's name, and solicitation number.
- L.5.3.3.5 A cover sheet shall be bound in each binder, clearly marked as to volume number, copy number, offeror's name, solicitation title, and solicitation number.
- L.5.3.4 Electronic Copies**
- L.5.3.4.1 The content, page size, and font of electronic copies must be identical to the electronic "original."
- L.5.3.4.2 Electronic versions shall be submitted on a CD/DVD in a protector (jewel box or sleeve). Indicate on each CD/DVD and the protector the offeror's name, volume number, and solicitation number and title.
- L.5.3.4.3 Electronic file directory titles and organization shall reflect the titles and organization of the instructions provided in Exhibit L-2. Each volume shall be submitted on a separate CD/DVD.
- L.5.3.4.4 Each CD/DVD shall contain a Master Table of Contents for that CD/DVD.
- L.5.3.4.5 Complete electronic volumes shall be submitted in Microsoft Office format, readable by Microsoft (MS) Word 2010, Excel 2010 (pricing), Project 2010, and Power Point 2010, as applicable and compatible with the following available Government equipment and software products: Microsoft Office 2010. Offerors are permitted to submit documents such as signed letters and embedded graphics (if applicable) in .pdf format.
- L.5.3.4.6 Offerors shall ensure electronic versions on CDs/DVDs are virus free. If electronic files contain links, the links must be intact and maintained through all revisions. Electronic files contained on the original and copy 1 of the CD/DVDs shall not be read/write/ password protected. Copy 2 of the CD/DVDs submitted may include read/write/password protections if desired by the offeror.
- L.5.3.4.7 Sound or video files shall not be embedded into the electronic proposal files.
- L.5.3.5 Table of Contents**
- L.5.3.5.1 Each volume shall contain a table of contents. The table will not count against the page limitations for their respective volumes.
- L.5.3.5.2 Each volume shall contain a list of all tables, figures or exhibits within that volume. The lists will not count against the page limitations for their respective volumes.

- L.5.3.5.3 Each volume shall contain a glossary of all abbreviations and acronyms used, with an explanation for each. One glossary may be developed for the entire proposal and provided in each volume. Glossaries do not count against the page limitations for their respective volumes.
- L.5.3.5.4 The offeror shall provide the proposal cross reference matrix using the format provided in Exhibit L-3. The purpose of the matrix is to cross reference the offeror's proposal to, at a minimum, the Statements of Objectives (SOOs), Section L and Section M. The offeror may populate, and include additional rows / columns as necessary to facilitate a more efficient evaluation. Data presented in the matrix will not be evaluated; the matrix is only a tool to assist in the proposal evaluation process and is provided for informational purposes only. The offeror is ultimately responsible for ensuring all areas are fully addressed and all requested information is completed and turned in appropriately in accordance with Section L of the solicitation. The Cross Reference Matrix does not count against the page limitations for their respective volumes.

L.5.3.6 Cross Referencing

Cross-referencing is permitted where its use would improve readability or reduce the page count. Only information within the designated proposal tab, however, will be evaluated in meeting the requirements.

Data provided in proposal Tab 3p may be considered in the evaluation of any proposed tool / application, regardless of which proposal tab(s) that tool / application is identified.

Cross referencing between the proposal tabs associated with each SOO (Transition SOO tabs 3d, 3e, and 3f; IRES SE&PI SOO tabs 3g, 3h, 3i; EITS SOO tabs 3j, 3k, 3l; FE&O SOO tabs 3m, 3n, 3o) may create uncertainty with regard to what is being offered as a contractually binding requirement, if not captured in the CPWS tabs (3e, 3h, 3k, 3n). For example, a discussion of an intent to exceed a SOO performance threshold in the Narrative tab (3d, 3g, 3j, 3m) without identifying the new, higher threshold in the CPWS tab (3e, 3h, 3k, 3n) may create uncertainty with regard to the offer.

L.6 VOLUME 1 – CONTRACT DOCUMENTATION, PART 1

L.6.1 Tab 1a: Team List

Complete and submit Attachment L-02, Team List, identifying the offeror's team (prime and subcontractors) included in the offeror's proposal.

L.6.2 Tab 1b: Organizational Conflict of Interest (OCI) Disclosure

L.6.2.1 For the prime contractor (including affiliates: associated business concerns or individuals if, directly or indirectly—(1) either one controls or can control the other; or (2) a third party controls or can control both) and all subcontractors (including affiliates), submit a disclosure package that includes an OCI Analysis / Disclosure Form (solicitation Attachment L-03) for each MDA- or Ballistic Missile Defense System (BMDS)-related contract or subcontract whose period of performance was active on or after January 1, 2013, including solicitations for

contracts that have not yet been awarded in which the prime contractor or subcontractor is a participating party. Also disclose any other contracts, activities, or relationships that, in the opinion of the contractor or subcontractor, may create a potential OCI. The offeror's assessment of whether or not a particular contract or relationship may create an actual or potential OCI must consider the general rules in FAR Subpart 9.505 and Defense FAR Supplement (DFARS) Subpart 209.5, including the following types of potential or actual OCIs: (a) impaired objectivity, (2) biased ground rules, (3) unequal access to information; and (4) Systems Engineering and Technical Assistance (SETA) (reference L.6.3.4). Include an index that identifies the prime, each subcontractor, and the list of the disclosure documents submitted for each.

- L.6.2.2 To protect sensitive data, subcontractors may submit a sealed package with the sensitive portions of their disclosures to the prime contractor for inclusion with the prime contractor's submission to the Government. The prime contractor, however, is responsible for an independent OCI assessment and comprehensive mitigation plan for itself and all subcontractors.
- L.6.3 Tab 1c: Organizational Conflict of Interest (OCI) Management and Mitigation Plan**
- L.6.3.1 Submit an OCI Management and Mitigation Plan that addresses internal processes and procedures for identifying, evaluating, and resolving actual or potential OCI, both prior to and after contract award, for the prime contractor (including affiliates) and all subcontractors (including affiliates). The plan shall also describe the offeror's OCI training and oversight programs, and the offeror's procedures for complying with FAR 9.5, DFARS 209.5, MDA's OCI policy at Attachment J-07 (item # 53), and the OCI clause in Section H of the solicitation, *Organizational Conflict of Interest (Jan 2016) MDA/DACJ*.
- L.6.3.2 The plan shall address all actual and potential OCIs identified in the OCI disclosures made as required in paragraph L.6.2 in adequate detail for the Contracting Officer to determine whether an OCI exists and has been mitigated.
- L.6.3.3 The plan shall also address measures to ensure proprietary and nonpublic information is properly used and safeguarded consistent with OCI clause in Section H of the solicitation, *Organizational Conflict of Interest (Jan 2016) MDA/DACJ*. Specifically, but not exclusively, address access to proprietary and nonpublic information that may result from contractor system administration privileges necessary to provide the enterprise information technology services described in Attachment L-11.
- L.6.3.4 The IRES contract is predominantly a research, development, test and evaluation (RDT&E) services contract that also involves the development of a weapon system for the purpose of applying the specific OCI restrictions at DFARS 209.571 that may be included in other MDA and non-MDA contracts.

L.6.4 Tab 1d: Supply Chain Risk Management Plan

L.6.4.1 Reference DFARS 252.239-7018, *Supply Chain Risk*. Submit a plan detailing the approach to supply chain risk management. The plan shall describe the offeror's approach to supply chain risk management, including how the offeror will identify the risks to the supply chain and the risk management strategies employed to counter those risks in accordance with Tier 2 and 3 tasks identified in NIST 800-161, *Supply Chain Risk Management Practices for Federal Information Systems and Organizations*, dated April 2015. The offeror's plan shall also address the appropriate controls to ensure their subcontractor's plans comply with supply chain risk management requirements in accordance with DoD 5200.44 and Software Assurance Countermeasures in Program Protection Planning dated March 2014.

L.6.4.2 Identify critical components and subcomponents in their system design and describe how the offeror will ensure visibility into the supply chain and to ensure the integrity of those critical components and subcomponents. The offeror shall describe their process to verify that critical function components received from suppliers are free from malicious code, counterfeit parts or unauthorized product substitution (e.g., seals, inspection, secure shipping, testing, etc.).

L.6.4.3 Identify known suppliers and subcontractors within the contractor's supply chain. The plan shall include provisions to review and update plan annually (at a minimum) and prior to use of suppliers and / or subcontractors at any time in the performance of the contract within the information technology arena.

