Acquisition Plan Action ID: 36C255-25-AP-1837

1. Contracting Activity:

Network Contracting Office (NCO) 15, 3450 S 4th Street Trafficway, Leavenworth, KS 66048, in support of the following VISN 15 VA Medical Centers: Robert J Dole VA Medical Center, 5500 East Kellog Drive, Wichita, KS 67218-1607.
Purchase Request Numbers: 589-25-2-4652-0013

2. Brief Description of Supplies/ Services required and the intended use/Estimated Amount:

This is a Brand Name justification for the AMSCO 400 Steam Sterilizer for the Robert J Dole VAMC. This is a replacement of an existing steam sterilizer which is currently at end of life; and requires the de-installation of the previous unit and installation of the new unit.

Total Estimated cost: [REDACTED]

3. Unique characteristics that limit availability to only one source, with the reason no other supplies or services can be used:

In accordance with FAR 13.106-1 there is only source capable of providing the supplies required at the level of quality required because the supplies are unique and highly specialized. Seeking full and open competition will result in a substantial duplication of cost to the Government that is not expected to be recovered through competition and unacceptable delays in fulfilling the agency's requirements.

Steris Corporation is the exclusive original equipment manufacturer of the AMSCO 400 Steam Sterilizer. Due to the proprietary nature of the equipment and software, specifically the Censis ConnectAssure program currently in use, and as stated in Steris Corporation correspondence, they do authorize two SDVOSBs vendors to distribute their products (Beacon Point Associates, LLC and Derrah Morrison Enterprises, LLC). Furthermore, adding third party vendors who are not authorized to work or supply equipment negates the warranty of the currently installed system.
