

Statement of Work (SOW)

For The Purchase of Thermal Analysis Equipment

4/9/2025 v1

1. General

The Naval Surface Warfare Center, Indian Head Division NSWC IHD Chemical and Materials Analysis Branch has a requirement for a procurement, installation, and training for a Discovery DSC 2500 Thermal Analysis system and associated accessories. This system will provide advanced thermal analysis capabilities.

2. Scope of Work

This SOW encompasses the following:

2.1 Equipment Procurement: Supply and delivery of the equipment detailed in Section 3.

2.2 Installation: Professional installation of the Discovery DSC 2500 system, including calibration with a traceable standard and a certificate of calibration, according to ISO 9000 procedures.

2.3 Training: Basic operational training on the installed equipment for xxx (X) government personnel.

3. Equipment Specifications.

The following equipment shall be supplied, as detailed:

Item No.	Part #	Description	Quantity	Detailed Specifications
1.1	973000.901	Discovery DSC 2500	1	
1.2	251471.002	4-Port Broadband Router	1	
1.3	901600.901	Tzero Press and Dies Kit	1	
1.4	999800.528	Thermal Install & Training	1	
2.1	972007.901	RCS90 Discovery DSC 120V 60Hz Cooling System	1	
2.2	200266.001	RCS Gas Dryer	1	
3.1	973400.901	DSC2500 Cell	1	

4.1	924500.901	Thermal/Rheology Instrument Controller 1	1	
4.2	924119.901	24" Flat Panel Monitor for Controller		

4. PERIOD OF PERFORMANCE

The contractor shall deliver, install and train with in 30 days of award.

5. ACCEPTANCE CRITERIA

All equipment delivered shall be new and in accordance with the manufacturer's specifications.

Installation shall be completed to the manufacturer's standards and verified by successful calibration.

Training shall be deemed complete upon successful demonstration of basic operation by designated personnel.

6. Warranty

Standard manufacturer's warranty applies to all equipment. This includes the five-year warranty on the DSC cells as specified by the manufacturer.

6. POINTS OF CONTACT AND DELIVERY DROP-SHIP LOCATION

The Contractor shall drop ship delivery of equipment to the government Technical Point of Contract. The Contractor shall schedule delivery with the TPOC 72 hours in advance of equipment delivery date. The Contractor shall provide a US authorized delivery service and paperwork required for base access. The Contractor will provide the driver's name and cell phone.
