The following have been added by full text:

QUESTIONS & ANSWERS**LOGISTICAL SUPPORT SERVICES QUESTIONS/ ANSWERS**

Question 1: Could you please confirm the proper deadline for questions? The RFP states two different times. Questions related to this Request for Quote (RFQ) shall be received by the Contracting Department **by 25 March 2025 at 2:00 PM** (Eastern Standard Time). All questions shall be submitted, in writing, by **12:00 pm (EST) on 25 March 2025**.

Answer 1: The deadline for questions was 25 March 2025 @ 2 p.m. (EST). There will not be an extension.

Question 2: What is the due date for this solicitation? The SAM announcement states, "*Original Date Offers Due: Apr 05, 2025, 02:00 pm (EDT).*" Solicitation page 1, column 8 states: "*Offer Due Date/Local Time 02:00 pm 04 Apr 2025.*"

Answer 2: Original solicitation due date is 4 April 2025 @ 2 p.m. (EST). New solicitation due date will be 28 April 2025 @ 1:00 p.m. (EST). There will not be another extension.

Question 3: Page 2 of the solicitation states "*Quotes may be submitted via email (no larger than 2 MB)*". We request the Government to raise the limit of email submittal to 5 MB.

Answer 3: Quotes may be submitted via email (no larger than 10 MB) if more space is needed; label your email 1 of __, 2 of __, (1/3, 2/3, 3/3), etc. A response will be given as received.

Question 4: Please allow submittal of the Technical Capability, Past Performance/Experience and Price volumes submittal via 3 separate emails.

Answer 4: Technical Capability, Past Performance/Experience and Price volumes can be submitted via 3 separate emails. Please put 1/3, 2/3, 3/3 in the subject line.

Question 5: Page 40 of the RFP states: "-FAR 52.212-3 (Note: **The offeror is only required to complete paragraph (b) if they have not completed annual** representations and certifications via the System for Award Management (SAM) website.) Page 46 of the RFP states: "**52.212-3 OFFEROR REPRESENTATIONS AND CERTIFICATIONS--COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (MAY 2024) The Offeror shall complete only paragraph (b) of this provision if the Offeror has completed the annual representations and certification electronically in the System for Award Management (SAM) accessed through <https://www.sam.gov>.** Please clarify the correct requirement for compliance with FAR 52.213-3.

Answer 5: Offerors are only required to complete paragraph (b) if they HAVE completed the annual representations and certification electronically.

Question 6: Please confirm the file size limitation (2MB or 10MB). The file size limitation is larger than the email size limitation, could the email size limitation be increased to 10MB or larger than the file size? In order to stay under the email size limit of 2MB is it acceptable to submit each volume / partial volumes in separate emails?

Answer 6: See answer 3.

Question 7: Is it possible to submit our response in DoD SAFE via a SafeLink to upload all documents in one location?

Answer 7: DoD SAFE can be used as a source of submission.

Question 8: Will the attendee list from the site visit held 3/21/25, be shared out?

Answer 8: No.

Question 9: On January 25, President Trump rescinded EO 14055 which covers nondisplacement of qualified workers under service contracts. Please confirm if FAR 52.207-3 is still applicable to this contract.

Answer 9: FAR 52.207-3 is not applicable.

Question 10: Since there is a current right of refusal for incumbents, how many incumbents are on staff at this time?

Answer 10: 15 on staff now, 1 stock clerk has been removed.

Question 11: It is our understanding a CAC is required to access these trainings through the NAVFAC Portal. Please provide information regarding the timing, access to, and costs associated with these trainings as we cannot access them without a CAC.

Answer 11: CAC will be provided to all workers. Timing and access to training is under Section 6 of the PWS. Associated costs depend on the type of class taken, attendance, and length of time selected. The current cost for classes ranges from \$2,200.00 to \$4,400.00 but are subject to change.

Question 12: To accommodate the full performance window (0600-1800) do staff currently work flex/staggered shifts to provide contractor support during the entire performance window or is it at the discretion of the contractor?

Answer 12: Staggered shifts.

Question 13: We noticed/ were informed during the site visit that the Production Coordinator sits about a mile away from the rest of the contract positions. Are they in a separate location based on operational commands?

Answer 13: Yes. This contract employee is physically located in an administrative space in the hazmat storage warehouse.

Question 14: We noticed/ were informed during the site visit that the Production Coordinator sits about a mile away from the rest of the contract positions. Are both production coordinators seated in the same location?

Answer 14: See answer 13.

Question 15: What system does I&E Division use to generate and track work orders?

Answer 15: USMC Maximo (USMCmax)

Question 16: Who allocates work tasks to the Production Controllers?

Answer 16: Public Works Operations Supervisory Staff and Contract Site Lead/Project Manager.

Question 17: What system is used to produce procurement requisitions?

Answer 17: Defense Agencies Initiative (DAI). Contract employees will not initiate procurement requisitions. Only Government employees produce procurement requisitions.

Question 18: Who are the work orders provided to?

Answer 18: All parties involved in the completion of facilities maintenance work.

Question 19: Please clarify what "cost estimating methods" are to be applied.

Answer 19: Analyzing projects, utilizing Robert Snow Means (RSMMeans), and expert knowledge to determine reasonable costs.

Question 20: What CAD software is being used?

Answer 20: AutoCAD 2024.

Question 21: Please identify what "computer design software" is being used.

Answer 21: Government-furnished: AutoCAD 2024 and ARC-GIS.

Question 22: Will this position require the ability to use GCSS-Marine Corps?

Answer 22: No.

Question 23: Does the requirement to operate a "10-ton motor vehicle" throughout the base require offerors to use the SCA Heavy Equipment Operator 23440 or Heavy Truckdriver 31363 labor category? There is a major difference in insurance requirements.

Answer 23: Offerors shall use the labor categories as specified in Section 5.1 of the PWS.

Question 24: Will MCLB Albany require a Government Driver's license to operate cargo trucks on base?

Answer 24: State issued driver's license will suffice for this requirement.

Question 25: Will a CDL be required to operate the "10-ton" cargo truck?

Answer 25: No.

Question 26: Will the offeror ever be required to operate the "10-ton" cargo truck off base or on commercial roads?

Answer 26: No.

Question 27: Paragraph 5.9 Computer Operator Support (a): Will this position require any specific software experience or certification?

Answer 27: Refer to the changes under Section 5.9 of the PWS.

Question 28: Paragraph 5.9 Computer Operator Support (a): If certification is required after contract award, will the Government provide the certification training?

Answer 28: Government provides the training, but contractor is responsible for the associated costs. See Answer 11 above.

Question 29: Paragraph 5.9 Computer Operator Support (a): This task requires support of a specific "computer database". Please define what that database is and what software it utilizes.

Answer 29: iNFADS web based Real Property Database.

Question 30: Will the Government provide all software applications and licenses required to perform the tasks in PWS Section 5.0?

Answer 30: Yes. The Government will provide all software applications and software licenses.

Question 31: PWS page 3, Notice to Offerors, states the contract is currently operating with a "full" staff of 15 positions. However, Section 5.1 states the contract requires a minimum of 14 FTEs with Section 4.4 stating one position operates with a dual, "collateral" role of Project Manager/Team Leader. Is the contract currently operating

with an additional, Exempt leadership position outside of the 14 SCA Labor Positions noted in Section 5.1? Is the FTE scope of the contract being reduced from 15 FTEs to 14 FTEs?

Answer 31: Current contract is operating with full staff of 15 FTEs. 1 position operates with a dual collateral role of Project Manager/Team Leader. New contract is being reduced to 14 FTEs.

Question 32: Page 3 stipulates the proposal should be emailed with a file no larger than 2 MB. If our proposal exceeds the size, is there an alternative DoD Sage Dropbox we can submit it in?

Answer 32: See Answers #3, 4, and 7.

Question 33: What are the most critical priorities for this contract from the government's perspective?

Answer 33: All positions in the PWS are critical priorities.

Question 34: Are there any current challenges with the existing contractor that we should be aware of?

Answer 34: No.

Question 35: Are there any anticipated seasonal surges or unexpected workload fluctuations that the contractor should plan for?

Answer 35: No.

Question 36: Would the government be open to flexible staffing solutions (e.g., part-time or surge staff) in case of increased workload?

Answer 36: No.

Question 37: Are there any historical contract performance issues that we should take into consideration when planning our execution strategy?

Answer 37: No.

Question 38: What are the biggest risks the government foresees in executing this contract, and how can the contractor best mitigate them?

Answer 38: Continuity of operations during the transition. Best way to mitigate risks is by implementing a strong transition plan.

Question 39: Will government personnel provide technical guidance or oversight, or is the contractor fully responsible for execution?

Answer 39: Government personnel will provide technical guidance, but contractor is responsible for full performance of duties described in the PWS.

Question 40: Is there an existing inventory tracking system that the contractor will need to use?

Answer 40: Yes- USMC Maximo (USMCmax) and HMMS.

Question 41: Are there specific software or database systems required for data entry, technical writing, attendance, or inventory management?

Answer 41: Inventory management is USMC Maximo (USMCmax) and HMMS. Database system is INFADS utilized by Computer Operator III. Attendance will be provided by the contractor.

Question 42: If yes, will training be provided by the government, or is the contractor's responsibility to train employees on these systems?

Answer 42: Refer to section 6.0 contractor qualifications, education, and experience.

Question 43: How frequently are safety audits and inspections conducted, and what are the reporting requirements?

Answer 43: Government supervisory staff conduct safety walkthroughs weekly. Our government safety specialist conducts a full monthly inspection of all our division areas for compliance. Contract personnel reporting requirements will be to report safety hazards that they identify to government personnel for correction.

Question 44: Does the government already have employees in place for any of the positions outlined in this contract?

Answer 44: Yes, the positions are currently staffed with contractor employees.

Question 45: What is the government's preferred timeline for full contract execution after award?

Answer 45: 30-days.

Question 46: Can you please provide us with the seniority list of the staff for this contract?

Answer 46: A list of current contractor employees will be provided to the awardee at the time of award.

Question 47: Page 3, Paragraph 3 states that "the contract is currently working at full staff of 15 positions." However, Page 21, Section 5.1 identifies fourteen (14) total SCA positions, and the total FTEs listed across the subCLINs also add up to 14. Can you please confirm the total number of FTEs required under this contract?

Answer 47: See Answer 31.

Question 48: Is there a required transition period for the new contractor? If not, are you expecting the proposal to include a recommended transition plan and timeline?

Answer 48: See Addenda to FAR 52.212-1.

Question 49: Page 26, Section 6.1.2.1 references an "initial HMMS for the conference." Can you please clarify what "HMMS" stands for in this context and what the expectations are for this conference?

Answer 49: Hazardous Material Management System

Question 50: Are any contractor personnel required to wear PPE while working in the facilities? If so, will the Government furnish PPE, or is the contractor responsible for providing it?

