

DESCRIPTION OF SUPPLY
Chief Joseph Dam
ABB PEC800 D113 and D231

MATERIALS REQUIRED: Materials will be inspected at the delivery point prior to acceptance. Contractor shall be responsible for maintaining the product's condition as specified until the point of acceptance. Vendors shall supply the following items in the sizes and quantities specified to satisfy the requirements of this contract. New equipment only; no remanufactured or "gray market" items. All items must be covered by manufacturer's warranty.

MATERIALS REQUIRED:

- **Contractor shall supply two (2) ABB exciter PEC800 Modbus TCP, 30M, 10k FPGA Typ. PP D113B, ABB part number 3BHE023784R2530.**
- **Contractor shall supply one (1) ABB exciter CCI Converter Control PC D231 B01, ABB part number 3BHE025541R0101.**

SUBMITTALS:

- Descriptive Materials (brochures, illustrations, drawings, data sheets, etc.) must be submitted which will allow the Contracting Officer to determine, without discussions with the offeror, whether the products being offered meet all the required specifications. Submittals shall include copies of manufacture's catalog cut sheet, specification sheets, and warranty for ABB exciter PEC800 Modbus TCP, 30M, 10k FPGA Typ. PP D113B, ABB part number 3BHE023784R2530 and ABB exciter CCI Converter Control PC D231 B01, ABB part number 3BHE025541R0101.
- **OPERATION AND MAINTENANCE MANUALS:**
- Four complete copies of the Operation and Maintenance Manual will be required for the parts. The manuals shall include instructions on the installation, operation, maintenance, repair, troubleshooting, and warranty. They shall also include diagrams listing all system components, part numbers, and a list of recommended spare parts.
- Also included shall be the name, phone and fax numbers, and email address of the contractor, manufacturer, and a distributor where spare parts can be purchased.
- The following identification shall be inscribed on the covers:

OPERATING AND MAINTENANCE INSTRUCTIONS

Contract Name

Chief Joseph Dam

Name of the Contractor

Contract Number

WARRANTY:

On all parts, labor, and workmanship shall be covered by a minimum of 2 years or 2,000 operating hours warranty, whichever comes first. The contractor shall thoroughly test the entire system and all

attachments prior to delivery. The warranty shall commence upon the date of acceptance by the Government.

ACCEPTANCE OF MATERIALS:

Materials will be inspected at the delivery point prior to acceptance. Contractor shall be responsible for maintaining the product's condition as specified until the point of acceptance. New equipment only; no remanufactured or "gray market" items.

DELIVERY SCHEDULE:

The successful offeror shall be required to deliver the parts to Chief Joseph Dam within 120 days of award. The successful offeror shall also provide documentation, and other items as stated in the specifications. A loading dock is NOT available, so the freight company shall be required to provide means of unloading the equipment without an unloading dock. All deliveries must take place during CJD business hours of Monday through Thursday 7:00 am – 4:00 pm, excluding Federal holidays.

DELIVERY LOCATION:

Item shall be delivered **FOB DESTINATION** to the following address:

US Army Corps of Engineers
ATTN: Mikal Miller
Chief Joseph Dam
HWY 17 and Pearl Hill Rd.
Bridgeport, WA. 98813