L.6.5 Tab 1e: Plan for Compliance with Safeguarding Covered Defense Information Controls

L.6.5.1 Submit a plan detailing the approach to safeguarding Covered Defense Information within the contractor's (offeror and all subcontractors) facilities in accordance with National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, *Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations*, as identified in DFARS 252.204-7012, *Safeguarding Covered Defense Information and Cyber Incident Reporting*. The NIST 800-171 security requirements shall be extended to include all Covered Defense Information (CDI) which resides on, or transits through the contractor's (offeror and all subcontractors) unclassified information technology systems. As required by DFARS 252.204-7008, *Compliance with Safeguarding Covered Defense Information Controls*, the offeror shall identify in this plan any request to deviate from NIST SP 800-171. An authorized representative of the DoD CIO will approve or disapprove offeror requests to deviate from NIST SP 800-171 requirements, as extended to include all CDI as described in this paragraph, in writing prior to contract award.

L.6.5.2 Describe the policies, procedures, and standards used to safeguard and protect CDI from unauthorized access, disclosure, incident, or compromise provided by or generated for the Government (other than public information) that transits or

resides on any non-Government information technology system (offeror and all subcontractors) from both internal and external sources.

- L.6.5.3 Describe the procedures to track and report Cybersecurity incidents at offeror (and subcontractor) facilities.
- L.6.5.4 Validate that any IT service either utilized or provided by them (offeror and subcontractor) leveraging cloud computing in the execution of the IRES contract are executed in accordance with the provision described in DFARS 252.239-7010, *Cloud Computing Services*.

L.6.6 Tab 1f: Essential Contractor Services

- L.6.6.1 Application of the requirements of DFARS 252.237-7023, *Continuation of Essential Contractor Services*, will be determined for each task order issued under the contract on a case-by-case basis. The four task orders that are negotiated with and may be awarded as a result of this solicitation do not include any mission essential functions.

- L.6.6.2 The plan required by 252.237-7024, *Notice of Continuation of Essential Contractor Services*, is not required at this time; but may be required at some point over the life of the contract if /when mission essential functions are identified in individual task orders. The offeror shall confirm that it will negotiate the plan with the Government, if/when required.

L.6.7 Tab 1g: Business System Status.

Reference DFARS 252.242-7005, *Contractor Business Systems*, and the cross references to system-specific DFARS clauses contained therein.

- L.6.7.1 **Tab 1g-1: Purchasing System.** Submit evidence of the results of the most recent system review by DCMA/DCAA. Identify any known or cited system deficiencies and summarize the correction action plan.

- L.6.7.2 **Tab 1g-2: Property Management System.**
Submit evidence of the results of the most recent system review by DCMA/DCAA. Identify any known or cited system deficiencies and summarize the correction action plan.

Submit a strategic-level Property Management Plan addressing the following: (a) description of the property management system; (b) purpose of the property management system; (c) applicable laws, regulations, and/or instructions for property management system compliance; (d) how the contractor will manage different property types (e.g., government property, contractor owned property, subcontractor owned property, etc.); (e) how the ten outcomes of the government property will be addressed in the property management system in accordance with FAR 52.245-1(f)(1); (f) applicable standards (e.g., voluntary consensus standards, industry leading practices) used in the property management system; and (g) plan to meet address all property-related clauses in the solicitation.

- L.6.7.3 **Tab 1g-3: Accounting System.** Submit evidence of the results of the most recent system review by DCMA/DCAA. Identify any known or cited system deficiencies and summarize the correction action plan. Provide the same information for any major subcontractor with which you intend to establish other than a firm-fixed-price subcontract arrangement.
- L.6.7.4 **Tab 1g-4: Estimating System.** Submit evidence of the results of the most recent system review by DCMA/DCAA. Identify any known or cited system deficiencies and summarize the correction action plan.
- L.6.7.5 **Tab 1g-5: Earned Value Management System.** Provide the documentation required by paragraph (a) of DFARS 252.234-7001, *Notice of Earned Value Management System (Deviation 2015-O0017)*.
- L.6.7.6 **Tab 1g-6: Material Management and Accounting.** Submit evidence of the results of the most recent system review by DCMA/DCAA. Identify any known or cited system deficiencies and summarize the correction action plan.

L.6.8 Tab 1h: Financial Capability Information

Demonstrate that the offeror has or can obtain adequate financial resources to perform the contract in accordance with FAR 9.104-1(a) and DFARS 232.072. State whether or not DCMA, DCAA, the Small Business Administration (SBA), or an independent organization has conducted a financial assessment within the 24-month period prior to proposal submission; and if so, provide evidence of the assessment results. If results of a DCMA, DCAA, or SBA financial assessment in the last 24 months are not available, provide sufficient evidence of adequate financial resources consistent with DFARS 232.072-2(b) and 232.072-3.

L.6.9 Tab 1i: Facility Clearance Information

Demonstrate that the offeror possess a facility clearance equal to the highest classification stated on the Contract Security Classification Specification, DD Form 254, attached to this solicitation.

L.6.10 Tab 1j: Equal Opportunity Compliance Information

Reference 52.222-24, *Preaward On-Site Equal Opportunity Compliance Evaluation*. Submit the information at FAR 22.805(a)(5) for the offeror and its known first-tier subcontractors with anticipated subcontracts of \$10 million or more.

L.7 VOLUME 2 – PAST PERFORMANCE

Past Performance information allows offerors to demonstrate their record of performance and is to be provided in accordance with the instructions in Exhibit L-02.

L.7.1 Tab 2a: Team Summary

Provide a brief description of the roles and / or primary areas of performance planned for contractors identified in Attachment L-04 – Contract Data Matrix (CDM).

L.7.2 Tab 2b: Organizational Structure Change History

L.7.2.1 Provide a brief description of the organizational structure change history for the prime and major subcontractors listed on the CDM.

- L.7.2.2 Many companies have acquired, been acquired by, or otherwise merged with other companies, and/or reorganized its divisions, business groups, subsidiary companies, etc. Explain how these changes impact the relevance of any efforts you identify for past performance evaluation/confidence assessment. Since the Government intends to consider past performance information provided by other sources as well as that provided by the offeror(s), your “roadmap” should be both specifically applicable to the efforts you identify and general enough to apply to efforts on which the Government receives information from other sources. This information is required on the offeror and major subcontractors (including teaming partners and/or joint venture partners), as necessary.
- L.7.2.3 The organizational change roadmap must address a minimum period of 5 years, and must contain the Data Universal Number System (DUNS) number and Commercial and Government Entity (CAGE) code for the acquired, merged and/or reorganized its divisions, business groups, subsidiary companies.
- L.7.3 Tab 2c: Contract Data Matrix (CDM)**
- L.7.3.1 Submit contract data for recent/relevant (as defined in Section M) past performance evaluation on Attachment L-04. Offerors may submit and the matrix will accept a maximum of 24 contract references. A minimum of 3 contract references must be from the prime* offeror. Identify contracts you consider most relevant to demonstrate your team’s ability to perform the proposed effort. *Note: If the offeror is an unpopulated joint venture, the organization responsible for the management is considered the ‘prime’ offeror (upon whom the responsibility determination required by FAR Subpart 9.1 will be made).
- L.7.3.2 It is the offeror’s responsibility to ensure the data provided on the CDM columns A through Z is accurate and complete. The CDM will be used by the Government as a tracking tool during the past performance evaluation (columns AA through AM).
- L.7.4 Tab 2d: CDM Attachments**
- L.7.4.1 This information is required for contracts identified on the CDM if an evaluation method other than or in addition to a Contractor Performance Assessment Report (CPAR) has been used in the conduct of performance assessments (e.g., award fee notification letters, briefings, a subcontractor’s prime contractor performance evaluation, etc.). All Government-developed performance assessment documentation associated with a contract on the CDM that has been provided to the contractor during the period defined as ‘recent’ shall be submitted.
- L.7.4.2 Contractor-developed self-assessments will not be considered or evaluated, and should not be submitted with the proposal.
- L.7.5 Tab 2e: Past Performance Information (PPI) Narrative**
- L.7.5.1 Provide a brief narrative for each contract identified in the CDM. Explain the nature of the work involved and the extent the work involved was/is considered by the offeror to be similar to the IRES effort.

- L.7.5.2 Describe and provide examples of performance relevant to the requirements in the IRES statement of objectives at solicitation Attachment J-01, with emphasis on the following areas:
- a) Management/integration of teams similar to the team proposed (applicable to prime offeror only).
 - b) Experience/performance executing contract transitions.
 - c) Experience/performance in executing requirements similar to the IRES high level objectives:
 - Systems Engineering and Program Integration
 - BMDS Mission Operations (includes Infrastructure Readiness Posture, Warfighter Mission Support, and Satellite Operations)
 - BMDS Flight and Ground Tests (includes Flight Test Support, Ground Test Execution, and Performance Assessment Execution)
 - Exercises and Wargames
 - Modeling and Simulation (M&S) (includes development and sustainment)
 - Enterprise Communications and Information Technology Environment (includes Architecture Design, Implement Secure IT, Manage, Operate, Maintain IT Services, Manage & Maintain Secure IT Infrastructure, and Customer Interface and Support Services)
 - Operation of Facility Infrastructure (includes Operate & Maintain Common-use Facility and MDIOC Facility Repair and Alteration)
 - d) Process improvements/innovation of products, services, tools and/or operations
 - e) Quality awards
 - f) Discuss problems encountered, if any, and the contractor's corrective actions.