Answer 50: Yes. Refer to Section 4.5 of the PWS.

Question 51: Besides MAXIMO, is there any other system or platform currently used for hazardous materials documentation, tracking, or reporting?

Answer 51: HMMS. See Section 4.5 of the PWS.

Question 52: If any of the contracted employees listed in the subCLINs are later absorbed into Government roles, would such changes be handled through a mid-year contract modification, or would they only be implemented at the time option periods are exercised?

Answer 52: Sentence has been removed. At this time the Government has no plans to hire any federal civil servant positions.

Question 53: JPAS is referenced in the solicitation throughout paragraph 8.0 Security Requirement. It is our understanding that DISS replaced JPAS. Is JPAS still being used within your organization or is DISS the system you are using?

Answer 53: Defense Information System for Security (DISS) has replaced Joint Personnel Adjudication System (JPAS) and has been updated throughout the solicitation.

Question 54: In paragraph 8.3 Investigations, it is mentioned "The Government Security Manager will process the Trustworthiness NAC. The contract employee shall provide the completed Personnel Security Investigation (PSI) to the Security Manager along with the original signed release statements and applicant fingerprint card (FD87). The responsibility for providing the fingerprint card rests with the Contractor. The Security Manager will review the form for completeness, accuracy and suitability issues and will forward the completed SF85P along with attachments to OPM." Does the Government Security Manager handle the whole process, or will the Contractor Security Manager handle the whole process?

Answer 54: Based on position requirements. A level T3 or higher requires the contractor security manager to handle whole process.

Question 55: Approximately how long does it take for the CAC being approved? Will the employee need the CAC prior to starting or can they start work during the investigation phase?

Answer 55: (1) Approximately 30 days (2) Will need CAC prior to starting work.

Question 56: Approximately how long does it take for the Trustworthiness NAC? Does an employee need to have this completed prior to the start of work?

Answer 56: Approximately 2 weeks. Yes.

Question 57: Under Submission of Quotes, it mentions 15 positions and in paragraph 5.1 it mentions 14 positions. Please clarify the number of the positions for this effort.

Answer 57: See answer 31.

Question 58: Do the personnel that work in the HAZMAT area handle any materials that would require a HAZMAT pay differential?

Answer 58: No, these personnel are not responsible for handling hazardous material.

Question 59: Which positions require PPE? Is it the Government or the Contractor's requirement to provide the PPE?

Answer 59: See answer to question 50.

Question 60: 5.3 Requires the Production Controller to "Receive, screen, and classify all job orders." Who generates job orders? Who authorizes the job orders the Production Controller is required to act on? How many job orders were processed at each location during the last fiscal year?

Answer 60: Base tenants generate work requests which are converted to work orders by the Production Controllers. Contractor site lead and government supervisory staff review, and route work orders once processed by the Production Controllers. Approximately 8,000 work orders were processed by Production Controllers last year; Government and contractors.

Question 61: What documentation is required to verify the material that the Forklift Driver will be unloading from delivery trucks?

Answer 61: Bill of Lading.

Question 62: What is the DOL Wage Determination and revision that is currently being used on the existing Contract?

Answer 62: The applicable DoL Wage Determination 2015-4467 Rev. 30 is reflected on solicitation and is posted in SAM.gov.

Question 63: On the second paragraph on page 3 of 81 it says, "Contract currently working at full staff of 15 positions. Contract started with 17 positions." In 5.1 it says "Types of SCA Labor Positions with a total of fourteen (14) positions. What current position is being eliminated in the new Contract?"

Answer 63: 1 stock clerk is being eliminated.

Question 64: 5.1 e. identifies a Forklift Operator (one position), however 5.7 b. states "Operate up to 10-ton motor vehicle to empty recycling containers located at the recycling collection points throughout the base." Does this require that the "Forklift Operator" needs to be classified as Job Classification 31362 Medium Truck Driver rather than 21020 Forklift Operator?

Answer 64: See answer 23.

Question 65: Is there currently a Collective Bargaining Agreement covering these employees?

Answer 65: No, but there is an applicable DoL Wage Determination (see answer for question 62).

Question 66: 5.2 states that "Any manning vacancies that remain unfilled after 14 days shall have an invoice offset calculated using the total proposed daily cost (including profit and overhead) for the position left vacant (based on a 30-day month) times the number of vacant days in the billing cycle plus an additional 10% of the cost calculated." If a vacancy occurs and the Contractor finds a replacement within the 14-day timeframe, will the government be able to process the replacement within the timeframe of 5.2? If not, then will the Contractor still be subject to the invoice offset and penalty set forth in this provision?

Answer 66: No, if the vacancy is filled within the 14-day timeframe the contractor will not be penalized for the time it takes to on-board. "Cycle plus an additional 10% of the cost calculated" has been removed.

Question 67: 5.3 i. Are there published standards or procedures for the number of man hours needed to perform work orders, or does the Production Manager rely solely on their own experience and judgement to determine the number of man hours for each work order along with the start and end dates/times?

Answer 67: This is a Firm-Fixed Price Level of Effort requirement. Refer to Notice to Offerors section.

Question 68: What is the funding for the current contract year?

Answer 68: The current contract is a Firm Fixed Price- Level of Effort contract with a 12-month base period, (3) 12-month option periods, and 6-month option to extend services with an award amount of \$5,142,128.40 on 11 Jun 2021.

Question 69: Will this requirement be awarded to one single prime contractor responsible for all positions? Or will it be broken into multiple awards or allow subcontractor partnerships for specific portions such as logistics or technical services?

Answer 69: The Government intends to make a single award.

Question 70: Would the Government consider extending the allowable timeframe for past performance examples demonstrating similar size, scope, and complexity from three years to five years?

Answer 70: No.

Question 71: Could the Government confirm the accuracy of the Item Number listings?

Answer 71: Unclear of the question.

Question 72: Could the Government provide detailed scope of work descriptions and confirm the specific requirements for the following labor categories? (Note: The existing scope of work on pages 4 through 29 does not currently address these specific CLINs.) Base Support Services (Item Nos. 0001, 1001 Option, 2001 Option, and 3001 Option). Installation Environment Support (Item Nos. 0002, 1002 Option, 2002 Option, and 3002 Option). Production Plant Albany (PPA) Support (Item Nos. 0003, 1003 Option, 2003 Option, and 3003 Option).

Answer 72: See PWS. Scope of Work is in the Performance Work Statement. The CLIN Titles are the sections the workers will be going to and the SubCLINs are the contractor positions.

Question 73: Could the Government clarify the required annual hours per FTE—are they 2080 hours, 1880 hours or 1920 hours?

Answer 73: Refer to 4.3 in the PWS.

Question 74: What is the exact number of positions expected, and what is the process for potential adjustments in staffing levels during the contract period? How will such changes affect the contract pricing or performance?

Answer 74: There are fourteen (14) positions expected. The contractor will demonstrate the process within their Staffing Plan. The Government does not anticipate any adjustments to staffing levels. See Section 5.2.

Question 75: Can you provide a detailed evaluation plan, including the weighting of each evaluation factor (technical capability, past performance, price), and the specific sub-criteria for each factor?

Answer 75: Refer to provision 52.212-2, Evaluation—Commercial Products and Commercial Services.

Question 76: Can you please confirm which executive order we need to use for pricing the benefits- EO 14026 or EO 13658?

Answer 76: Executive Order 14026.

Question 77: Can you provide clarification on Net Amount Ceiling Pricing?

Answer 77: Net Amount Ceiling Price is dealing with the sub/CLINs that are Firm Fixed Price – Level of Effort (FFP-LOE). Not all sub/CLINs are categorized as FFP-LOE.

Question 78: Can you provide further instructions on the formatting requirements for each of the volumes – page number maximums, font, etc.?

Answer 78: Instructions are provided under “Addenda to FAR 52.212-1” to include page limitations.

Question 79: What format do you require for the Pricing Volume - Excel or just the CLINS listed on pages 4-19 of the RFP?

Answer 79: The vendor may submit their pricing volume in any format as long as it conforms to the information listed under Addenda to FAR 52.212-1.

Question 80: Are the PWSs that the technical writers work on associated with federal government contracts?

Answer 80: Yes, technical writers develop project packages that get included in awarded government contracts.

Question 81: Are there any uniform safety requirements applicable to contractor personnel?

Answer 81: Refer to 4.9 in the PWS applicable references.

Question 82: Which contractor positions are expected to be absorbed by the government, and what is the timeline?

Answer 82: See answer 52.

Question 83: Who is responsible for providing PPE to the Production Coordinator working in the Hazmat Warehouse?

Answer 83: See answer 50 and 58.

Question 84: Are there any specific performance goals or metrics that the customer aims to achieve under this contract?

Answer 84: All specific performance goals or metrics are accounted for in the PWS.

Question 85: ITEM Nos. 000101, 000102, 000103, 000104, 000105, 000106, 000201, 000301, 000302, etc. (3 Option years inclusive). Please provide the Unit and Quantity for the purposes of pricing.

Answer 85: The subCLINs are non-priced subCLINs. All pricing information should be captured at the CLIN level.

Question 86: “No overtime is required.” Does this mean that no coverage is expected during Federal Holidays?

Answer 86: No. See Section 4.3 in the PWS.

Question 87: “4.4 Performance Standards. The Contractor shall provide the necessary resources and infrastructure” What is the necessary ...infrastructure that the Government wants the contractor to provision? We believe the work is to be performed at the MCLB managed buildings and the infrastructure will be provided by the Government. Is our understanding correct, if so, please correct the RFQ.

Answer 87: Infrastructure meaning support, framework, basis of the PWS.

Question 88: Will the Government provide the Personal Protective Equipment, not limited to hard hats, safety boots, coveralls, safety glasses, safety gloves, etc. to the Contractor’s personnel?

Answer 88: See answer 50.

Question 89: Is the JPAS system still valid or has this been replaced, if so, please correct the RFQ?

Answer 89: See Answer 53.

Question 90: We are unclear how these are applicable to this RFQ, if not will the Government please delete? E.g. 252.225-7048 Export-Controlled Items JUN 2013, 252.225-7055 Representation Regarding Business Operations with the Maduro Regime MAY 2022, 252.225-7056 Prohibition Regarding Business Operations with the Maduro Regime JAN 2023, 252.225-7059 Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region – Representation JUN 2023, 252.225-7060 Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region JUN 2023, 252.225-7966 (Dev) Prohibition Regarding Russian Fossil Fuel Business Operations - Representation (Deviation 2024-O0006) MAR 2024, 252.225-7967 (Dev) Prohibition Regarding Russian Fossil Fuel Business Operations (Deviation 2024-O0006), MAR 2024, 252.237-7010 Prohibition on Interrogation of Detainees by Contractor Personnel, JAN 2023.

