

| <b>Number</b> | <b>Question</b>                                                                                                                                                                                                                                                                                                             | <b>Answer</b>                                                                                                                                              |
|---------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1             | Do we know how many certificates they are looking to manage for this project? If you had any information related to expected volumes that would be greatly appreciated.                                                                                                                                                     | USMC PKI issues approximately 250,000 NPE certificates and 16,500 NEATS and SIPR User Tokens annually.                                                     |
| 2             | Under what NAICS do you plan to assign this effort?                                                                                                                                                                                                                                                                         | 541519                                                                                                                                                     |
| 3             | Will you allow the VAR exception for NAICS 541519?                                                                                                                                                                                                                                                                          | Applying the employee standard will not be applicable to the requirement.                                                                                  |
| 4             | Is it possible that some of the technical positions (NetOps) can be supported remotely?                                                                                                                                                                                                                                     | All positions are required on-site. Telework may be allowed, but is on a case-by-case basis.                                                               |
| 5             | In PWS section 3.2.b, there is a mention of supporting Zero Trust. Would the PKI team be leading this effort or be a supporting entity?                                                                                                                                                                                     | Supporting entity.                                                                                                                                         |
| 6             | In addition to Zero Trust, would the support or inclusion of Identity Credentialing and Management (ICAM) work also be expected?                                                                                                                                                                                            | Supporting entity.                                                                                                                                         |
| 7             | In PWS Section 4.2.1, there is mention of LRA audits. Does the Program Office envision a need for third party (outside the current organization) auditors?                                                                                                                                                                  | No.                                                                                                                                                        |
| 8             | Reference PWS Section 4.8, will the Place of Performance for the reference optional CLIN be MCB Quantico and servicing the identified areas or does the Government require on-site representation at those sites as well?                                                                                                   | All positions are on-site.                                                                                                                                 |
| 9             | Section 4.2.1 indicates that Personnel shall possess a DoD/NSS PKI Registration Authority, Local Registration Authority, and Key Recovery Agent training certificates. To enable competitive bidding, will the government consider providing a transition period to enable the new vendor's staff to complete the training? | At this time, DoD/NSS PKI Registration Authorities, Local Registration Authorities, and Key Recovery Agents shall be fully certified prior to on-boarding. |
| 10            | Section 4.1.7 identifies a need for a training facility. How many times per year will this venue be needed?                                                                                                                                                                                                                 | 15 times per year -- Once per month, with some double ups.                                                                                                 |
| 11            | Is the course material already developed? More information regarding this requirement will enable bidders to provide more competitive quotes.                                                                                                                                                                               | Course material is developed.                                                                                                                              |

|    |                                                                                                                                                                                                                                                            |                                                                                                                                          |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| 12 | Since this is a performance based acquisition, would the Government consider using Key Performance Indicators and target metrics the vendor is expected to meet?                                                                                           | The PWS has some metrics within the tasks, and we also have a PRS with metrics.                                                          |
| 13 | Will the Government be providing Government Furnished Equipment (GFEs) to the successful Offeror?                                                                                                                                                          | Information concerning GFP is in the PWS.                                                                                                |
| 14 | Would the Government consider releasing the historical LOE for this requirement as the incumbent Contractor is the only competitor with this knowledge, thereby limiting competition?                                                                      | Various historical information will be provided for informational purposes only, and the PWS will contain the available Govt workspaces. |
| 15 | Would the Government please provide current Organizational Charts for MCCOG to level the playing field?                                                                                                                                                    | At this time, release of the slides is still pending.                                                                                    |
| 16 | Will Offerors be required to submit Past Performance references?                                                                                                                                                                                           | Solicitation factors are not finalized.                                                                                                  |
| 17 | Where is the anticipated Place of Performance?                                                                                                                                                                                                             | The place of performance is identified in the PWS.                                                                                       |
| 18 | Does your company have the ability to self-backfill CONUS and OCONUS locations during times of vacancies, vacations, call-outs, etc. that meet the security requirements? Is the OCONUS work in Okinawa Japan temporary travel or a full time position(s)? | The work in Okinawa is a full-time, on-site need/full-time.                                                                              |
| 19 | The Contractor shall utilize the Government Sensitive Compartmented Information Facility for all Top Secret / Sensitive Compartmented Information work as needed, see DD Form 254 for specific locations authorized. Where is the Government SCIF Located? | Information will be provided upon award.                                                                                                 |
| 20 | How many seats will be available at the Government Facility?                                                                                                                                                                                               | This information was recently added to the PWS                                                                                           |

