Section B: Description of the Supplies/Services Required

Preventative maintenance agreement for AstroPhysics X-ray Machine XIS 7858 (SN: ATSKD180MM498)

Section C: Justification for Soliciting from a Single Source or Brand Name

Astrophysics Inc. is the exclusive developer, manufacturer, and sole authorized service provider for the XIS line of X-ray inspection systems, which are critical to 6 LRS operations. Astrophysics Inc. is the only vendor capable of meeting the government's need for installation, maintenance, and warranty-compliant service using proprietary components and certified technicians. Use of any non-certified provider would void the system warranty and risk equipment failure, making competition impracticable for this requirement.

Section D: Efforts to Obtain Competition

At this time it would appear that only Astrophysics would be able to perform maintenance on the existing machines due to there being no approved resellers from this manufacturer; further market research concludes that the only way to ensure competition in the future would be to purchase a new X-Ray screening machine following guidance and an the approved list of vendors from the TSA Air Cargo Screening Technology List (ACSTL) dated Feb 07, 2025.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

It is the policy of 6 CONS/PKA to ensure competition to the maximum extent practical, we will continue to monitor regulations, and the commercial market to ensure that competition is used in the future for any follow on requirements.

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