Answer 90: The clauses/ provisions are necessary for contractors conducting business with the Government and on Government facilities.

Question 91: Besides Maximo, are there other inventory management or warehouse management systems with which to be familiar?

Answer 91: HMMS. See Section 4.5 of the PWS.

Question 92: How often are stores required to take inventory, and are there any other systems to which stored items must be reconciled?

Answer 92: Refer to 5.6.3 in the PWS.

Question 93: Does the proposed team have to do part-kitting for each work order, or is it performed outside the scope?

Answer 93: Part kitting is not performed in the warehouse.

Question 94: Who manages the unstocked materials required for the work order under centralized or decentralized procurement? Should they be accepted/inventoried and issued as part of the project parts?

Answer 94: Government personnel manage unstocked materials. Stock clerks are responsible for inventory in accordance with 5.6.3 in the PWS.

Question 95: Are there bulk-issued items like consumables stored at the warehouse issued outside work orders?

Answer 95: Yes- office supplies.

Question 96: Is there a work order planning and scheduling team coordinating the delivery of parts for each work order?

Answer 96: Refer to section 5.8 of the PWS.

Question 97: How are stocked item issuance outside a work order managed?

Answer 97: All parts and materials other than office consumables require a work order.

Question 98: What tools are available for preparing and submitting deliverables under section 7? Are there standardized reporting forms for each required report?

Answer 98: Standardized reporting forms are the responsibility of the contractor.

Question 99: Can we get an extension of time?

Answer 99: No.

Question 100: Are the content and index page included in the page count?

Answer 100: There is no page limit to the volumes. See Addenda to FAR 52.212-1

Question 101: Can the government confirm whether a Collective Bargaining Agreement (CBA) is applicable to this contract and its associated positions? If so, please provide details on the existing agreement, including covered labor categories and any relevant terms.

Answer 101: Refer to answer 62.

Question 102: Can the government clarify whether MAXIMO is required for this contract? If so, will the government provide the necessary MAXIMO licenses, or is the contractor responsible for procurement and associated costs?

Answer 102: Yes. See Section 4.5 of the PWS.

Question 103: Can the government confirm whether offerors are required to submit a complete Quality Control Plan (QCP) as part of the proposal submission, or if a summary outlining the approach is sufficient, with the full plan to be submitted after contract award?

Answer 103: Refer to 52.212-1 Addenda.

Question 104: Are there any associated phase-in/phase-out requirements?

Answer 104: Information added. See Addenda to FAR 52.212-1.

Question 105: Can the government clarify the expected format of the Technical Volume? The instructions reference two subfactors, Technical Capability and Corporate Experience, but only the Technical Capability instructions are included.

Answer 105: Updated 52.212-1 Addenda to remove subfactor "Corporate Experience".

Question 106: Government Furnished Items (GFI) are mentioned, but it is unclear whether forklifts will be provided as GFP or need to be contractor-furnished. Can the government confirm whether forklifts required for forklift operators will be provided as Government-Furnished Items or if the contractor is responsible for providing them?

Answer 106: Refer to sections 4.5 and 5.7a of the PWS.

Question 107: Can the government confirm whether there are any additional items, beyond the Government Furnished Items (GFI) list, that the contractor is required to procure at its own expense? If so, can the government provide a complete listing of all GFI and specify what the contractor is responsible for purchasing?

Answer 107: See section 4.5

Question 108: Can the government confirm which accountability system will be utilized for this contract, MAXIMO, GCSS-MC, or another system? If multiple systems are required, please specify their respective functions and integration requirements.

Answer 108: USMCmax – All contract positions will utilize, HMMS – 1 production controller will utilize, AutoCAD 2024/ARC-GIS – 1 CAD operator and 4 technical writers will utilize, INFADS – 1 computer operator III will utilize. See Section 5.0 of the PWS.

Question 109: Can the government confirm who is responsible for covering the cost of MAXIMO if it is required for contract execution? If the contractor is responsible, will the government reimburse these costs, and if so, under what terms (i.e., direct reimbursement, indirect cost recovery, or other method)?

Answer 109: The Government will be supplying the software.

Question 110: The solicitation requires a transition plan to ensure full performance capability after contract award. Can the government confirm the required transition-in period, including key milestones, deadlines, and any phase-in/phase-out expectations to achieve full operational capability?

Answer 110: See Addenda to FAR 52.212-1.

Question 111: The PWS defines the general logistics support requirements but does not specify details regarding surge operations or contingency support expectations. Can the government confirm the full scope of logistical services required under this contract, including specific surge or contingency support requirements, response times, and the maximum workload capacity the contractor must be prepared to handle?

Answer 111: Workload remains steady. Government does not expect any surge operations or contingency support. If such support is needed, a contract modification would be required at that time.

Question 112: The PWS references technology and system requirements but does not specify whether integration with existing Marine Corps logistics management systems is required. Will the contractor be required to integrate with existing Marine Corps logistics management systems, and if so, which systems are required? Additionally, if integration is required, will the government provide system access, training, and required licenses?

Answer 112: Not required. See Section 4.5 of the PWS.

Question 113: Can the government confirm if this contract will be priced as Firm Fixed Price (FFP), Cost-Reimbursement (CR), Time & Materials (T&M), or a hybrid structure? If a hybrid, can the government specify which CLINs are associated with each pricing type?

Answer 113: The contract will be a hybrid structure of Firm Fixed Price and Firm Fixed Price Level of Effort contract. Refer to each CLIN in the solicitation for additional information.

Question 114: Are offerors required to submit pricing at the labor category level or at the total task order level?

Answer 114: The contractor is required to submit pricing that the main CLIN level.

Question 115: Can the government confirm the level of detail required in the price breakdown? Specifically, should offerors submit fully loaded labor rates per category, a total monthly or annual price, or another format? Additionally, are indirect costs (i.e., overhead, G&A, fee) required to be broken out separately or included in a fully burdened rate?

Answer 115: Pricing information will be provided at the CLIN level. The contract will be a hybrid Firm Fixed Price and Firm Fixed Price- Level of Effort requirement.

Question 116: Will software licensing costs be included in a designated CLIN, or must they be accounted for within fully burdened labor rates?

Answer 116: Software is being provided by the Government. Refer to 4.5 of the PWS.

Question 117: Will the government accept contractor-defined assumptions on workload fluctuations or does the government have historical workload data that must be used for pricing?

Answer 117: No historical workload can be provided. Refer to 5.2 PWS contractor minimum staffing level.

Question 118: Can the government provide historical workload data or past contract pricing to allow offerors to develop more accurate cost estimates?

Answer 118: See Answer 68.

Question 119: Can the government confirm the method of best value tradeoff, will this be a Lowest Price Technically Acceptable (LPTA), Trade-Off, or Best Value selection?

Answer 119: See Provision 52.212-2.

Question 120: Can the government provide exactly what PPE is required for personnel performing work in the warehouse?

Answer 120: See Answer 50.

Question 121: Will PPE be government-furnished under this contract, or is it the contractor's responsibility to supply it?

Answer 121: See Answer 50.

Question 122: Can the government confirm the standard number of annual work hours per Full-Time Equivalent (FTE) for this contract?

Answer 122: See Answer 73.

Question 123: Will the Government provide a Past Performance template?

Answer 123: No.

Question 124: Will the Government provide specific guidance or a list of required information to be included in the Past Performance response?

Answer 124: See Addenda to FAR 52.212-1.

Question 125: Are resumes required for all proposed personnel? Does the proposal response need only resume of few key personnel such as the Project Manager/Team Lead?

Answer 125: Resumes are not required.

Question 126: Are there any restrictions on contacting incumbent personnel(s)?

Answer 126: No. See answer 46.

Question 127: Does Government want to keep key resources from the existing contract?

Answer 127: The incumbents possess extensive knowledge of the Base, Command Tenants, and mission requirements. They are the key resources that the new Contractor & Government would benefit from keeping.

Question 128: Has Government identified specific key resources that they want to retain by transferring them over from the existing contractor to the new contractor?

Answer 128: All personnel under current contract are key personnel and the Government prefer to keep the incumbents because they already possess knowledge of the position duties and the installation mission requirements.

Question 129: Can you provide a detailed breakdown of the evaluation factors (e.g., technical approach, staffing plan, past performance, price)? How will technical capability be weighed against price in the evaluation process?

Answer 129: Refer to Provision 52.212-2 and Addenda to FAR 52.212-1.

Question 130: Will the government use Lowest Price Technically Acceptable (LPTA) or Best Value Trade-Off as the selection method?

Answer 130: See Answer 119.

Question 131: Will there be a knowledge transfer period with the incumbent contractor?

Answer 131: No. See Addenda to FAR 52.212-1.

Question 132: Will the government provide licenses for required software (e.g., MAXIMO, AutoCAD, NAVFAC systems), or must the contractor purchase them?

Answer 132: See Section 4.5 of the PWS.

Question 133: Will the Government please indicate if there is a Transition Out period and a Transition Plan from the incumbent? The incoming contractor would need a transfer of information, documents, etc. as part of a transition-out to better ensure a successful transition.

Answer 133: There is no transition plan from the incumbent. Government maintains all records that the incumbents have created during the performance of the existing contract, so the next contract employees will have access to all these files. Refer to Addenda to FAR 52.212-1.

Question 134: Will the government provide a Transition OUT Plan from the incumbent contractor to guide the Transition IN process? Will the incoming contractor receive access to incumbent-developed documentation, including CAD files, PWS drafts, MAXIMO work order histories, and inventory records? Will the government facilitate any interaction with incumbent personnel to support continuity of operations and potential retention?

Answer 134: See Answer 133 and Refer to Addenda to FAR 52.212-1.

Question 135: What is the planned transition timeline between the incumbent and the new contractor? Will there be an overlap period, or is this expected to be a cold handoff?

Answer 135: Refer to Addenda to FAR 52.212-1 and there may be a cold handoff.

Question 136: Will the incumbent be required to provide a formal turnover brief or knowledge transfer to the incoming contractor?

Answer 136: No.

Question 137: What systems access (e.g., MAXIMO, DDS, network credentials) will be granted to the incoming contractor, and when will this access be provisioned during transition?

Answer 137: Required software for key positions will be provisioned promptly after background investigations are completed.

Question 138: Will government-furnished equipment (GFE), tools, or workspace be made available to the incoming contractor during the transition period?

Answer 138: Yes. See Section 4.5 of the PWS.

Question 139: Does the government have any specific metrics or expectations that define a successful transition (e.g., staffing deadlines, continuity of specific services)?

Answer 139: The Government expects to receive the same continuity of services that we are receiving. See Addenda to FAR 52.212-1.

Question 140: Will the government identify which positions (if any) are currently vacant or difficult to fill under the incumbent?

Answer 140: All positions are filled.