L.7.6 Tab 2f: Small Business Utilization

All offerors shall provide a narrative describing actual use of small businesses as subcontractors or teaming partners and demonstrate the extent of compliance with the offeror's small business subcontracting plans and any other small business related plans / incentives for all of the offeror's contracts identified in the response to Attachment L-04, Contract Data Matrix (CDM). The description must include small business goals and the extent to which the goals were achieved for the contracts identified in the CDM that included subcontracting or other small business related plans / incentives. If goals were not achieved, explain why.

DoD Comprehensive Subcontracting Plan Test Program participant's narrative description must provide the Government with sufficient details of small business utilization performance on contracts for the government to assess the contract's small business utilization contributions to achieving comprehensive subcontracting plan goals and enhancing opportunities for small business concerns.

Large business offerors shall provide the most recent Individual Subcontracting Reports (ISRs) and Summary Subcontracting Reports (SSRs) for the contracts identified in the CDM that required submission of such reports. (ISRs and SSRs do not count against the page limitations identified in Exhibit L-2.)

L.7.7 Tab 2g: Consent and Client Authorization Letters

L.7.7.1 Each major subcontractor listed on the CDM shall execute a Consent Letter, similar to Attachment L-05, authorizing the Government to release adverse past performance information to the offeror so the offeror can respond to such information. The offeror shall provide the consent letters in this tab. If the offeror fails to submit consent letters with the proposal, the Government will not discuss adverse subcontractor past performance information with the prime contractor and will deem the failure to submit subcontractor consent letters to be a waiver of the Government's obligation to disclose or discuss adverse subcontractor past performance information.

L.7.7.2 The offeror and each major subcontractor listed on the CDM, shall execute a Client Authorization Letter, similar to Attachment L-06, for commercial customers authorizing release to the Government of requested information on their respective performance. The offeror shall provide the client authorization letters in this tab. If the offeror fails to submit client authorization letters with the proposal, the Government will not contact the specified client and will deem the failure to submit the authorization letter to constitute a waiver of any Government obligation to obtain or consider any past performance information that the client may have been able to provide during the evaluation process.

L.7.8 Tab 2h: Past Performance Questionnaires

L.7.8.1 Past performance questionnaires may be used in the event CPAR data is not available.

L.7.8.2 The offeror is responsible for completing Part 1 of Attachment L-07 (Past Performance Questionnaire) for contracts identified on the CDM for which the customer/client does not prepare CPARS reports. The Government will not modify, add or fix any information in Part 1. The Government will issue the questionnaires to the references identified. Government references are preferred, but are not required. If performance is as a subcontractor, the corresponding CPAR for the prime contractor, if available, will be used for technical performance assessment; the corresponding CPAR will not be used to assess the offeror's management history. If performance is as a joint venture (JV), the corresponding CPAR for the JV will be used for the technical assessment; the corresponding CPAR will only be used to assess the offeror's management history if the offeror provides evidence in the contract narrative of their JV management responsibilities.

L.7.8.3 Even though the assessment of past performance is separate and distinct from determination of responsibility required by FAR Subpart 9.1, past performance information contained herein may be used to support the determination of responsibility for offerors.

L.8 VOLUME 3 – TECHNICAL**L.8.1 Technical Approach****L.8.1.1 Tab 3a: Organization**

- L.8.1.1.1 Discuss your proposed organizational structure and the roles and responsibilities of key positions.
- a) Discuss your approach to managing interfaces and collaboration with multiple stakeholders/customers.
 - b) Discuss how your team will evaluate and monitor workforce capacity; discuss how you will use this information to improve performance.
 - c) Each solicitation SOO contains a “Task Order Administration” section. Discuss your approach and algorithm (e.g., responsibilities, performance attributes, factors, formula, etc.) to proposing and executing the specific requirements under the “Task Order Administration” section as well as the inherent requirements to successfully integrate and coordinate all activity necessary to execute, implement and adhere to the overarching IRES program processes in future task orders issued under the IRES contract. Identify the parameters that may impact your algorithm during the life of the contract as the number of active (simultaneous) task orders fluctuate.
- L.8.1.1.2 Discuss your approach to partner, subcontractor, and supplier management.
- a) Discuss how you will ensure that the partner, subcontractor and suppliers you select for use in the performance of task orders placed on the IRES contract possess the appropriate domain expertise and are qualified and positioned to enhance performance and customer satisfaction and represent the best value to the Government.
 - b) Discuss how you will monitor and incentivize partner, subcontractor and supplier performance.
- L.8.1.1.3 Discuss how your team will develop, standardize, deploy and improve processes.
- a) Discuss how your team will improve processes to achieve better performance, reduce variability, increase throughput and/or improve products.
 - b) Discuss your approach to identify and implement innovations and efficiencies throughout the life of the contract. Discuss how the associated risks will be identified and managed, and how return on investment will be measured, tracked and trended.
 - c) Discuss your approach / process for determining performance metrics and how data will be amassed to support performance reviews, and how you will incorporate findings into lessons learned and best practices across the IRES organization.

L.8.1.2 Tab 3b: IRES Mission Execution

The offeror's response to the processes/approaches below will provide the Government insight into the offeror's ability to execute the technical disciplines that are required to successfully deliver the diverse set of dynamic stakeholder/customer missions across the IRES HLOs.

- L.8.1.2.1 Describe your approach to systems engineering.
 - a) Address how your approach supports mission execution in a dynamic environment that leverages a shared critical infrastructure.
 - b) Address how your approach maintains the integrity of mission configurations during multiple and/or competing missions.
 - c) Discuss the relationship between systems engineering and mission assurance.
- L.8.1.2.2 Describe your approach to ensuring an approved cybersecurity posture for each mission element(s) before, during, and after multiple and/or competing missions. Identify the criteria or process your approach will utilize to apply updates during a mission.
- L.8.1.2.3 Describe your risk management process. Discuss your approach to identify, track, mitigate, and/or elevate potential risk. Discuss how your approach creates an environment that encourages innovation and intelligent risk taking.
- L.8.1.2.4 Describe your approach to maintaining currency with operational warfighter requirements, industry best practices, technological advancements, and regulatory changes.
- L.8.1.2.5 Describe your software engineering and modeling and simulation development and sustainment processes. Identify how you will leverage emerging software development methodologies, philosophies, and techniques. Identify performance measures and process control measures that support the delivery, verification, validation, and integration of contractor products for use in prototyping, experimentation, and developer-level analysis for concept exploration, wargames and exercises, test, training and performance assessment in support of capability fielding and maintenance.

L.8.1.3 Tab 3c: Small Business Participation and Commitment Plan**L.8.1.3.1 General**

- L.8.1.3.1.1 All offerors must submit a Small Business Participation and Commitment Plan.
- L.8.1.3.1.2 The Government's assessment of the offeror's Small Business Participation and Commitment Plan is separate from the FAR requirement for Contracting Officer review and acceptance of an offeror's Small Business Subcontracting Plan.
- L.8.1.3.1.3 The Government's minimum small business utilization goals and subcategory goals for other than small business offerors are provided in Exhibit L-4. Both the percentage of total contract value and percentage of total contract labor hours goals apply; these goals are cumulative for all task orders issued over the life of

the contract. Small business utilization is small business contributions at the contract and first tier subcontract levels. The Government will not specify subcategory utilization goals for small business offerors; small business offerors may propose subcategory goals which incorporate and balance their own performance / participation as a prime.

Exhibit L-4. Minimum Small Business Utilization Goals

Small Business Utilization Goals Note: Percentages represent minimum goals	% of Total Contract Value	% of Total Contract Labor Hours
Small Business (SB) (all types)	40%	30%
Small Disadvantaged Business (SDB)	5%	3%
Woman Owned Small Business (WOSB)	5%	3%
Veteran Owned Small Business (VOSB)	5%	3%
Service Disabled Veteran Owned Small Business (SDVOSB)	3%	2%
Historically Underutilized Business Zone (HUBZone)	1%	0.5%

L.8.1.3.2 Small Business Participation and Commitment Plan Content

As a minimum, the Small Business Participation and Commitment Plan must include the following:

- L.8.1.3.2.1 Proposed goals for utilizing small businesses (all types) and each of the small business subcategories. The utilization goals proposed must be stated as a percentage of both total contract value and total labor hours. These percentage goals are cumulative for all task orders issued as of the date reported in accordance with the task order associated with Attachment L-10, CDRL C012. The goal format is provided in Exhibit L-5. The percentages in the Total column of Exhibit L-5 must meet or exceed the minimum percentages in Exhibit L-4.

