334519 - Other Measuring and Controlling Device Manufacturing

Description(s):

This is a Contract Action Synopsis for commercial supplies prepared in accordance with FAR 5.2, as supplemented with additional information included in this notice.

The National Institute of Standards & Technology (NIST) intends to award a FAR 13.106-1(b) single source contract for the MIOX Vault AMB60SC Replacement Cell for the **Gaithersburg Campus in Maryland**. This acquisition is a commercial item procurement to be solicited, evaluated, awarded, and administered using the Commercial Item procedures of FAR Part 12 and FAR Part 13, for management, supervision, labor, materials, equipment, and supplies. The contractor under the awarded contract is responsible for the efficient, effective, economical, and satisfactory operation, scheduled and unscheduled maintenance, and minor repairs of equipment and systems located within the property line of the aforementioned federal building.

The Government intends to award a single Firm-Fixed Price contract with one contract line item for the replacement part. No services are required by this

procurement. The replacement part will be installed by NIST maintenance personnel.

The contract action notice(s) are available to download via this website only (<https://www.sam.gov/>).
