

1. What was the previous awarded Solicitation Number, Date awarded, and awarded value?
 - 040ADV-20-Q-0261 (solicitation), 040ADV-20-C-0153 (award)
 - Start Date: 01-Oct-2020
 - Total Funded Value for 1 base year and 3 option years, and a nine-month extension: \$105,944.98
 - Original Quoted Price for 1 base year and 3 option years: \$69,103.00
2. Has any part of the Statement of Work (SOW) changed in this solicitation compared to the last awarded contract? If so, what changed or was added?
 - No changes have been made.
3. Has the government issued any CURE or Notice of Correction for pest control services over the past 24 months at this location?
 - There is only information going back 11 months and no CURE or notice of correction has been issued.
4. Will the government provide any preference for SDVOSB Certified contractors as outlined within the SBA SDVOSB Veterans Priority Set-aside Program?
 - There is no information on this.
5. Can the government confirm the number of exterior rodent bait stations and interior rodent traps that are present at the following locations? Will the government require these to be provided by the contractor upon award?
 - The total number of interior and exterior bait stations varies depending on activity. Yes, the contractor will need to provide everything needed for our service.
6. How many wood-destroying organisms services (subterranean termites, dry wood termites, fungi, wood boring beetles) have occurred at the following locations over the past 24 months?
 - There is only information going back 11 months and no incidents have occurred in that time.
7. How many Nuisance Wildlife and Trapping services have occurred at the following locations over the past 24 months?
 - There is only information going back 11 months.
 - GPO's Headquarters = 3 occurrences
 - NW & GPO's Building D = 0
 - The Laurel warehouse = 0
8. What is the number of bed bug service requests at the following locations over the past 24 months?
 - There is only information going back 11 months.
 - GPO's Headquarters = 0
 - NW & GPO's Building D = 0
 - The Laurel warehouse = 0
9. Can the government clarify how many emergency service requests there have been in the past 24 months?
 - There is only information going back 11 months and there was 1 emergency service request.
10. Can the government clarify how many "as needed service" requests there have been in the past 24 months for the Laurel warehouse?
 - 0

11. Algae is regulated under Aquatic Agriculture and not considered a structural pest. Can the government confirm that Algae is a covered pest under this solicitation?
- Algae is not a pest and is not covered under this solicitation.
12. Is pricing from a previous vendor who performed these services available?
- See above answer
13. Are measurements of the areas needing services available?
- I do not have the measurements for all the areas that have had and need service.
14. The current SOW identifies a broad range of pests to be addressed under the Integrated Pest Management (IPM) plan. However, the subcontractor notes that several of the listed pests—including **lice**—are typically classified as medical issues and are **not traditionally addressed** by general pest control providers. Furthermore, the subcontractor would like to clarify which pests are considered part of **routine, covered services**, versus those that would be considered **excluded** or **as-needed, supplemental services**, subject to separate pricing or subcontracting. To accurately formulate pricing and define service coverage, the subcontractor is requesting a **clarified list of "included pests" and "excluded pests"** for the base contract. As an example, here is the format they referenced for consideration: The list below is confirmed for covered and excluded pests.

Covered Pests (included in base price):

- Rats
- Mice
- Cockroaches
- Ants
- Spiders
- Flies
- Stinging insects (bees, wasps, etc.)
- Other common arthropods

Excluded Pests (to be quoted separately/as needed):

- Birds
 - Mosquitoes
 - Snakes
 - Bats
 - Bed bugs
 - Termites and other wood-destroying organisms
 - Non-commensal rodents and mammals
 - Lice (due to medical classification)
15. Additionally, the subcontractor inquired whether the Government would be interested in including **Smart Technology devices** (24/7 rodent monitoring and multi-catch systems), which are available at an additional fee.
- This can be discussed with the company that is awarded the contract.
16. How many bait stations are currently on the exterior of the buildings?
- There are currently 34 bait stations on the exterior of the buildings and that number changes as the rodent activity changes. More activity more stations are needed.
17. Is there parking on site for Contractors?
- Parking is currently available

18. Can the Government please provide the physical address of the warehouse located in Laurel, Maryland?
 - 8660 Cherry Lane Ste# 28-38, Laurel, MD 20707
19. Can the Government confirm the total square footage of Building D, which is located across the street from the headquarters building?
 - According to the GPO data map building D has 170,212 gross floor area.
20. Can the Government provide any information regarding nesting bird activity that may impact performance, particularly during migratory seasons? Based on our experience with similar facilities, certain bird species may nest on rooftops and require a depredation permit. Does the Government currently hold such a permit? If not, does the Government acknowledge that one may be required to address protected species?
 - There is no information on this.
21. Can the Government provide historical workload data related to this requirement, including volume, frequency, or other relevant performance indicators?
 - The current service is two times per week, and we feel that the service needs to be three times per week as the frequency of rodent sightings and complaints varies.
22. Can the government provide incumbent contract information, such as name, contract value, and FTEs?
 - Incumbent contractor: American Pest Corporation
 - Contract value: See above answer
 - FTEs: N/A