Exhibit L-5. Proposed Small Business Utilization Goals

Small Business Utilization Goals	Year 1		Year 2		Year 3		Year 4		Year 5		Year 6		Year 7		Year 8		TOTAL		
	% Contract Value	% Labor Hours	% Contract Value	% Labor Hours	% Contract Value	% Labor Hours	% Contract Value	% Labor Hours	% Contract Value	% Labor Hours	% Contract Value	% Labor Hours	% Contract Value	% Labor Hours	% Contract Value	% Labor Hours	% Contract Value	% Labor Hours	
SB (All Types)																			
SDB																			
WOSB																			
VOSB																			
SD VOSB																			
HUBZone																			

- L.8.1.3.2.2 A description of the method for identifying opportunities and utilizing small businesses in each of the IRES high level objectives (HLOs).

- L.8.1.3.2.3 A narrative explanation regarding the basis for establishing the goals in Exhibit L-5.

L.8.1.3.2.4 A description of the specific initiatives and tools that will be employed under the contract to enhance small business participation and capabilities, to include as a minimum the following objectives:

- (1) Expanding the pool of qualified small businesses to increase competition for products and services.
- (2) Engaging small businesses to serve as second sources in order to mitigate the risks of single point failures in the supply chain and increase the quality of supplies or services.

L.8.1.3.2.5 A description of the process the prime offeror will use to ensure timely and accurate small business subcontract reporting in the Electronic Subcontracting Reporting System (eSRS) for all tiers of subcontracting. Demonstrate assurance that Block 15 of the Individual Subcontract Report and Summary Subcontract Report will contain the email addresses of both the Contracting Officer and the Missile Defense Agency Office of Small Business Programs (subcontracting-oversight@mda.mil).

L.8.1.3.2.6 A description of the process to ensure proper flow-down of small business requirements (including eSRS reporting), process management, and performance assessments of small business participation at lower tiers.

L.8.2 Contractor Performance Work Statements (CPWS) and Basis of Estimate

L.8.2.1 General

L.8.2.1.1 The IRES Contract Statement of Objectives (SOO) (solicitation Attachment J-01) provides overarching vision, purpose, and program goals for the tasks accomplished under the contract. The offeror shall use applicable sections of the IRES Contract SOO and the task order SOOs to develop a contractor performance work statement (CPWS) for each task order, expanding upon the outcomes as necessary to capture the service expectations, tasking to be accomplished, innovations and efficiencies. Offeror responses to these task order SOOs will provide the Government insight into the offeror's ability to successfully execute transition as well as the requirements within the following IRES HLOs: IRES Systems Engineering and Program Integration, Enterprise Communications and Information Technology Environment, and Operation of Facility Infrastructure. Offerors are cautioned that merely parroting the requirements with a statement of intent to perform does not reflect an understanding of or the capability to execute the requirement.

L.8.2.1.2 The proposed CPWSs shall not contain manpower data; this data is to be provided in the accompanying basis of estimate (BOE) documentation. While offerors are expected to address/include all items in the task order SOOs to be considered responsive to the solicitation, the CPWS may incorporate innovative solutions and/or organizational structures that result in an optimum solution to the MDA. The CPWS is a requirements document that will become contractually binding.

- L.8.2.1.3 The CPWSs submitted in response to the SOOs must contain the following data: CPWS paragraph number, task title, SOO paragraph number, brief tasking statements, proposed performance thresholds (and applicable SSI, if appropriate), deliverables, and recommended surveillance methodology, tools and data.
- L.8.2.1.4 Provide a Basis of Estimate (BOE) for resources proposed on each task order. The BOE (including the assumptions contained therein) is not a requirements document and will not become contractually binding.
- L.8.2.1.4.1 Labor. Offerors shall describe their technical approach to delivering the outcomes and performance thresholds contained in the CPWS. Each BOE must explain the following: the methodology for developing the BOE, the proposed labor, skill mix, and assumptions. The details in the BOE must be sufficient for the technical evaluator to understand the rationale used, the source of the underlying data, the detailed calculations involved, and the basis for any complexity factors. The detail must be sufficient for the evaluator to determine the validity of the technical approach and the resource estimate. Note: CPWS paragraph numbers and task titles MUST EXACTLY match the BOE documentation.
- L.8.2.1.4.2 ODCs.
- (1) Government Plug Number: A plug number has been provided for ODCs. This number represents the governments' estimate of ODCs based on historical data, current tools and projections. The ODC plug number is exclusive of all burdens. A BOE for the ODC plug number is not required; however, the offeror's BOE must confirm that the governments' plug number for ODCs does not contain any assets that are not identified or referenced in Paragraph 7.0 (Government Furnished Equipment (GFE) / Government Furnished Information (GFI)) of each SOO, and/or other non-labor resources the offeror considers a direct charge to the contract, and/or other costs (e.g., subcontracted services that are not priced on Attachment L-16, WS3-5 through 3-8).
 - (2) Offeror's ODCs: If the offeror's technical approach / solution utilizes assets (e.g., hardware, software, etc.) that are not identified or referenced in Paragraph 7.0 (Government Furnished Equipment (GFE) / Government Furnished Information (GFI)) of each SOO, and/or other non-labor resources (e.g., relocation, signing bonuses, etc.) the offeror considers a direct charge to the contract, and/or other costs (e.g., subcontracted services that are not priced on Attachment L-16, WS3-5 through 3-8), the offeror shall state so, and identify the associated cost on the task order proposal worksheets Attachment L-16, Cost Price WB3, WS3-4 through WS3-4d. The cost entered shall be exclusive of all burdens.

L.8.2.2 Transition SOO

L.8.2.2.1 Tab 3d: Transition Narrative

Submit a narrative outlining the essential elements of the technical approach to successfully execute the CPWS. Identify assets / tools that are not identified or referenced in Paragraph 7.0 (Government Furnished Equipment (GFE) / Government Furnished Information (GFI)) of the

SOO necessary to execute your approach. Discuss the proposed SSIs and the rationale / methodology for mapping / aggregating performance thresholds to the proposed SSIs.

L.8.2.2.2 Tab 3e: Transition CPWS

L.8.2.2.2.1 Submit a CPWS in response to the Transition SOO provided at solicitation Attachment L-08. The CPWS, when accepted by the Government, will be appended to the SOO document under Section 10.0.

L.8.2.2.2.2 Submit a contractor-proposed service summary item table, that when accepted by the Government, will be appended to the SOO document under Section 11.0.

L.8.2.2.3 Tab 3f: Transition BOE

Submit a BOE for the proposed CPWS. The Government Resource Estimate for the SOO is provided in Exhibit L-6. The resource estimates are not a recommendation or a constraint, and do not consider an offeror's unique approach to satisfying the requirements. Each offeror's approach will be evaluated on its own merits. The resource estimates do not alleviate the offeror of the due diligence required to prepare a narrative, CPWS, and BOE.

Exhibit L-6. Government Resource Estimate: Transition SOO

SOO ¶	Transition Description Title	Hours
5.1	Task Order Administration	9,056
5.2	Task Order Negotiations and Award	30,192
5.3	Transition Task Order Lesson Learned	240
Total Direct Productive Labor Hours		39,488
Weighted Average Direct Labor Rate		\$45.22

L.8.2.3 IRES Systems Engineering and Program Integration (SE&PI) SOO

L.8.2.3.1 Tab 3g: SE&PI CPWS Narrative

Submit a narrative outlining the essential elements of the technical approach to successfully execute the CPWS. Identify assets / tools that are not identified or referenced in Paragraph 7.0 (Government Furnished Equipment (GFE) / Government Furnished Information (GFI)) of the SOO necessary to execute your approach. Discuss the proposed SSIs and the rationale / methodology for mapping / aggregating performance thresholds to the proposed SSIs.

L.8.2.3.2 Tab 3h: SE&PI CPWS

L.8.2.3.2.1 Submit a CPWS in response to the IRES SE&PI SOO provided at solicitation Attachment L-10. The CPWS, when accepted by the Government, will be appended to the SOO document under Section 10.0.

L.8.2.3.2.2 Submit a contractor-proposed service summary item table, that when accepted by the Government, will be appended to the SOO document under Section 11.0.

L.8.2.3.3 Tab 3i: IRES SE&PI BOE

Submit a BOE for the proposed CPWS. The Government Resource Estimate for the SOO is provided in Exhibit L-7. The resource estimates are not a recommendation or a constraint, and do not consider an offeror's unique approach to satisfying the requirements. Each offeror's approach will be evaluated on its own merits. The resource estimates do not alleviate the offeror of the due diligence required to prepare a narrative, CPWS, and BOE.