Question 141: What systems and tools will the contractor be required to use beyond MAXIMO and DDS (e.g., SharePoint, DoD email, government ticketing systems)?

Answer 141: Contract employees will be required to use, but not limited to Teams, Microsoft Office Suite, SharePoint, DoD email, etc. See Section 5.0 for further information per job title.

Question 142: Will the contractor be required to provide any software licenses (e.g., AutoCAD, estimating software), or are these government-furnished?

Answer 142: No. They are government-furnished.

Question 143: Will any cybersecurity or IT access requirements (e.g., CAC cards, NIPR access, background checks) need to be completed prior to performance start?

Answer 143: Yes.

Question 144: Are there established Key Performance Indicators (KPIs) or service level agreements (SLAs) the contractor will be evaluated against?

Answer 144: Yes. See Section 7.0.

Question 145: Will the government provide standard templates or formats for required deliverables such as technical reports, estimates, or PWS documentation?

Answer 145: Yes.

Question 146: How often are formal performance reviews conducted (e.g., quarterly, annually), and will contractor participation be required?

Answer 146: Contractor Performance Assessment Reporting System reports will be conducted annually by the COR. The awardee will have the ability to participate.

Question 147: Are there any known upcoming base renovations, closures, or operational changes that may affect contractor access or mission execution?

Answer 147: No.

Question 148: Does the government plan allow on-site individual role shadowing during the transition period?

Answer 148: See Addendum to FAR 52.212-1.

Question 149: What is the expected duration of the National Agency Check (NAC) process for new personnel, and will interim facility or systems access be granted before CAC issuance during the transition period?

Answer 149: Two weeks. Yes, interim facility access will be granted.

Question 150: The due date on the SF1449 states April 4, 2025, while the due date on SAM.gov states April 5, 2025. Would the Government please confirm the due?

Answer 150: See answer 2.

Question 151: What factors are to be considered when establishing priorities for work orders?

Answer 151: Life safety and urgent requirements.

Question 152: Is the maintenance management system a commercial-off-the-shelf application or is it a custom-built system?

Answer 152: USMCmax is a custom-built system.

Question 153: Who determines the priorities of the shop staff and equipment?

Answer 153: Shop supervisor.

Question 154: Does the contractor have the authority to direct and schedule shop staff?

Answer 154: No.

Question 155: Who is responsible for procurement of materials for the shops?

Answer 155: Government personnel.

Question 156: Is there a budget, and who approves the requisitions?

Answer 156: Yes, numerous government approving officials approve requisitions.

Question 157: The Team Leader/Project Manager position is generally a professional, technical, or administrative position that is exempt from the Service Contract Act (SCA). Is this requirement in addition to the 14 SCA positions listed in the RFP? Which position has traditionally performed the Team Leader/Project Manager position?

Answer 157: It's not in addition to the 14 SCA positions listed. A technical writer III has traditionally performed the Team Leader/Project Manager position.

Question 158: Page 3 of the solicitation states that there are currently 15 staff supporting the contract. What position is being eliminated?

Answer 158: See Answer 10.

Question 159: Which labor category currently serves as the onsite Lead/Project Manager?

Answer 159: See Answer 157.

Question 160: Is the contractor required to provide PPE for the staff?

Answer 160: See Answer 50.

Question 161: Are there specific hours that are required to be worked for certain staff (i.e., is there a staggered shift for the stock clerks to maximize availability of the repair parts)?

Answer 161: Yes. Staggered shifts will be used to maximize availability but will not exceed normal working hours as described in 1.0 of the PWS.

Question 162: Does the system provide dashboard data visualization to be able to view the status of requests against the schedule and completion status?

Answer 162: Yes.

Question 163: What material handling equipment is the Stock Clerk responsible for using that would require them to be OSHA qualified and licensed?

Answer 163: See Answer 106.

Question 164: Are Stock Clerks operating the forklift?

Answer 164: Refer to 5.6 in the PWS.

Question 165: The SCA position description describes only the operation of the forklift. Are there other duties that the Forklift Operator fulfills when not operating the forklift?

Answer 165: See Section 5.7 of the PWS.

Question 166: Which positions, if any, are not currently filled on the contract?

Answer 166: Current contract is fully staffed.

Question 167: What cost is applied to CLIN 0001, since each position requested has its own subCLIN?

Answer 167: See answer 115.

Question 168: How is similar size, scope, and complexity defined? Addendum to paragraph (b)(10): page 40.

Answer 168: The similarity between the service/support effort, complexity, dollar value, contract type, and subcontract/teaming or other comparable attributes of past performance examples and the solicitation requirements.

Question 169: Are subcontractor allowed to fill some of the requirements. Can Key personnel experience be use as past experience?

Answer 169: Subcontracting is allowed. Unsure what is being asked on the second question. Personnel experience may not be used as past performance information.

Question 170: What government furnished equipment is provided? Will the contractor be responsible for maintenance on GFE?

Answer 170: See answer 106. The Government will be responsible for maintenance.

Question 171: Paragraph 4.9 who is responsible for software maintenance on the MAXIMO system?

Answer 171: The Government.

Question 172: Par. 5.1 ask for 14 positions but the CLINs only identify 7.

Answer 172: See subCLINs.

Question 173: Is there a CBA on this contract?

Answer 173: Refer to answer 62.

Question 174: Page 21 of the contract, "Any manning vacancies that remain unfilled after 14 days shall have an invoice offset calculated using the total proposed daily cost (including profit and overhead) for the position left vacant (based on a 30-day month) times the number of vacant days in the billing cycle plus an additional 10% of the cost calculated." Is this negotiable?

Answer 174: This information has been updated and the additional 10% has been removed.

The following have been modified:

ADDENDA TO FAR 52.212-1

Addendum to paragraph (b)(4):

The offeror shall submit with their offer:

A capability statement/performance plan that demonstrates their ability to provide the required service in the solicitation. The offeror should address their experience providing this type of service and any other relevant information. A mere statement that the offeror "will meet the Government's requirement" is insufficient. The offeror must demonstrate how it will meet the requirement. Do not reiterate the objectives or reformulate the requirements specified in the solicitation.

Quotes must be in three volumes and there is no page limit to the volumes:

Volume I: Technical Capability

Volume II: Past Performance/ Experience

Volume III: Price

Offeror quotes shall include the following information:

TECHNICAL CAPABILITY: Provide as specifically as possible, the actual methodology you would use for accomplishing and satisfying the requirements detailed in the Performance Work Statement (PWS).

1) Technical Capability

~~2) Corporate Experience~~

Technical Capability. The offeror's technical and management approach shall, at a minimum, address each of the following factors separately, as they apply to the Performance Work Statement (PWS). The quote must include a

comprehensive and expanded explanation of how each of the following would be satisfied. Merely restating the PWS requirement is not acceptable.

A: Demonstrates an acceptable work accomplishment plan to perform the work with properly qualified individuals and a thorough understanding of the PWS (Sections 5.0 and 6.0). Each quote will address the adequacy of the contractor's proposed plans, methods, and procedures to accomplish the tasks contained in the PWS. Each quote will address all areas contained in the PWS, their demonstrated understanding of the scope of the PWS, and their adequacy in proposing a work plan that will meet the Government's requirement.

B: Each quote will include an organization chart that clearly describes proposed staffing meeting the minimum staffing level stated in paragraph 5 of the PWS and how the work will be accomplished utilizing this staffing. The Government expects potential offerors to identify the number of Full Time Employees (FTEs) based on their assessment of the requirement.

C: Submit a Quality Control Plan that clearly demonstrates how the offeror will meet all performance requirements.

D: Submit a transition plan that demonstrates the ability to ensure a smooth and successful transition from the date of contract award to full operations status, without disruption of services. ***The Government expects a minimum of the following key milestones within a 30-day transition period from date of contract award: (1) Identify key personnel, (2) Submit packages for background checks, (3) Submit packages for Common Access Cards (CAC) cards, (4) key personnel performing work in designated workstation. The FTEs will be trained by Government Civilian personnel in performance of their duties.***

E: Each Quote shall include a narrative and supporting data that demonstrates the offeror's experience in supporting this type of requirement and the ability to meet all technical requirements contained in this solicitation. The narrative and supporting data shall show a clear understanding of the requirements and how the experience and resources of their organization can best provide the development and management personnel necessary to carry out this requirement.

Addendum to paragraph (b)(6):

The offeror shall submit with their offer:

PRICE: The price quoted shall be submitted separately from the technical proposal. The price offered must reflect unit prices, extended amounts per line item, and overall total. Additionally, the offeror shall provide the total cost of the base period and all option periods. All prices must be actual "face-value" pricing having already accounted for any discounts offered and extended to the Government). Dollar values shall not extend beyond two decimal places (ex. \$0.00).

Addendum to paragraph (b)(8):

Completed Representations and Certifications. The following representations and certifications **MUST** be completed and returned as part of the offeror's quote:

-FAR 52.212-3 (Note: The offeror is only required to complete paragraph (b) if they have ~~not~~ completed annual representations and certifications via the System for Award Management (SAM) website.)

-FAR 52.204-26, Covered Telecommunications Equipment or Services-Representation

-OR-

-FAR 52.204-24, Representation regarding Certain Telecommunications and Video Surveillance Services or Equipment

-DFARS 252.204-7016, Covered Defense Telecommunications Equipment or Services - Representation

-OR-

-DFARS 252.204-7017, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services – Representation

Addendum to paragraph (b)(10):

The offeror shall submit with their offer:

Past Performance Information: The offeror shall provide contact information including **name, phone number, and email address for a minimum of three (3) references**. The references must be for work performed within the last three (3) years and of similar size, scope, and complexity. References other than those identified by the quoter may be contacted by the Government and used in evaluating the quoter's past performance. Past performance is an indicator of how current and/or previous customers assess contractor performance under a specific contract performed for them and address the full range of all functions required to make any contractual relationship work. Successful past performance indicates that a contractor understands and has the resources to successfully execute a contract; however, it does not necessarily mean a contractor has the resources and skills necessary to perform the specific work requirements of this solicitation.

(End of Addenda to Provision)

NOTICE OF SCHEDULED SITE VISIT

SITE VISIT INFORMATION:

There will be a **site visit scheduled for this requirement on 21 March 2025 at 10:00 AM (EST)**.

Although this site visit is not mandatory, it is highly recommended that all interested contractors attend, so as to provide an accurate quote. The Government will **not** be responsible for Contractor's potential travel costs.

The intent of this site visit is to allow potential contractors the opportunity to view the workplace locations for services in accordance with the Performance Work Statement.

All attendees must contact the Contract Specialist, **Regina Hartley**, at **regina.hartley@usmc.mil** indicating the company name, point of contact, telephone number, and number of persons attending by **3:00 PM (EST), Tuesday 14 March 2025**.

