Environmental Control Units (ECUs) are systems designed to regulate temperature, humidity, and air quality within a given space, often for comfort or operational purposes. They can be used in various settings, including homes, businesses, and specialized environments. ECUs can range from simple remote controls to complex, computer-based systems, offering different levels of control and functionality.

The associated North America Classification Systems (NAICS) Code is 334510 and the Business Size Standard is 1,250 employees.

THIS NOTICE OF INTENT IS NOT A REQUEST FOR COMPETITIVE QUOTES. Interested parties may identify their interest and capability to respond to this requirement no later than 4:00 PM Mountain Time, Friday, May 16th, 2025. Information received in response to this notice must clearly demonstrate the capability of meeting the Government's need as stated above. Include any relevant information (specifications, cut sheets, brochures, capability statement, etc.) confirming the ability to supply the products and/or any services outlined in this notice. Responses to this notice are to be sent to eric.adusei@va.gov.

A determination not to compete this requirement, based upon responses to this notice, is solely within the discretion of the Government. The Government is not responsible for any potential costs incurred from interested parties desiring to respond to this notice.