Exhibit L-7. Government Resource Estimate: SE&PI SOO

SOO ¶	SE&PI Description Title	Hours							
		Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8
5.1	Task Order Administration	2,410	4,820	4,820	4,820	4,820	4,820	4,820	4,820
5.2	Systems Engineering	14,400	29,472	29,472	29,472	29,472	29,472	29,472	29,472
5.3	Program Integration	15,090	21,274	21,082	21,082	21,082	21,082	21,082	21,078
5.4	Continuity of Services	-	-	160	20	20	20	20	20
Total Direct Productive Labor Hours		31,900	55,566	55,534	55,394	55,394	55,394	55,394	55,390
Weighted Average Direct Labor Rate		\$47.99	\$47.95	\$48.98	\$49.89	\$50.89	\$51.91	\$52.94	\$54.00

L.8.2.4 Enterprise Information Technology Services (EITS) SOO**L.8.2.4.1 Tab 3j: EITS Narrative**

Submit a narrative outlining the essential elements of the technical approach to successfully execute the CPWS. Identify assets / tools that are not identified or referenced in Paragraph 7.0 (Government Furnished Equipment (GFE) / Government Furnished Information (GFI)) of the SOO necessary to execute your approach. Discuss the proposed SSIs and the rationale / methodology for mapping / aggregating performance thresholds to the proposed SSIs.

L.8.2.4.2 Tab 3k: EITS CPWS

L.8.2.4.2.1 Submit a CPWS in response to the EITS SOO provided at solicitation Attachment L-11. The CPWS, when accepted by the Government, will be appended to the SOO document under Section 10.0.

L.8.2.4.2.2 Submit a contractor-proposed service summary item table, that when accepted by the Government, will be appended to the SOO document under Section 11.0.

L.8.2.4.3 Tab 3l: EITS BOE

Submit a BOE for the proposed CPWS. The Government Resource Estimate for the SOO is provided in Exhibit L-8. The resource estimates are not a recommendation or a constraint, and do not consider an offeror's unique approach to satisfying the requirements. Each offeror's approach will be evaluated on its own merits. The resource estimates do not alleviate the offeror of the due diligence required to prepare a narrative, CPWS, and BOE.

Exhibit L-8. Government Resource Estimate: EITS SOO

SOO ¶	EITS Description Title	Hours				
		Year 1	Year 2	Year 3	Year 4	Year 5
5.1	Task Order Administration	10,176	20,352	20,352	20,352	20,352
5.2	Portfolio Management Services	30,240	60,480	60,480	60,480	60,480
5.3	Cyber Security Services	72,960	145,920	145,920	145,920	145,920
5.4	Data Center Services	52,800	105,600	105,600	105,600	105,600
5.5	Customer Support Services	63,360	126,720	126,720	126,720	126,720
5.6	Network Administration	35,520	71,040	71,040	71,040	71,040
5.7	Application Administration	36,480	72,960	72,960	72,960	72,960

5.8	Telephony Services	18,240	36,480	36,480	36,480	36,480
5.9	IT Solutions and Sustainment Engineering Services	45,120	90,240	90,240	90,240	90,240
Total Direct Productive Labor Hours		364,896	729,792	729,792	729,792	729,792
Weighted Average Direct Labor Rate		\$40.66	\$41.47	\$42.29	\$43.14	\$44.00

L.8.2.5 Facilities Engineering and Operations (FE&O) SOO

L.8.2.5.1 Tab 3m: FE&O Narrative

Submit a narrative outlining the essential elements of the technical approach to successfully execute the CPWS. Identify assets / tools that are not identified or referenced in Paragraph 7.0 (Government Furnished Equipment (GFE) / Government Furnished Information (GFI)) of the SOO necessary to execute your approach. Discuss the proposed SSIs and the rationale / methodology for mapping / aggregating performance thresholds to the proposed SSIs.

L.8.2.5.2 Tab 3n: FE&O CPWS

L.8.2.5.2.1 Submit a CPWS in response to the FE&O SOO provided at solicitation Attachment L-12. The CPWS, when accepted by the Government, will be appended to the SOO document under Section 10.0.

L.8.2.5.2.2 Submit a contractor-proposed service summary item table, that when accepted by the Government, will be appended to the SOO document under Section 11.0.

L.8.2.5.3 Tab 3o: FE&O BOE

Submit a BOE for the proposed CPWS. The Government Resource Estimate for the SOO is provided in Exhibit L-9. The resource estimates are not a recommendation or a constraint, and do not consider an offeror's unique approach to satisfying the requirements. Each offeror's approach will be evaluated on its own merits. The resource estimates do not alleviate the offeror of the due diligence required to prepare a narrative, CPWS, and BOE.

Exhibit L-9. Government Resource Estimate: FE&O SOO

SOO ¶	FE&O Description Title	Hours				
		Year 1	Year 2	Year 3	Year 4	Year 5
5.1	Task Order Administration	4,176	8,352	8,352	8,352	8,352
5.2	Facilities Engineering	4,216	8,432	8,432	8,432	8,432
5.3	Facilities Operations and Maintenance	42,552	85,104	85,104	85,104	85,104
Total Direct Productive Labor Hours		50,944	101,888	101,888	101,888	101,888
Weighted Average Direct Labor Rate		\$26.29	\$26.81	\$27.35	\$27.89	\$28.45

L.8.3 Tab 3p: Tool / Application Data

For each tool / application proposed to satisfy requirements in the solicitation that is not already included in Attachment J-05 or enclosures contained in Attachment L-11, submit the information required by the Tool / Application Questionnaire (including the embedded spreadsheet) at Attachment L-17. Submit one questionnaire response for each proposed tool / application.

L.9 VOLUME 4 –COST / PRICE

L.9.1 General

Failure to comply with solicitation requirements for pricing information may result in rejection of the proposal as non-conforming. When an offeror fails to completely and accurately provide all pricing information required by the solicitation, the offeror bears full responsibility for any resulting adverse impact. For example, a proposal which fails to contain an Excel Pricing Workbook (EPW) or contains an incomplete EPW may be rejected as unawardable and, if evaluated, the offeror bears responsibility for adverse impact on the evaluation.

For proposal purposes, the estimated periods of performance are shown in Exhibit L-10.

Exhibit L-10. Estimated Periods of Performance to be used in Cost/Price Development

Ordering/Performance Period	Duration	Start Date
Base Period	5 Years	1 February 2017
Award Term 1	1 Year	1 February 2022
Award Term 2	1 Year	1 February 2023
Award Term 3	1 Year	1 February 2024

L.9.1.1 Cost or Pricing Data Requirements

- L.9.1.1.1 It is anticipated that pricing of this action will be based on adequate price competition; therefore, Prime offerors and major subcontractors are not required to submit certified cost or pricing data. If after receipt of proposals the PCO determines that adequate price competition does not exist, the Government may require certified cost or pricing data (see FAR 15.406-2, Certificate of Current Cost or Pricing Data).
- L.9.1.1.2 The Government requires all prime offerors and major subcontractors provide data other than certified cost and pricing data using the Excel Pricing Workbook along with an accompanying narrative and any necessary information to substantiate the cost reasonableness and realism. Non-major subcontractors are not required to provide Excel Pricing Workbooks and accompanying narratives. If necessary, the Government may request additional non-major subcontractor cost data during discussions.
- L.9.1.1.3 For purposes of these pricing instructions, the term subcontractor and major subcontractor includes inter-company work transfer authorities (IWTAs).

L.9.1.2 Cost Reasonableness and Realism

- L.9.1.2.1 The offeror must provide sufficiently detailed offers to demonstrate cost reasonableness and cost realism. The burden of proof for reasonableness and realism of proposed costs rests with the offeror.
- L.9.1.2.2 The reasonableness and realism of direct labor cost is fundamental to a successful professional services acquisition. The Government will analyze direct labor rates, including escalation, for reasonableness and realism. The following discussion of the benchmarks the Government will employ to assess the reasonableness and realism of proposed direct labor rates is provided to make the process more transparent. These benchmarks are not absolute, but offerors proposing direct

labor rates outside these benchmarks without providing sufficient discussion or rationale risk receiving an unfavorable assessment in the form of cost realism adjustments to the offeror's total evaluated cost / price or being identified to SSA as having cost reasonableness issues.