All attendees must be United States Citizens and must register at the Pass & ID Office (Main Gate Visitor's Center) prior to entry onto the Base. Visitors to the base must bring driver's license, car registration and proof of insurance (must meet Georgia's minimum requirement) to obtain access to the installation. Passengers must have a valid form of Federal or State government I.D. (a driver's license is acceptable).

QUOTERS ARE CAUTIONED THAT REMARKS AND EXPLANATIONS AT THE SITE VISIT WILL NOT CHANGE THE TERMS OF THE SOLICITATION UNLESS THE SOLICITATION IS AMENDED IN WRITING BY THE CONTRACTING OFFICER.

All questions shall be submitted, in writing, by ~~12:00~~ **2:00 pm (EST) on 25 March 2025**.

NOTE: Questions received after the above date and time will NOT be answered.

NOTICE TO OFFERORS

QUESTIONS: Questions related to this Request for Quote (RFQ) shall be received by the Contracting Department by **25 March 2025 at 2:00 PM (Eastern Standard Time)**. Questions received after the above date and time will not be answered. Any responses to questions received will be provided via an amendment to the RFQ.

SUBMISSION OF QUOTES: ~~Quotes may be submitted via email (no larger than 2 MB)~~ *Quotes may be submitted via email (no larger than 10 MB) if more space is needed; label your email 1 of _, 2 of _, etc. A response will be given as received. Technical Capability, Past Performance/Experience and Price volumes can be submitted via 3 separate emails. Example 1/3, 2/3, 3/3 in the subject line. DoD SAFE can be used as a source of submission if you have access. Send quotes to regina.hartley@usmc.mil; (PREFERRED METHOD) or via hand delivery/courier to MCIEast Contracting Department (Attn: Regina Hartley), 316 Holcomb Blvd. RM 2110, Camp Lejeune, NC 28547. It is solely the Offeror's responsibility to ensure quotes are submitted in accordance with the FAR provision 52.212-1 including its addenda and received by the offer due date and time in block eight (8) of the RFQ. All quotes, if timely received, will be considered for award. The information submitted shall be clear and legible.*

MCIEast Contracting Department intends to procure Logistical Support Services for Marine Corps Logistic Base (MCLB) Albany, GA. This is an existing (labor only) contract that was awarded under Contract Number M6700121P0008 to ASR International Corp. on 11 Jun 2021 with a current value of almost \$5,049,150.58. Contract currently working at full staff of 15 positions. Contract started with 17 positions. CLINs 0001, 0002, 0003, etc. are for the total price; subCLINs represent the contractor positions (staffing requirements). General and Administrative/ Fee percentages are allowed to be included in the wage rate of the positions. This is a Firm-Fixed Price Level of Effort (FFPLOE) requirement which refers to a specified level of effort over a stated period of time for research and development projects where the product is a report detailing/ showing the results achieved.

PERFORMANCE WORK STATEMENT

Performance Work Statement

For

Logistical Support Services Aboard Marine Corps Logistics Base (MCLB)-Albany, Installation and Environment Division (I&E Div)

1.0 INTRODUCTION

Marine Corps Logistics Base (MCLB)- Albany, Installation and Environment Division (I&E Div) has a requirement for facility contractor support at the Public Works Branch. The information provided within this Performance Work Statement (PWS) provides the tasks to be performed by the contractor in support of this requirement. Work under this PWS shall be performed during normal working hours: 06:00 to 18:00 (8 hours per day, 40 hours per week), Monday thru Friday. No overtime is required.

2.0 REQUIREMENT

This requirement is for facility contractor support services for I&E Div. Public Works facility in a number of functional areas. MCLB- Albany, I&E Div. requirement for contractor support at the Public Works Branch. The information provided within this Performance Work Statement (PWS) provides the tasks to be performed by the contractor in support of this requirement.

3.0 BACKGROUND

MCLB is the primary organization charged with the mission to manage the installation and environmental division to support the warfighter. The contractor shall plan, execute, and manage all program and technical support activities as defined in the tasks below, to support MCLB as it seeks to meet all the requirements for its responsibilities.

4.0 SCOPE

4.1 MCLB Albany, I&E Div. has an existing requirement for contractor support to provide: Technical/Specification writing, Document Support, CAD Document Services and Program Management; Manage Supply Control/ Inventory and Issuing functions; Computer Network Analysis and DDS Computer Data Management in support of

the MCLB, Albany. MCLB Albany I&E Div., Public Works Branch requires this contractor support to continue current levels of service to Production Plant Albany, Base and Tenant Commands.

The overall objective is for the Contractor to be capable of providing high quality technical and supply services.

4.2 Work Location. The work shall be performed in Government facility (buildings 5500 and 5501) aboard MCLB, Albany, GA in support of the I&E Div.'s mission. Contractor is required to work in government facilities due to a daily requirement for coordination with the Government.

4.3 Holidays. The contractor shall provide support during normal working hours for federal employees. The standard work week for federal employees is 40 hours per week Monday through Friday excluding Government holidays. The standard 40-hour week is defined as five (5) workdays per week, eight (8) working hours per day. The contractor is advised that deviation from this standard workweek may affect access to buildings, materials and government employees.

4.4 Performance Standards. The Contractor shall provide the necessary resources and infrastructure to manage and administer this contract as defined in the PWS. This is a Firm-Fixed Price Level of Effort (FFPLOE) requirement. The Contractor shall appoint and identify one of the Contractor Support positions to have the collateral duty of being the Project Manager or Team Leader to supervise the contractor employees and manage the contractor's performance. The Project Manager or Team Leader shall submit the required Daily Work Schedule Reports, Monthly Production Reports, and other reports as located in the PWS Deliverables (Section 7) to the Contracting Officer's Representative (COR).

4.5 Government Furnished Items. The Government will provide the Contractor a workspace which will include a chair, desk, bar code scanners, *necessary software to do duties required*, and NIPR computer(s). *Material Coordinator, Forklift driver and stock clerks will have forklifts up to 10K, 10-ton motor vehicle and other material handling equipment including pallet jacks (Must be qualified/licensed to operate forklifts up to 10K and cargo trucks up to 10-ton). Specific software being used by FTEs are as follows:*

- *AutoCAD 2024 (Auto Computer-Aided Design)*
- *ARC-GIS (Architectural Geographic Information System)*
- *iNFADS (Internet Naval Facilities Assets Data Store)*
- *USMC Maximo or USMCmax (a Computerized Maintenance Management System)*
- *HMMS (Hazardous Material Management System)*
- *Microsoft Office 365 (all positions but not limited to Teams and Outlook)*

The contractor shall be responsible for cleaning all spaces provided for the contractor's use. The contractor shall perform all functions required to maintain these areas in an orderly fashion, to include sweeping, mopping, trash removal daily, vacuuming, and dusting. *All contractors are required to have safety shoes and are not furnished by the government. All other Personal Protective Equipment (PPE) will be government provided.*

4.6 Contracting Officer's Representative (COR). The Contracting Officer's Representative (COR) will have technical oversight and will execute responsibilities related to performance, deliverables acceptance, invoice certification, and coordination of work effort. The COR shall not supervise contractor employees. The COR cannot authorize deviations from the contract or change the contract specifications and requirements.

4.7 Unauthorized Work Performance. The Contractor will not perform work that deviates from contract requirements and specifications. If the Contractor deviates from contract requirements and specifications without approval of the Contracting Officer, such deviation will be at the risk of the Contractor and any cost related thereto will be borne by the Contractor.

4.8 Technical Performance Quality. The Contractor shall be responsible for establishing a staff complement capable of handling the responsibilities, execution, and coordination of team resources as defined in the basic contract PWS.

4.9 Applicable References. The Contractor shall perform support in accordance with the below references:

- ~~MAXIMO~~ *Maximo* User's Guide
- MCO P11000.7C Real Property Facilities Manual, Volume III
- MCO P4400.150e Consumer-Level Supply Policy
- EM 385 1-1 USACE Safety and Health Requirements Manual
- All Applicable Base Regulations

5.0 TASK DESCRIPTION/SPECIFICATION

5.1 TYPES OF SCA LABOR POSITIONS WITH A TOTAL OF FOURTEEN (14) POSITIONS:

- a. Production Controller (two positions)
- b. Technical Writer III (six positions)
- c. Drafter/CAD Operator IV (one position)
- d. Stock Clerk (two positions)
- e. Forklift Operator (one position)
- f. Material Coordinator (one position)
- g. Computer Operator III (one position)

5.2 Contractor Minimum Staffing Level. The minimum staffing level required is fourteen (14) Full Time Employees (FTE) identified under paragraphs 5.1. The contractor is responsible for maintaining the required minimum staffing level. Due to the urgent and continuous nature of this requirement, the Government requires the contractor to maintain the proposed workforce at 100% manning. As such, the contractor is expected to develop a manning plan to fill any planned or unplanned vacancies on an expedited basis. Any vacancies that occur in the contractor's proposed manning must be filled within 14 calendar days. Any manning vacancies that remain unfilled after 14 days shall have an invoice offset calculated using the total proposed daily cost (including profit and overhead) for the position left vacant (based on a 30-day month). ~~times the number of vacant days in the billing cycle plus an additional 10% of the cost calculated.~~

~~**Note:** The Government reserves the right to remove a position when a government new hire occurs.~~

5.3 Production Controller. The contractor shall provide support for MCLB Albany, GA by providing a variety of duties relating to management of administrative programs as follows:

- a. Production Control Support
- b. Receive, screen, and classify all job orders.
- c. Review elements of information, determine and establish priorities based on all other work orders scheduled or pending scheduling.
- d. Compile and record production data to compare records and reports on volume of production, consumption of material and quality control.
- e. Calculate types and quantities of items produced, materials used, frequency of defects and work, and department production rates.
- f. Write production reports based on data compiled, tabulated, and computed, following prescribed formats, maintaining files of documents used and prepared, compiling detailed production sheets or work orders for use by production workers as guides in assembly or manufacture of products.
- g. Prepare written daily work schedules based on established guidelines and priorities, compile material inventory records.
- h. Prepare requisitions for procurement of materials and supplies charts production using chart, graph, based on statistics compiled for reference by production and management personnel.
- i. Schedule performance of work orders by establishing start and end dates/times.
- j. Schedule work orders concurrently or sequentially, to minimize over-all man-hour requirements.
- k. Reschedule jobs due to non-availability of material and/or manpower, weather conditions or other reasons.

