(DARPA)
Commercial Strategy Team

May 2025

The Defense Advanced Research Projects Agency's Commercial Strategy Team is Looking for Partners

For more information: go to sam.gov

VENTURE HORIZONS

- DARPA seeks to provide opportunities to connect investors with non-adversarial capital to DARPA Program Managers and DARPA Research & Development performers through a partnering initiative, *DARPA Venture Horizons*, to amplify the impact of DARPA's development of breakthrough technologies

Throughout its history, DARPA has created game-changing technologies, empowering industry leading technologists to solve some of the world's most complex problems

DARPA Venture Horizons will provide investors access to certain DARPA portfolio and subject matter experts with the potential to create game-changing outcomes

DARPA's Research Portfolio - Six Technical Offices

DARPA comprises of administrators of over 250 research and development programs across the following technical offices:

Biological Technologies Office (BTO)

- Warfighter
 - Tactical combat casualty care
 - Performance optimization
- Warfighting
 - Edge manufacturing
 - Create operational advantages
- Frontier technologies
 - Data factories
 - Simulation

Defense Sciences Office (DSO)

- Materials, manufacturing, and structures
- Sensing, measuring, and affecting
- Math, computation, and processing
- Complex, dynamic, and intelligent systems

Information Innovation Office (I2O)

- Transformative artificial intelligence
- Offensive and defensive cyber
- Fighting in the information domain
- Resilient, adaptable, and secure systems

Microsystems Technology Office (MTO)

- Quantum, photonic, and organic circuits
- New microsystems manufacturing ecosystem
- Dual-use by design

Strategic Technology Office (STO)

- Advanced sensors and processing
- Battlefield effects
- Command, control, and communications
- Systems Warfare
- National Resilience

Tactical Technology Office (TTO)

- Reimagination of hardware design, development, and test
- Rapid, affordable, and scalable manufacturing
- Decisive long-range effects
- Novel approaches that radically change the military advantage calculus

Important Notes

- This is an RFI issued solely for information and new initiative planning purposes; it does not constitute a formal solicitation for proposals. In accordance with Federal Acquisition Regulation 15.201(e), responses to this RFI are not offers and cannot be accepted by the Government as such
- DARPA General Service Agreement (GSA) and Senior Commercial Advisor (SCA) team members may be ineligible to participate in this program