- L.9.1.2.3 The tool chosen to perform direct labor cost analysis is the Economic Research Institute (ERI) Salary Assessor. This comprehensive commercial survey contains data and analytics for 6,000 positions in more than 1,000 industries and over 8,000 locations. Survey data is collected through internally conducted salary surveys and the purchase of third party salary surveys. Additional data is gathered through the digitization of Proxy and 10-K data and Freedom of Information Requests in the United States. Compensation data are compiled in terms of mean and median salaries for jobs of similar duties, responsibilities, skills, and functions through an extensive job matching process. It is used extensively by Fortune 500 companies, thousands of small and medium businesses, and by DCAA to perform salary comparison for more in-depth cost / price analysis. Based on the reliance and confidence placed upon this ERI Survey by DCAA, the Missile Defense Agency adopted its use for performing detailed rate comparisons. The ERI data included in this solicitation is for internal MDA source selection use only; recipients may not reproduce or distribute this information for any purpose other than submitting a proposal in response to this solicitation.
- L.9.1.2.4 The Contract Attachment J-03 – Labor Categories includes a description of each IRES labor category. RFP Attachment L-13, IRES-ERI Workbook, maps the IRES labor categories to the comparable ERI labor category, along with the 35th percentile, mean and 90th percentile direct labor rate from the ERI Salary Assessor average for the state of Colorado. The ERI data [35th – 90th percentiles] serves as the benchmarks between which the Government will accept the proposed direct labor rates as reasonable and realistic without any further justification from the offeror. Proposed direct labor rates outside these benchmarks must be justified by objective evidence that the rates are reasonable and realistic in the narrative section of the cost / price volume.

L.9.1.3 Government Furnished Property (GFP)

The Government will provide the items identified in Attachment J-05 as well as the resources identified in paragraph 7.0 of each SOO. All GFP is provided on a rent-free basis in an “as-is” condition and will be made available to the successful offeror during or at the end of the transition period. For purposes of the cost / price evaluation, the Government assumes all GFP identified will be used in the performance of the contract; so no adjustment to the total evaluated price will be made as a result of offeror plans to use or not use the identified GFP. Offerors may not request any additional GFP (with or without rental charges as identified in FAR 52.245-9, *Use and Charges*).

L.9.2 Excel Pricing Workbooks (EPWs) Overview

The goal of the automated EPW format is to provide a comprehensive working model of the offeror's cost / price volume. The EPWs will facilitate changes to source data such as direct labor hours and/or rates. When manipulated by the Government, the EPWs will compute the impact of individual cost element changes on the total proposed cost / price. Error free EPWs are

essential to ensure a correct and timely evaluation of proposed cost / prices. All formulas used in the workbook must be clearly visible in the individual cells and verifiable. Whereas linking among the worksheets is anticipated, the use of external links (to source data not provided in the workbook) is prohibited. The workbooks must contain no macros or hidden cells. The EPWs must not be locked/protected or secured by passwords. Offerors and major subcontractors must correct and tailor Attachments L-14, L-15, and L-16, as applicable, to eliminate errors and to conform to their estimating and accounting systems. The numbers in Attachments L-14, L-15, and L-16 are for formula and link testing and should not influence the proposed EPWs.

Major subcontractor(s) will submit Attachment L-14, Cost Price Workbook 1 – Subs Rates/Rate Development (and accompanying cost narrative). To protect proprietary data, major subcontractors will:

- 1) Submit a sealed package* with a fully disclosed copy of the cost proposal (CD/DVD) to the Prime offeror for inclusion with the prime contractor's submission to the government; and
- 2) Submit, at a minimum, a sanitized* version (WS2-6) of the cost proposal workbook to the Prime offeror in accordance with the Prime's instructions.

*At the subcontractor's discretion, a fully disclosed copy of the cost proposal (CD/DVD) may be provided to the Prime offeror. Subcontractors shall include a statement in cover letter submitted with its proposal identifying whether or not the package submitted to the prime was sealed.

The prime offeror will submit Attachment L-15, Cost Price Workbook 2 – Prime Rates/Rate Development and Attachment L-16, Cost Price Workbook 3 – Cost/Price Proposal.

Exhibit L-11 provides an overview of the workbooks, worksheets and relationships.

Exhibit L-11. Overview of Excel Pricing Workbooks**L.9.3 Volume 4 Submission Requirements****L.9.3.1 Tab 4a: Workbook 1 – Rates/Rate Development Subcontractors [Attachment L-14]**

This workbook is to be prepared and submitted by major subcontractors. It serves as the basis for the proposed rates and the calculation of the proposed burdened labor rates and as input into the prime contractor's Attachment L-15 Cost / Price Workbook.

L.9.3.1.1 WS1-1: Data Validation

This worksheet is for the facilitation and input for the related cells throughout the Excel pricing workbook. Use of this worksheet will minimize the likelihood of input errors. You may add validation lists to this worksheet, but do not delete data.

L.9.3.1.2 WS1-2: Labor Category Map – Subs

Informational worksheet that maps the contractor's labor categories to the government labor categories.

L.9.3.1.3 WS1-3: Indirect Rates -Subs

This worksheet is required in the absence of a current Forward Pricing Rate Agreement (FPRA) or Forward Pricing Rate Recommendation (FPRR). Offerors without a current FPRA or FPRR shall provide: (a) a copy of its current forward pricing rate proposal (FPRP) submittal letter and the rate tables as submitted to DCMA and (b) an indirect rate build-up Table showing rate history and projections of each indirect rate proposed. The format of these Tables should be similar to the example Tables provided in WS1-3. These Tables must provide insight into the composition of the burden pool for each proposed indirect rates. In addition, provide indirect cost history for the prior three years and projections for future contract periods. Any significant changes in either expenses or base of application from one year to the next must be explained in the Pricing Volume narrative. The indirect rates shown on this worksheet (or in the FPRA or FPRP, if applicable) should be reflected in WS1-4.

L.9.3.1.4 WS1-4: Contractor Fiscal Year (FY) Rates – Subs

This worksheet captures the unburdened labor rate for each labor category and indirect rates by contractor fiscal year. The unburdened labor rates should reflect performance at Government sites in Colorado Springs, Colorado.

L.9.3.1.5 WS1-5: Contract Year Rate Table – Subs

This worksheet is used to translate contractor FY rates to the contract ordering periods. The unburdened labor rates should reflect performance in Colorado Springs, Colorado.

L.9.3.1.6 WS1-6: Burdened Labor Rate (BLR) Build – Subs

This worksheet builds upon the data provided in WS1-5, resulting in burdened labor rates for each contract ordering period for Government sites in Colorado Springs, Colorado. Add/adjust columns as necessary to accommodate /calculate the rates. Ensure formulas remain valid.

L.9.3.1.7 WS1-7: BLR Sanitized – Subs

A sanitized extract of WS1-6. Note: This worksheet, at a minimum, must be provided to the Prime contractor.

Offeror input on this worksheet should not be required, however offerors are advised to review contents and ensure columns are correctly populated.

L.9.3.2 Tab 4b: Workbook 2 – Rates/Rate Development Prime [Attachment L-15]

This workbook is to be prepared and submitted by the prime contractor only. This workbook shows the development of the prime contractor's labor rates, incorporates rates provided by major subcontractors (WS1-8), and serves as the basis for the calculation of the proposed

burdened labor rates. This workbook provides input into Attachment L-16 Cost / Price Workbook.

L.9.3.2.1 WS2-1: Data Validation

This worksheet is for the facilitation and input for the related cells throughout the Excel pricing workbook. Use of this worksheet will minimize the likelihood of input errors. You may add validation lists to this worksheet, but do not delete data.

L.9.3.2.2 WS2-2: Labor Category Map – Prime

Informational worksheet that maps the contractor's labor categories to the government labor categories.

L.9.3.2.3 WS2-3: Indirect Rates – Prime

This worksheet is required in the absence of a current Forward Pricing Rate Agreement (FPRA) or Forward Pricing Rate Recommendation (FPRR). Offerors without a current FPRA or FPRR shall provide: (a) a copy of its current forward pricing rate proposal (FPRP) submittal letter and the rate tables as submitted to DCMA and (b) an indirect rate build-up Table showing rate history and projections of each indirect rate proposed. The format of these Tables should be similar to the example Tables provided in WS2-2. These Tables must provide insight into the composition of the burden pool for the all proposed indirect rates. In addition, provide indirect cost history for the prior three years and projections for future contract periods. Any significant changes in either expenses or base of application from one year to the next must be explained in the Pricing Volume narrative. The indirect rates shown on this worksheet (or in the FPRA or FPRP, if applicable) should be reflected in WS2-4.

L.9.3.2.4 WS2-4: Contractor Fiscal Year (FY) Rates – Prime

This worksheet captures the unburdened labor rate for each labor category by contractor fiscal year. The unburdened labor rates should reflect performance in Colorado Springs, Colorado.

L.9.3.2.5 WS2-5: Contract Year Rate Table – Prime

This worksheet is used to translate/apportion contractor FY rates to the contract ordering periods. The unburdened labor rates should reflect performance in Colorado Springs, Colorado.