- l. Work with shop supervisors, planners/ estimators, and other key personnel to ensure timely material and equipment support to keep jobs on schedule.
- m. Verify material received against bills of material for planned job for correctness.
- n. During working hours receives facilities and industrial related services requests from building managers via a computerized maintenance management system. Using knowledge of trade skills, multifunction facilities support contracts and other government procurement methods to assign an appropriate response priority code; based on government defined parameters, and functional area assignment in no more than 15 minutes from receipt of the service request. Work orders should be assigned to the appropriate functional area and priority. This task may require visiting assigned facilities to gather information to allow accurate work order development or to review current or active work orders with customers.
- o. Develop production reports based on data compiled, tabulated, and computed, following prescribed formats, from the computerized management system to identify trends and costs associated with maintaining assets and facilities. Contractor shall provide these reports on a weekly basis and are based on the current real property inventory to identify areas of cost savings and recommend methods to mitigate identified issues.
- p. Utilizing knowledge of facilities, production assets, trades capabilities and government procedures the contractor will schedule performance of work orders by establishing start and end dates/times, estimating materials necessary, and estimating initial man hour requirements in the computerized maintenance management system. Corrective and preventative work orders should be scheduled concurrently or sequentially on a weekly basis within available man-hour requirements. The weekly schedule shall maximize the work force to 90% of the available man hours.
- q. ***Software being used is USMCmax and HMMS.***

5.4 Technical Writing Support. The contractor will provide support by providing a variety of duties relating to administrative programs. Utilizing knowledge of facilities, facilities maintenance tasks, trades capabilities and government and industry standards and specifications the contractor will develop technical documents and performance work statements by researching work order and customer requirements, estimating material cost, and initial man hour requirements using industry recognized estimating software applications.

- a. Analyze and review customer requests to determine work requirements, develop performance work statements, scopes of work, and required documentation for inclusion into delivery orders or task orders for existing contracts and develop cost estimates.
- b. Revise or write material for reports, briefs, proposals, and related technical operation, and maintenance of industrial machinery.
- c. Receive assignments and technical information from a supervisor or senior writer, may be provided notes or manuals containing operating procedures and details, and may observe production, developmental or experimental activities to verify the provided operating procedures.
- d. Access manufactures' catalog, drawings and other data relative to operations, maintenance, specifications, and product samples to integrate and explain operating procedures, and production cycles.
- e. Organize material and complete writing assignment according to set standards regarding order, clarity, style, and terminology, maintain records and files of work and revisions, select material for publication and arrange for distribution of material.
- f. Apply performance standards and cost estimating methods to develop comprehensive independent estimates.
- g. Provide agendas and minutes of all formal reviews and briefings.
- h. Maintain a file of started, completed and ongoing work order forms.
- i. Prepare reports as required to document the daily actions assigned.
- j. Onsite support required during normal working hours.
- k. The Contractor receives assignment and technical information from a supervisor or senior writer, may be provided notes or manuals containing operating procedures and details, and may observe production, developmental or experimental activities to expand or verify the provided operating procedures and details.

- m. Contractor accesses manufacturers' catalogs, drawings and other data relative to operation, maintenance, and service of equipment, may have access to blueprints, sketches, drawings, parts lists, specifications, mockups, and product samples to integrate and delineate technology, operating procedure, and production sequence and detail.
- n. Contractor organizes material and completes writing assignment according to set standards regarding order, clarity, conciseness, style, and terminology, may maintain records and files of work and revisions, may select photographs, drawings, sketches, diagrams, and charts to illustrate material, assist in laying out material for publication, and arrange for typing, duplication, and distribution of material. This writer may draft speeches, articles, and public or employee relations releases, or specialize in writing material regarding work methods and procedures.
- o. Software being used is USMCmax, AutoCAD 2024, and ARC-GIS.*

5.5 Drafter/CAD Support. The contractor shall provide support for the areas of various CAD responsibilities.

- a. Work with Subject Matter Expert (SME) sketches, marked up prints and calculations of SMEs into complete and accurate working drawings to prepare a set or group of drawings for an entire project or portion of a project.
- b. Perform site investigations to verify and note details of existing conditions and requirements to ensure all features are reflected on completed drawings. Layouts require a high degree of precision and are used to check tolerances, clearances, and dimensions.
- c. Prepare several views of a simple gear system from a layout and manual references and obtaining dimensions and tolerances from manuals and by measuring the layout.
- d. Store, catalog, maintain and update as-built drawings and new designs on computer storage media.
- e. Research original drawings and transcribe information and codes into AutoCAD drawings.
- f. Prepare preliminary sketches and single line diagrams.
- g. Prepare drawings for major projects utilizing computer design software.
- i. Utilize automated databases, technical manuals, specifications, and other courses of action to perform research and analysis work.
- j. Prepare drawings for visual presentation programs using computer programs, mount drawings, and set up appropriate presentation tools.
- k. Additional Draftsman duties as assigned by the COR.
- l. Preparing and revising detail and design drawings for such projects as the construction and installation of electrical or electronic equipment, plant wiring, and the manufacture and assembly of printed circuit boards. Drawings typically include details of mountings, frames, guards, or other accessories, conduit layouts, or wiring diagrams indicating transformer sizes, conduit locations and mountings.
- m. Drawing base and elevation views, sections, and details of new bridges or other structures, revising complete sets of roadway drawings for highway construction projects, or preparing block maps, indicating water and sewage line locations.
- o. Software being used is USMCmax, AutoCAD 2024, and ARC-GIS.*

5.6 Stock Clerk Support

5.6.1 Provide stock support receipt of material(s) and parts.

- a. Receive incoming material from delivery trucks, or MHE.
- b. Inspect received material, to include sorting or weighing, to verify quantity/amount received against the delivery ticket/invoice.
- c. If quantity/amount is incorrect, pass the material and receipt to assigned government employee(s).
- d. If quantity/amount is correct, utilize the warehouse database to input the material receipt, identify the correct material location within the warehouse, and stow the material on location.
- e. Annotate the physical receipt with quantity received and location.
- f. Pass receipt to the assigned government employee(s).
- g. Identify material issues and record them in the corresponding warehouse database(s).
- h. Perform related supply functions as assigned by the COR.

5.6.2 Issue material upon receipt of approved request or work order.

- a. Annotate issue document from personnel receiving material.
- b. Pass issue document to government employees as assigned.
- c. Conduct warehouse material inventories.

5.6.3 Conduct warehouse material inventories.

- a. Inventory material and parts in accordance with the monthly inventory schedule published by the government. Following inventory types are required:
 1. Spot inventories (random)
 2. Perpetual inventories (daily).
 3. Commodity inventories (monthly)
 4. Shelf-life inventories (quarterly)
 5. Wall to wall inventories (annually)
- b. Return completed inventories to government warehouse supervisor.
- c. Operate material handling equipment as required.

Note: Contractor operating MHE will be qualified and licensed in the operation in accordance with OSHA, 29 CFR 1910.178 and MCO 5100.19F. *Software being used is USMCmax.*

5.6.4 Maintain warehouse spaces in accordance with established warehouse plans and safety procedures.

- a. Empty all trash daily.
- b. Remove all used packing material daily.
- c. Clean all spills immediately.
- d. Report hazardous material spills immediately to the government warehouse supervisor.
- e. Sweep warehouse weekly.

5.7 Forklift Operator Support. The Contractor shall provide forklift operation and material handling support for the qualified recycling program.

- a. Unload material from delivery trucks using government furnished forklifts up to 10K and other material handling equipment including pallet jacks. Must be qualified/licensed to operate forklifts up to 10K and cargo trucks up to 10-ton.
- b. Operate up to 10-ton motor vehicle to empty recycling containers located at recycling collection points throughout the Base.
- c. Ensure recycling containers throughout the Base are serviced and emptied on a routine basis.
- d. Prepare recyclable material(s) according to processor/end user specifics, store prepared materials and take loads of recyclable materials to processors and end users.
- e. Assist with monitoring and record keeping of the recycling program by collecting and tracking receipts and recording weights of recyclable commodities when needed.
- f. Comply with regulations and policies concerning safety and practices good housekeeping in and around the recycling center.
- g. Operate recycling equipment to include a can crusher, glass crusher and paper and cardboard balers.
- h. Use various hand tools such as grinders, metal cutters, reciprocating saws and basic mechanic hand tools during processing and preparation of recyclables for shipment to end users.
- i. Ability to work outdoors and throughout all seasons during at least half of the work period.
- j. *Software being used is USMCmax.*

Note: Contractor operating MHE will be qualified and licensed in the operation in accordance with OSHA, 29 CFR 1910.178 and MCO 5100.19F.

5.8 Material Coordinator Support

- a. Coordinates and expedites flow of materials, parts, assemblies, and equipment between sections or departments, according to production and shipping schedules or department priorities, and compiles and maintains manuals and computerized records.
- b. Reviews production schedules and related information and confers with department supervisors to determine material requirements to identify overdue materials and to track material.
- c. Creates purchase requisitions for materials, parts, assemblies, and equipment, and establishes sequential delivery dates to departments, according to job order priorities and material availability.
- d. Examines material received and delivered to verify conformance with specifications.
- e. Arranges in-plant transfer of materials to meet production schedule requirements.
- f. Computes amount of material required to complete job orders, applying knowledge of product and manufacturing processes.
- g. Analyzes receipt and issue data and determines basic minimum on-hand requirements for stocked materials, parts, and equipment.
- h. Compiles and maintains manual and computerized records, such as: material inventories, in-process production reports, requisition/receipt/delivery reports, and status and location of materials and equipment.
- i. Arrange for repair and assembly of parts, materials, and equipment.
- j. Perform related supply functions as assigned by the COR.
- k. Move or transport materials between departments/locations, manually or using material handling equipment. Shall be qualified/certified to operate 10K. forklift truck.
- l. Software being used is USMCmax.***

Note: Contractor operating MHE will be qualified and licensed in the operation in accordance with OSHA, 29 CFR 1910.178 and MCO 5100.19F.

5.9 Computer Operator Support

- a. Responsible for operating, administering, and maintaining databases, including monitoring, tuning, daily backup, and associated support.
- b. Serve as the primary point of contact for the day-to-day operation of the computer database.
- c. Make unusual equipment connections and channel configurations to direct processing through or around problems in equipment, circuits, or channels or reviewing test run requirements.
- d. Develop unusual system configurations that will allow test programs to process without interfering with ongoing job requirements.
- e. Develop capabilities to prevent unauthorized access to databases/web sites and provide access for authorized users.
- f. Provide technical consultative services to MCLB Public Works Center staff on databases contained in various DoD systems/applications, to include analysis and technical recommendations.
- g. Troubleshoot and resolve hardware and software problems.
- h. Propose alternative solutions to solve problems.
- i. Provide customer support with hardware and software problems.
- j. In response to computer output instructions and error conditions or to avoid loss of information or to conserve computer time, operator deviates from standard procedures.
- k. Performs routine maintenance and repairs on servers and desktop/laptop hardware and peripherals such as cleaning, vacuuming and cable inspections.
- l. Identify/resolve problems of server hardware/software/network functions and provide analysis documentation detailing problem and corrective action taken.
- m. Design and prepare technical reports and presentations or briefs.
- n. Perform preventive maintenance for server software and hardware such as installing, updating software, security protection and configuration integrity.
- o. Additional network and computer related tasks as assigned by the COR.
- p. Software being used is USMCmax and iNFADS.***

5.10 Team Leader/Project Manager. The Contractor shall designate one employee to be the Team Leader/Project Manager with the following additional duties:

- a. Maintain complete time and attendance records for all employees.
- b. Submit work schedule to COR and contractor management team.
- c. Submit required reports to COR.
- d. Have full authority to act on behalf of the Contractor on all contract matter pertaining to daily operation.