L.9.3.2.6 WS2-6: Burdened Labor Rate (BLR) Build – Prime

This worksheet builds upon the data provided in WS2-5, resulting in burdened labor rates for each contract ordering period. Add/adjust columns as necessary to accommodate/calculate the rates. Ensure formulas remain valid.

L.9.3.2.7 WS2-7: BLR Sanitized – Prime

A sanitized extract of WS2-6. Note: major subcontractors will provide an identical document to the prime for inclusion in Workbook 2 (WS2-7a BLR Sanitized – Sub A through WS2-7n BLR Sanitized– Sub n). The Prime offeror must copy and paste special <Control A, Control C, Paste Special, Values> subcontractor worksheets; add worksheets as necessary to accommodate the team. Adjust formulas to accommodate additional worksheets.

L.9.3.2.8 WS2-8a through WS2-8h: Composite Rate Build

This worksheet shows the Prime offeror's approach to developing the composite labor rates to be used throughout the contract ordering period. Individual rates from the prime and major subcontractor's (WS2-7, WS2-7a through WS2-7n) are weighted based on percentage of effort, and combined to arrive at a single composite rate for each of the IRES labor categories.

L.9.3.2.9 WS2-9: Location Rate Differentials

This worksheet will establish the rate differential(s) that will be applied to work performed outside of the Missile Defense Integration and Operations Center in Colorado Springs, CO. The rates proposed on this worksheet will be used in completing Cost / Price Workbook 3 and to facilitate task order negotiations post contract award. The proposed rate differentials – both Locale (Colorado, Alabama, Virginia, and Rest of US (includes Alaska, Hawaii and all US Territories)) and Site (Government or Contractor) – will be placed on contract for use in proposing future task orders. The rates proposed are considered the maximum rates. Include assumptions/discussion on the algorithm used to develop the proposed differentials in the cost narrative document.

L.9.3.2.10 WS2-10: ODC Overheads

This worksheet will establish a Composite ODC Burden Rate that will be applied to all ODCs. The base values on this worksheet are for calculation purposes only, and does not reflect anticipated annual value of the ODCs. The rates proposed on this worksheet will be used in completing Cost / Price Workbook 3 and to facilitate task order negotiations post contract award (reference clause H-03). The rates proposed are considered the maximum rates.

L.9.3.2.11 WS2-11: Contract Rates

The rates captured on this worksheet will be used in completing Cost / Price Workbook 3 and to facilitate task order negotiations post contract award. Data is extracted from WS2-8a through WS2-8h, WS2-9 and WS2-10, providing the composite team BLR and Composite ODC Burden Rate for each contract ordering period.

Offeror input on this worksheet should not be required, however offerors are advised to review contents and ensure that columns are correctly populated.

L.9.3.3 Tab 4c: Workbook 3 – Cost Proposal [Attachment L-16]

This workbook is to be prepared and submitted by the prime contractor only.

L.9.3.3.1 WS3-1: Data Validation

This worksheet is for the facilitation and input for the related cells throughout the Excel pricing workbook. Use of this worksheet will minimize the likelihood of input errors. You may add validation lists to this worksheet, but do not delete data.

L.9.3.3.2 WS3-2: Contract Rates

The Prime offeror must copy and paste special <Control A, Control C, Paste Special, Values> the contents of Attachment L-15, WS2-11 into Attachment L-16 WS3-2 Contract Rates. Do not copy formulas/links.

L.9.3.3.3 WS3-3: Fee Structure Table

The prime contractor will populate this worksheet by specifying the fee percentages for each of the contract types identified. The percentages on this worksheet will establish the maximum rates for the purpose of completing the task order and estimated future cost / price proposals (WS3-5 through WS3-9d) and for the purpose of task order proposal preparation and negotiation post contract award (reference clause H-03). WS3-3 will be attached to the contract as Contract Attachment J-09.

L.9.3.3.4 ODCs**L.9.3.3.4.1 WS3-4: ODCs**

This worksheet will auto populate, pulling data from WS3-2, WS3-4a – WS3-4d, resulting in a summary of burdened ODCs. Offeror input should not be required, however offerors are advised to review and validate formulas and that columns are appropriately populated.

A plug number has been provided for ODCs. This number represents the government's estimate of ODCs based on historical data, current tools and projections. The ODC plug number is exclusive of all burdens.

The 'Total Cost, ODCs' on this worksheet will be used to complete the task order and estimated future cost proposals (WS3-5 through WS3-9d).

L.9.3.3.4.1 WS3-4a - e: Task Order ODCs

If the offeror's technical approach / solution utilizes tools / resources that are not identified or referenced in Paragraph 7.0 (Government Furnished Equipment (GFE) / Government Furnished Information (GFI)) of each SOO, the offeror shall identify the tool / resources and the associated cost by identifying the ODCs specific to the offerors approach in accordance with paragraph L.8.2.1.4.2(2).

This worksheet may be shared with the source selection technical evaluation team to support the technical staffing approach evaluation and for verifying the realism of proposed labor resources.

L.9.3.3.5 WS3-5: Task Order 1000 Proposal

The prime contractor will populate this worksheet by identifying the proposed labor categories and hours necessary to accomplish the work described in the offeror's Transition CPWS.

This worksheet must provide a clear depiction of all proposed labor resources, work location, CPWS paragraph, and SOO paragraph, regardless of whether these resources are provided by the Prime or any tier of subcontractor.

L.9.3.3.6 WS3-6: Task Order 2000 Proposal

The prime contractor will populate this worksheet by identifying the proposed labor categories and hours necessary to accomplish the work described in the offeror's Systems Engineering and Program Integration CPWS.

This worksheet must provide a clear depiction of all proposed labor resources, work location, CPWS paragraph, and SOO paragraph, regardless of whether these resources are provided by the Prime or any tier of subcontractor.

L.9.3.3.7 WS3-7: Task Order 3000 Proposal

The prime contractor will populate this worksheet by identifying the proposed labor categories and hours necessary to accomplish the work described in the offeror's Enterprise Information Technology Services (EITS) CPWS.

This worksheet must provide a clear depiction of all proposed labor resources, work location, CPWS paragraph, and SOO paragraph, regardless of whether these resources are provided by the Prime or any tier of subcontractor.

L.9.3.3.8 WS3-8: Task Order 4000 Proposal

The prime contractor will populate this worksheet by identifying the proposed labor categories and hours necessary to accomplish the work described in the offeror's Facilities Engineering and Operations (FE&O) Statement of Objectives (SOO) CPWS.

This worksheet must provide a clear depiction of all proposed labor resources, work location, CPWS paragraph, and SOO paragraph, regardless of whether these resources are provided by the Prime or any tier of subcontractor.

L.9.3.3.9 WS3-9a – d: Estimated Future Price

The estimated contract cost worksheet will auto populate, pulling data from WS3-2 Contract Rates, WS3-3 Fee Structure Table, and WS3-4 ODCs, resulting in an estimated future price. Offeror input should not be required, however offerors are advised to review and validate formulas and that columns are appropriately populated. The amounts on this worksheet will be part of the proposed costs for evaluation purposes only, and is not a commitment to awarding those hours / costs under this indefinite delivery, indefinite quantity contract.

The estimated future price is the result of the application of the following components:

- a) The representative hours (Attachment L-16) (that approximates the direct productive labor hours and potential skill mix necessary to fulfill future TO requirements) multiplied by the BLRs as proposed by the offeror on pricing WS3-2 Contract Rates. The representative hours assume all labor costs (technical and nontechnical) are a direct charge to the contract; there will be no adjustment to the representative hours for offerors that include labor costs in their indirect rates.
- b) ODCs with applicable burdens.
- c) Profit/fee using the fee rates proposed on WS3-3 Fee Structure Table.
- d) Estimated price of the option under FAR 52.217-8 (reference M.1).

L.9.3.3.10 WS3-10: Cost / Price Summary

The cost/price summary worksheet will auto populate, pulling data from WS3-3, WS3-4, WS3-5, WS3-6, WS3-7, WS3-8, and WS3-9a – 9e, resulting in a summary of the offeror's cost/price.

Offeror input on this worksheet should not be required, however offeror's are advised to review contents and ensure that columns are appropriately populated.

L.9.3.4 Tab 4d: Cost Volume Narrative (MS Word)

To substantiate the EPW the offeror must provide an accompanying narrative in MS Word format. The narrative should be sufficiently detailed to demonstrate the reasonableness and realism of proposed costs. This information must contain the following information.