6.0 CONTRACTOR QUALIFICATIONS, EDUCATION, AND EXPERIENCE

6.1 Production Controller

6.1.1 Qualifications. Contractor personnel serving in this role shall have the following qualifications:

- a. Shall possess the knowledge, skills, and abilities to work independently.
- b. One (1) year experience working in a professional office setting.
- c. Must be proficient with computer software (e.g., Microsoft Office 365) to perform support functions in production control.
- d. Must have excellent verbal and written communication skills to coordinate and resolve complex communication or logistical related issues.

6.1.2 Education and Experience. Contractor personnel serving in this role shall have the following education or experience requirements:

6.1.2.1 Education. An associate's degree in a field of study related to production control (i.e., Industrial Maintenance Technology, Engineering Technology, etc.).

~~Note:~~ Production Controller must attend an annual HMMS Conference virtually or in-person to be qualified for his/her duties and the Contractor shall be responsible for all associated costs.

6.1.2.2 Experience. In lieu of the education requirement above, contractor personnel may have a minimum of two (2) years' experience working as a Production Controller managing workflow in a facilities maintenance environment. Experience in trades such as electrician, plumber, HVAC technician, etc. is preferred but not required.

6.2 Technical Writer III

6.2.1 Qualifications. Contractor personnel serving in this role shall have the following qualifications:

- a. Shall possess the knowledge, skills, and abilities to work independently.
- b. One (1) year experience working in a professional office setting.
- c. Must be proficient with computer software (e.g., Microsoft Office 365) to perform support functions in production control.
- d. Must have excellent verbal and written communication skills to coordinate and resolve complex communication or logistical related issues.

6.2.2 Education and Experience. Contractor personnel serving in this role shall have the following education or experience requirements:

6.2.2.1 Education. A bachelor's degree in a field of study related to Industrial Maintenance Technology or Engineering Technology.

6.2.2.2 Experience. In lieu of the education requirement above, contractor personnel may have a minimum of five (5) years' experience working as a specification writer or engineering technician.

6.3 Drafter/CAD Operator IV

6.3.1 Qualifications. Contractor personnel serving in this role shall have the following qualifications:

- a. Shall possess the knowledge, skills, and abilities to work independently.
- b. One (1) year experience working in a professional office setting.
- c. Must be proficient with computer software (e.g., Microsoft Office 365) to perform support functions in production control.
- d. Must have excellent verbal and written communication skills to coordinate and resolve complex communication or logistical related issues.

6.3.2 Education and Experience. Contractor personnel serving in this role shall have the following education or experience requirements:

6.3.2.1 Education. An associate's degree in a field of study related to Draftsman or CAD operation.

6.3.2.2 Experience. In lieu of the education requirement above, contractor personnel may have a minimum of two (2) years' experience working as a Drafter/CAD Operator.

6.4 Stock Clerk

6.4.1 Qualifications. Contractor personnel serving in this role shall have the following qualifications:

- a. Shall possess the knowledge, skills, and abilities to work independently.
- b. One (1) year experience working in a professional office setting.
- c. Must be proficient with computer software (e.g., Microsoft Office 365) to perform support functions in production control.
- d. Must have excellent verbal and written communication skills to coordinate and resolve complex communication or logistical related issues.

6.4.2 Education and Experience. Contractor personnel serving in this role shall have the following education or experience requirements:

6.4.2.1 Education. A certification in the field of supply management.

6.4.2.2 Experience. In lieu of the education requirement above, contractor personnel may have a minimum of two (2) years' experience in supply clerical work, supply support, inventory control, or computer operations support.

6.5 Forklift Operator

6.5.1 Qualifications. Contractor personnel serving in this role shall have the following qualifications:

- a. Shall possess the knowledge, skills, and abilities to work independently.
- b. One (1) year experience working in a professional setting.
- c. Ability to work outdoors and throughout all seasons.
- d. Must have excellent verbal and written communication skills to coordinate and resolve complex communication or logistical related issues.

6.5.2 Education and Experience. Contractor personnel serving in this role shall have the following education or experience requirements:

6.5.2.1 Education. Must possess a forklift license, ~~and~~ OSHA certificate, *and State Issued Real Driver's License.*

6.5.2.2 Experience. In addition to the education requirement above, contractor personnel shall have a minimum of one (1) year experience working as a forklift driver.

6.6 Material Coordinator

6.6.1 Qualifications. Contractor personnel serving in this role shall have the following qualifications:

- a. Shall possess the knowledge, skills, and abilities to work independently.
- b. One (1) year experience working in a professional office setting.
- c. Must be proficient with computer software (e.g., Microsoft Office 365) to perform support functions in production control.
- d. Must have excellent verbal and written communication skills to coordinate and resolve complex communication or logistical related issues.
- e. Ability to work outdoors and throughout all seasons.

6.6.2 Education and Experience. Contractor personnel serving in this role shall have the following education or experience requirements:

6.6.2.1 Education. A certificate in supply management, must possess a forklift license, ~~and OSHA certificate,~~ *and State Issued Real Driver's License.*

6.6.2.2 Experience. In lieu of the education requirement above, contractor personnel may have a minimum of three (3) years' experience working as a Material Coordinator/Expeditor.

6.7 Computer Operator III

6.7.1 Qualifications. Contractor personnel serving in this role shall have the following qualifications:

- a. Shall possess the knowledge, skills, and abilities to work independently.
- b. One (1) year experience working in a professional office setting.
- c. Must be proficient with computer software (e.g., Microsoft Office 365) to perform support functions in production control.
- d. Must have excellent verbal and written communication skills to coordinate and resolve complex communication or logistical related issues.

6.7.2 Education and Experience. Contractor personnel serving in this role shall have the following education or experience requirements:

6.7.2.1 Education. An associate's degree in one of the following fields of study: Information Technology, Computer Science, Information System Management, Information Science, or Technology Management.

Note: Computer Operator must attend the following classes during performance (or have verification of prior completion) of this contract. Training is provided virtually, or in-person and the Contractor shall be responsible for all associated costs.

- Internet Naval Facilities Assets Data Store (iNFADS). iNFADS is a three-day course that teaches the fundamentals of real property data management. This course is necessary for users to be granted full access to enter data in this database. **iNFADS training is only valid for three years.**
- NAVFAC Real Property Law Course. The course address legal aspects of the federal real estate process from acquisition to disposal of all types of property interests, to include ownership, leases, easements, joint use, licenses, and covenants. The understanding of this information is necessary for making entries in iNFADS as it relates to Real Estate transaction.

- Real Estate and Asset Management training. The purpose of this training is to educate Real Property data managers on those policies and procedures that will ensure the effective management of the Marine Corps' Real Estate, Real Property, and IGI&S Programs.

6.7.2.2 Experience. In lieu of the education requirement above, contractor personnel may have a minimum of four (4) years' experience working in a related field.

7.0 **DELIVERABLE**

Deliverables. The Contractor shall provide all documents to the COR for review using best commercial practices for quality. Unless otherwise agreed to by the parties, the government will provide written acceptance, comments, and/or change requests, if any, within five (5) business days from receipt of any formal deliverable. If written acceptance, comments, and/or change requests are not provided within five (5) business days, the deliverable shall be deemed acceptable as written by the Contractor. If the government provides comments and/or change requests, the Contractor shall have five (5) business days from receipt of the government correspondence to incorporate the comments and/or change requests and resubmit the deliverable. All reports, materials (including training materials, computer software and hardware, source code, interfaces, tools, works, and related items) and information, in whatever form, created generated or produced under this call shall become the property of the Marine Corps; therefore, the Marine Corps shall have the right to use, modify, reproduce, information in whole or in part, in any manner, and for any purpose whatsoever, and to have or authorize others do to do so. Therefore, any restricted data rights, information, software, items and/or other materials including, but not limited to, the Contractor's or a Third-Party's Proprietary data, information, software, items and/or other materials must not be used for this contract without the specific, written approval by the Contracting Officer, prior to start of any work. The following list of deliverables is required by the contractor:

ITEM	PWS REFERENCE	DESCRIPTION	DELIVER TO & APPROVAL	FREQUENCY
a. Production Controller	See Section 5.3 of the Performance Work Statement: Monthly Report	a. Monthly Production Reports 5.2 b. Daily Work Schedule Report 5.2	COR	5 Business Days After the End of The Month Being Reported
b. Technical Writer III	See Section 5.4 of the Performance Work Statement	Monthly Task Report. Details on assigned, pending, and completed specifications and technical documents	COR	5 Business Days After the End of The Month Being Reported
c. Drafter/CAD Operator IV	See Section 5.5 of the Performance Work Statement	Monthly CAD Drawing with summary report. Details on assigned, pending, and completed. drawing and review documents	COR	5 Business Days After the End of The Month Being Reported
d. Stock Clerk	See section 5.6 of the Performance Work Statement	Monthly inventory stock Report. Orders, Issues, and receipts	COR	5 Business Days After the End of The Month Being Reported

e. Forklift Operator	See Section 5.7 of the Performance Work Statement	Monthly report for recycled materials.	COR	5 Business Days After the End of The Month Being Reported
f. Material Coordinator	See Section 5.8 of the Performance Work Statement	Monthly reports: minimum stock Requirements, balance adjustments, inventory accuracy and discrepancies.	COR	5 Business Days After the End of The Month Being Reported
g. Computer Operator III	See Section 5.9 of the Performance Work Statement	Monthly Report on resolving hardware and software problems	COR	5 Business Days After the End of The Month Being Reported
h. Project Manager	See Section 5.10 Personnel Summary Report	Monthly Deliverables and Personnel report.	COR	5 Business Days After the End of The Month Being Reported

8.0 **SECURITY REQUIREMENT**

A Privacy and Security Non-Disclosure Statement is required. Contract personnel supporting this Contract are required to complete a Privacy and Security Non-Disclosure Statement to view sensitive information. Work on this project requires that personnel have access to Privacy Information. Personnel shall adhere to the Privacy Act, Title 5 of the U.S. Code, Section 552a and applicable agency rules and regulations.

Contractor employees shall identify themselves as Contractor personnel by introducing themselves or being introduced as contractor personnel and displaying distinguishing badges or other visible identification for meetings with Government personnel. In addition, contractor personnel shall appropriately identify themselves as contractor employees in telephone conversations and in formal and informal written correspondence.