- L.9.3.4.1 State whether proposed direct labor rates and indirect rates are covered by an FPRA or FPRR. If covered by an FPRA or FPRR, the offeror must provide a copy of the agreement(s)/recommendations.
- L.9.3.4.2 If an FPRA or FPRR is not in place, state that fact and identify the applicable Forward Pricing Rate Proposal and submission date or other basis for the proposed rates. Include the detailed data identified in WS1-2 and WS1-3 (Attachment L-14) or WS2-2 and WS2-3 (Attachment L-15). In addition, describe the basis for the proposed direct labor base rates, including escalation. Specify the escalation rates proposed throughout the contract ordering period.
- L.9.3.4.3 For the geographical location differentials, include an explanation of the basis for the proposed differential which should be based on objective, verifiable data. Include the documentation supporting the development of the differentials. Use Colorado as the base for determination of the differentials. That is, the differential for Colorado will be 1.0.
- L.9.3.4.4 For the overhead site differentials (Government Site vs Contractor Site) include an explanation of the basis for the proposed differential which should be based on objective, verifiable data. Include the documentation supporting the development of the differentials. Use the Government site overhead as the base for determination of the differential. That is, the differential for the Government site overhead will be 1.0.
- L.9.3.4.5 Describe your approach and burdens applied in development of the Composite ODC Burden rate (WS2-10 ODC Overheads). The proposed rate will be the maximum rate applied to all ODC costs proposed on future task orders.
- L.9.3.4.6 Complete the Table shown in Exhibit L-12, describing the allocation base for each proposed indirect rate/factor. If multiple rates have the same allocation base, group together. This information should conform to the estimating and accounting systems of the offeror and major subcontractors.

Exhibit L-12. Allocation base for Proposed Indirect Rates/Factors

Rate Category	Allocation Base Description
Fringe	Direct Labor Dollars
Labor Overhead	Direct Labor Dollars and Fringe
Procurement Overhead	Subcontractor Cost and Fee
G&A	Prime direct labor dollars, fringe, labor overhead, procurement overhead, IWTA cost, subcontractor cost, subcontractor fee

L.10 VOLUME 5 – CONTRACT DOCUMENTATION, PART 2**L.10.1 Tab 5a: Small Business Subcontracting Plan**

L.10.1.1 If the offeror is other than a small business, the offeror shall submit a Small Business Subcontracting Plan in accordance with FAR 52.219-9, *Small Business Subcontracting Plan – Alternate II (Deviation 2013-00014)*, DFARS 252.219-7003, *Small Business Subcontracting Plan (DoD Contracts)*, DFARS 252.219-7004, *Small Business Subcontracting Plan (Test Program)* (if applicable), and MDA clause L-01, *Supplemental Subcontracting Plan Requirements*. This plan is separate from the Small Business Participation and Commitment Plan submitted under paragraph L.8.1.3.

L.10.1.2 Any offeror participating in the Comprehensive Test Program or utilizing a Master Subcontracting Plan shall submit with their proposal the approved Subcontracting Plan.

L.10.1.2.1 Regardless of the offeror's participation in the Comprehensive Subcontracting Test Program or utilization of a Master Subcontracting Plan, the subcontracting goals required by this solicitation are the minimum acceptable percentages, and must specifically address this acquisition.

L.10.1.2.2 If after award the awardee enters into the Comprehensive Subcontracting Test Program or develops a Master Subcontracting Plan, the subcontracting goals negotiated under this acquisition shall not be changed.

L.10.2 Tab 5b: Total Compensation Plan

The offeror shall submit a total compensation plan as required by FAR 52.222-46, *Evaluation of Compensation for Professional Employees*.

L.10.3 Tab 5c: Cost and Software Data Reporting (CSDR) Process

Reference the Government's CSDR plan at Attachment J-02. The offeror shall submit the process document required by paragraphs (b)(1)-(b)(5) of DFARS 252.234-7003, *Notice of Cost and Software Data Reporting System*.

L.10.4 Tab 5d: Joint Venture and Teaming Agreements

L.10.4.1 Reference FAR Subpart 9.6. All forms of contractor team arrangements are acceptable. Offerors are prohibited, however, from requiring exclusivity agreements, in any form, in any team arrangement associated with this solicitation.

L.10.4.2 The offeror shall submit signed copies of all contract team arrangements, to include partnerships, joint ventures, and major subcontractors, as defined in FAR Subpart 9.6.

L.10.4.3 The Government will not consider the past performance of any contractors that are not covered under a valid teaming agreement.

L.10.4.4 Reference FAR 4.102 with regard to offer signature requirements, in general, and partnership and joint venture signature requirements specifically.

L.10.5 Tab5e: Subcontractor Responsibility

Reference FAR 9.104-4. The offeror shall submit its determination of responsibility for all major subcontractors.

L.10.6 Tab 5f: Assertion of Restrictions

L.10.6.1 **Tab 5f-1: DFARS 252.227-7017.** The offeror shall submit assertions on technical data or computer software furnished to the Government with restrictions on use, release, or disclosure as required by DFARS 252.227-7017, *Identification and Assertion of Use, Release, or Disclosure Restrictions*, and H-36, *Contractor Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Non-Commercial Technical Data Or Computer*.

L.10.6.2 **Tab 5f-2: DFARS 252.227-7028.** The offeror shall submit an assertion of restrictions associated with technical data or computer software previously delivered to the Government as required by DFARS 252.227-7028, *Technical Data or Computer Software Previously Delivered to the Government*.

L.10.7 Tab 5g: Report of Intended Performance Outside of the United States and Canada

The offeror shall submit the report required by DFARS 252.225-7003, *Report of Intended Performance Outside the United States and Canada—Submission with Offer*, related to their proposals associated with Attachments L-08, L-10, L-11, and L-12. Reference paragraph (b) of the provision: If the offeror is unaware at the time of proposal submission that it or a first-tier subcontractor intends to perform any part of the requirements associated with attachments L-08, L-10, L-11, and L-12 outside of the United States or Canada that could be performed inside of the United States or Canada, so state.

L.10.8 Tab 5h: Pass-Through Charges

The offeror shall submit the information required by paragraph (c) of FAR 52.215-22, *Limitations on Pass-Through Charges—Identification of Subcontract Effort*.

L.10.9 Tab 5i: Solicitation Amendments

The offeror shall acknowledge receipt of all amendments to this solicitation by the date and time specified in each amendment as required by paragraph (b) of 52.215-1.

L.10.10 Tab 5j: Exceptions to Solicitation Requirements

Reference paragraph (c)(2) of FAR 52.215-1. By submission of its offer, the offeror acknowledges it will meet all solicitation requirements, including terms and conditions, representations and certifications, and technical requirements. The offeror shall clearly identify any exceptions to the solicitation terms and conditions and provide complete accompanying rationale. Each exception shall refer to a paragraph and/or specific part of the solicitation to which the exception is taken. Provide rationale in support of the exception and fully explain its impact, if any, on the performance, schedule, cost, and specific requirements of the solicitation.

L.10.11 Tab 5k: Proposal Cover Page

The offeror shall submit all information and documentation required by paragraph (c)(2) of 52.215-1.

L.10.12 Tab 5l: Solicitation / Contract Sections A-K

The offeror shall submit documentation associated with solicitation Sections A-K, not specifically requested elsewhere, as follows:

L.10.12.1 Tab 5l-1: Section A. The offeror shall complete blocks 12 – 18.

Note: Reference B-01; offerors are not required to provide any input for Section B of the contract. Pricing for Attachment L-08, L-10, L-11, and L-12 is submitted as part of the Cost / Price proposal.

L.10.12.2 Tab 5l-2: Section I. The offeror shall complete and submit the contractor fill-ins for or submissions related to the following clauses as they relate to task orders 1000, 2000, 3000, and 4000 proposed in response to this solicitation: FAR 52.223-3, *Hazardous Material Identification and Material Safety Data Sheet*.**L.10.12.3 Tab 5l-3: Subcontract Consent Packages.** The offeror may submit the documentation identified in paragraph (e)(1) of FAR 52.244-2, *Subcontracts*, for each subcontract for which consent is required, if the offeror requests that subcontract be identified in paragraph (j) of FAR 52.244-2. With regard to FAR 52.244-2(d), the Government fill-in is “None.”**L.10.12.4 Tab 5l-4: Section K.** Reference FAR 52.204-8, *Annual Representations and Certifications*, and DFARS 252.204-7007, *Alternate A, Annual Representations and Certifications*. The offeror shall complete representations and certifications via the System for Award Management (SAM) at <https://www.acquisition.gov/>. The offeror shall submit full-text responses to any representations and certifications included in Section K that are not in SAM.

Reference FAR 52.230-1, *Cost Accounting Standards Notices and Certification*. Provide a copy of the offeror’s CAS Disclosure Statement.

Submit the assertions associated with clause H-36, *Contractor Identification and Assertion of Restrictions on the Government’s Use, Release, or Disclosure of Non-Commercial Technical Data or Compute Software*, and DFARS 252.227-7017, *Identification and Assertion of Use, Release, or Disclosure Restrictions*, at proposal Tab 5f rather than here in Tab 5l-4.