Any information, records, or data the Contractor may have access to may be sensitive in nature. The Contractor shall not divulge any information about Government files, data processing activities or functions, user IDs/Passwords, or any other knowledge that may be gained, to anyone who is not authorized to have access to such information. It shall be the Contractor's responsibility to ensure that other persons have the proper authorizations for access to the information. The Contractor shall observe and comply with the security provisions in effect at all Government facilities. Required ID badges shall be worn and always displayed.

8.1 Security Badges. All Contractor employees shall obtain the required employee and vehicle passes. The Contractor employees must be able to obtain CAC in accordance with security requirements. Each employee shall wear the Government issued badge over the front of the outer clothing. When an employee leaves the Contractor's service, the employee's Passes and Badges shall be returned within 2 calendar days.

8.2 Trustworthiness Security. Reference is hereby made to Navy awarded contracts requiring Contractor access to sensitive unclassified information. Although these contracts are not classified and Contractor employees are not required to have a security clearance, the Department of the Navy (DoN) has determined that all DoN Information systems are sensitive regardless of whether the information is classified or unclassified. A Contractor whose work involves access to sensitive unclassified information warrants a judgment of an employee's trustworthiness. Therefore, all personnel must undergo a National Agency Check to verify their trustworthiness. Also, the Government will include Facility Access Determination (FAD) program requirements in the contract specifications when trustworthiness determinations will be required on the Contractor employees. The following addresses those requirements for Trustworthiness Security.

- a. Each Contractor employee must have a favorably completed National Agency Check (NAC).
- b. If Contractor personnel currently have a favorably adjudicated NAC, the Contractor shall notify the Security Manager of the Government command they will visit who will validate this in the ~~Joint Personnel Adjudication System (JPAS)~~ **Defense Information System for Security (DISS)**. The request shall be renewed annually or for the duration of the contract if less than one year.
- c. If no previous investigation exists, the Contractor personnel shall complete the requirement for a Trustworthiness NAC.

8.3 Investigations. Investigations for public trust positions, to include IT-II (Limited Privileged) and IT-III (Non-Privileged) positions that access unclassified sensitive information when clearance eligibility is not required, will be submitted to the Office of Personnel Management (OPM) utilizing the SF-85P (code 08B for IT-II and code 02B for IT-III) and will include the SF-87 Fingerprint Card or electronic fingerprint transmission. The Government Security Manager will process the Trustworthiness NAC. The contract employee shall provide the completed Personnel Security Investigation (PSI) to the Security Manager along with the original signed release statements and applicant fingerprint card (FD87). The responsibility for providing the fingerprint card rests with the Contractor. The Security Manager will review the form for completeness, accuracy and suitability issues and will forward the completed SF85P along with attachments to OPM. The Department of Navy Central Adjudication Facility (DoN CAF) will perform adjudicating contractor investigations for public trust positions. Contractor fitness determinations made by the DoN CAF will be maintained in the ~~Joint Personnel Adjudication System (JPAS)~~ **Defense Information System for Security (DISS)**. Favorable fitness determinations will support public trust positions only and not national security eligibility. If no issues are discovered, according to respective guidelines a "Favorable Determination" will be populated in ~~JPAS~~ **DISS** and will be reciprocal within DoN. If issues are discovered, the DoN CAF will place a "No Determination Made" in the ~~JPAS~~ **DISS** and forward the investigation to the submitting office for Government command's final determination.

9.0 DOCUMENTS

- a. The government shall provide access to the following:
 - Government owned databases as required.
 - Sensitive unclassified materials information in as required in the performance of duties.

All documentation provided by the Government shall be returned to the Government upon completion of work.

10.0 DATA RIGHTS

General. All research, reports, materials (including, but not limited to, all training materials, videography, still pictures, presentations, graphic works, and other PWS related items) and information, and all associated intellectual property, in whatever form, created, generated, or produced in association with this PWS shall become the sole property of the Marine Corps and not the Contractor, sub-Contractor, or individual author or researcher; therefore, the Marine Corps shall have the irrevocable, worldwide, royalty-free right to use, modify, reproduce, perform, display, release, or disclose such research, reports, materials and information, and associated intellectual property, in whole or in part, in any manner, and for any purpose whatsoever, and to have or authorize others to do so.

Furthermore, the Contractor shall not use the Contractor's or a Third-Party's proprietary data, information, software, items and/or other materials for any purpose without meeting the requirements of DFARS clause 252.227-7020, and without the specific, written approval by the Contracting Officer, prior to start of any work.

10.1 Government Data. No data, materials, information, or other items (hereinafter singularly or collectively "Items") created or provided expressly for this PWS shall be used by the Contractor for any purpose other than those that are in support of, or for performance under, this PWS without the prior written permission of the Contracting Officer. The Contractor is obligated to protect from unauthorized use or disclosure all Government confidential or classified material and/or Government-owned proprietary Items obtained during performance under the Government contract, as long as such data remains proprietary, confidential, or classified. Any information obtained in the course

of duties, or the performance of services, under this contract including, but not limited to, information that may be made available for use that relates to the technical data, trade secrets, processes, operations, style of work, or apparatus, or to the technical data, statistical data, amount or source of any income, profits, losses, or expenditures of any person, firm, partnership, corporation, or association is included in this clause (and with "Items"). Contract personnel shall not publish, divulge, disclose, or make known Items in any manner, or to any extent not authorized by the Contracting Officer. When the Contractor's need for such Items ends, the Items shall be returned promptly (within ten (10) business days) to the appropriate government program personnel. However, the obligation not to discuss, disclose, release, reproduce or otherwise provide or make available such Items, or any portion thereof, shall continue, even after completion of this contract/order. Any actual or suspected unauthorized use, disclosure, release, or reproduction of any Items or violation of this agreement, of which the company or any employee is or may become aware, will be reported promptly (within one business day) to the Contractor's program manager, who will inform the Contracting Officer within five (5) business days of receiving such report.

11.0 MEDIA AND FORMAT

Microsoft (MS) Office 365, Professional Edition, and Adobe products are approved for use in completing this study, including the deliverables. Any exceptions must be justified and approved by the COR prior to use. Electronic files for all interim, draft final and final reports must be provided in a Microsoft Office 365 application. For the purposes of this PWS, electronic files are files that are e-mailed; files may not be greater than 10 megabytes.

12.0 PERIOD AND PLACE OF PERFORMANCE

12.1 Period of Performance (PoP): The period of performance of this contract shall be a 12-month base period with three (3) 12-month option periods. This contract includes three (3) option periods which may be unilaterally exercised by the government.

12.2 Place of Performance: The place of performance shall be: MCLB, Albany, GA

13.0 GOVERNMENT POINTS OF CONTACT

The Government points of contact are not warranted Contracting Officers and do not have the authority to take any action, either directly or indirectly, that would change the pricing, quantity, place of performance, delivery schedule, or any other terms and conditions of the contract.

13.1 Contract Administrator: Regina Hartley **Phone:** (910) 451-1591 **eMail:** regina.hartley@usmc.mil

13.2 Contracting Officer Representative (COR): Provided at time of contract award

14.0 POST-AWARD ORIENTATION

The post-award orientation shall be held within 5 calendar days after start of the Period of Performance. The Contractor will schedule and conduct this meeting, in coordination with the Contracting Officer (KO) and Contracting Officer's Representative (COR). The purpose of the post-award orientation is to: 1) discuss any unique characteristics of the requirement(s); 2) identify stakeholders' roles and responsibilities; 3) review the transition plan to full performance and 4) establish a common understanding of cost, schedule, and performance expectations. *The contractor will have 30 days from the start of contract to phase in qualified FTEs.*

15.0 NON-PERSONAL SERVICE STATEMENT

Contractor employees performing services under this order will be controlled, directed, and always supervised by management personnel of the contractor. The contractor's management shall ensure that employees properly comply with the performance standards outlined in the Quality Assurance Surveillance Plan (QASP). Contractor employees will perform independent of and without the supervision of any Government official. Actions of contractor employees may not be interpreted or implemented in any manner that results in any contractor employee creating or modifying Federal policy, obligating the appropriated funds of the U.S. Government, overseeing the work of Federal

employees, providing direct personal services to any Federal employee, or otherwise violating the prohibitions set forth in Parts 7.5 and 37.1 of the Federal Acquisition Regulation (FAR). The Government will control access to the facility and will perform the inspection and acceptance of the completed work.

16.0 BASE ACCESS INSTRUCTIONS FOR MARINE CORPS LOGISTICS BASE ALBANY

-Contractors and/or Delivery drivers must have in their possession: their contract number, delivery address, and sponsor's contact information to gain initial access to the base. For services the Contracting Officer's Representative (COR) is the sponsor, for supply deliveries the customer/delivery point of contact is the sponsor.

Contract Number:	To be provided at award
Sponsor/COR:	To be provided at award
Phone Number:	To be provided at award
Delivery Address:	To be provided at award

-Contractors must be registered in the Defense Biometrics Identification System (DBIDS). It is the Contractor's responsibility to ensure all their employees and or subcontractors are properly registered within DBIDS.

-DBIDS credentials will be valid for the duration of your contract, not to exceed three years; however, re- vetting of individuals' information will occur each year.

-Contractors requiring access for over 60 days will receive a credential valid for up to one year.

-Contractors requiring access for less than 60 days will receive a temporary paper pass.

-Contractor Common Access Card (CAC) Eligibility: Contractor personnel authorized CACs are exempt from DBIDS enrollment.

-If you have questions regarding base access, Contractor CAC or DBIDS requirements contact the Visitor Control Office at (229) 639-5118.

****The Government will not be responsible for any contractor access delays. Delays that may result from inadequate planning are strictly the responsibility of the contractor.**

52.212-2 EVALUATION--COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

BASIS FOR AWARD. *This acquisition will be conducted in accordance with FAR Part 12, Acquisition of Commercial Items and FAR Subpart 13.5, Simplified Procedures for Certain Commercial Items. The Government intends to award one contract as a result of this solicitation; however, the Government reserves the right to award no contract.*

The Government will award a contract resulting from this RFQ to the quoter whose offer conforms to the solicitation and will be most advantageous to the Government, price and other factors considered. The government will perform a comparative evaluation in accordance with FAR § 13.106-2(b)(3) in order to determine which response represents the best as a whole. Evaluation of quotes will be based on 1) Technical Capability, 2) Past Performance, and 3) Price.

~~Quotes will be evaluated based on best value trade off of (1) technical capability of the service offered to meet the Government's requirement; (2) past performance; and (3) price.~~

~~This acquisition will be conducted in accordance with FAR Part 12, Acquisition of Commercial Products and Commercial Services and FAR Part 13.5, Simplified Acquisition Procedures for Certain Commercial Products and Commercial Services.~~

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)