|    |                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                 |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 21 | This contract will require the Contractor to have a Secret Facility Clearance and will require certain Contractors to obtain and maintain classified access eligibility. The Contractor shall have a valid Secret Facility Clearance prior to classified performance. Where must the Contractor's Facility be located? | All work will be performed on site. Requirement is for the vendors to have a CAGE Code and FSO.                                                                                                 |
| 22 | Are resumes required for Key Personnel?                                                                                                                                                                                                                                                                                | Resumes are not required.                                                                                                                                                                       |
| 23 | What is the anticipated Period of Performance?                                                                                                                                                                                                                                                                         | Period of performance is anticipated around third quarter 2026; five performance periods are anticipated.                                                                                       |
| 24 | Does the Government intend to release a draft Solicitation?                                                                                                                                                                                                                                                            | Yes.                                                                                                                                                                                            |
| 25 | Given Small Business (SB) prime contractors deliver similar services on Department of Defense efforts, has the Government made a determination on the Small Business Set Aside (SBSA) status for this effort? If not, when will the SBSA status for this opportunity be determined?                                    | The Government intends to issue the solicitation as a 100% small business set-aside.                                                                                                            |
| 26 | Has the Government considered utilizing Seaport Next Generation SBSA or the General Services Administration (GSA) One Acquisition for Integrated Services Plus (OASIS+) Women Owned SB Intelligence Services Domain (Relevant Category: 50408) to procure these services?                                              | Yes, these vehicles were considered but market research results deemed open market as a better solution.                                                                                        |
| 27 | Will the Government provide the opportunity for interested offerors to conduct one-on-one sessions with relevant Government stakeholders?                                                                                                                                                                              | Other than opportunities provided at Industry Day, we do not anticipate one-on-one sessions.                                                                                                    |
| 28 | What is the anticipated Solicitation release date?                                                                                                                                                                                                                                                                     | Summer 2025.                                                                                                                                                                                    |
| 29 | Will the Government provide the slides presented at the Pre-Solicitation Conference?                                                                                                                                                                                                                                   | Yes, as soon as they have been screened for release by the appropriate authority.                                                                                                               |
| 30 | was the incident of human users left off of the list?                                                                                                                                                                                                                                                                  | No, it was on the previous slide.                                                                                                                                                               |
| 31 | will the PKI industry day slide deck go in the post conference posting?                                                                                                                                                                                                                                                | Yes, as soon as they have been screened for release by the appropriate authority.                                                                                                               |
| 32 | Is there an OCONUS requirement for RA Operations?                                                                                                                                                                                                                                                                      | No, RA Ops is exclusively at MCB Quantico.                                                                                                                                                      |
| 33 | How many SIPER tokens per year?                                                                                                                                                                                                                                                                                        | ~14,000.                                                                                                                                                                                        |
| 34 | What is the OOT?                                                                                                                                                                                                                                                                                                       | There are two LRA Authorities issuing certificates.                                                                                                                                             |
| 35 | Is there a reason MCCOG is doing Triannual audits?                                                                                                                                                                                                                                                                     | JFHQ-DoDIN conducts tri-annual audits on RA Operations -- required by the CPS and RPS. Marine Corps PKI performs bi-annual audits on Marine Corps LRAs, again a requirement of the CPS and RPS. |

|    |                                                                                                  |                                                                                                                                                                                                                               |
|----|--------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 36 | Is there an LRA at MARFORRES?                                                                    | No.                                                                                                                                                                                                                           |
| 37 | is there going to be a tool going forward or is Remedy going to be used throughout contract?     | We currently use Remedy. We leverage the USMC provided E-ITSM tools.                                                                                                                                                          |
| 38 | Does MCCOG support MARSOC with this requirement?                                                 | Yes.                                                                                                                                                                                                                          |
| 39 | does the PKI team maintain its own hardware or do they need to find resources elsewhere?         | PKI maintains its own everything.                                                                                                                                                                                             |
| 40 | Did you get a root from DoD?                                                                     | No.                                                                                                                                                                                                                           |
| 41 | Are you doing validation testing for the software?                                               | We have a lab.                                                                                                                                                                                                                |
| 42 | When you are in a deployment phase, what is the organization structure to pass information?      | Marine Corps PKI is co-located with the Marine Corps Cyberspace Operations Group (MCCOG). We leverage communications with the Battle Staff.                                                                                   |
| 43 | the CA's that you mentioned so far, are they different than DoD?                                 | USMC CAs are for internal USMC consumption only.                                                                                                                                                                              |
| 44 | regarding the help desk, is that 24/7 tier 1,2, or 3, and what tool do you use to capture?       | The USMC PKI help desk is 5x8, it is not a 24 hour operation.                                                                                                                                                                 |
| 45 | Do personnel have to come into the office to do the work?                                        | Yes, all work is done on-site.                                                                                                                                                                                                |
| 46 | The RA responsibilities, are they issued from the DoD PKI?                                       | Yes, DoD and NSS PKI.                                                                                                                                                                                                         |
| 47 | Is there a specific tool to collect all metrics for CMC tool?                                    | No, nothing dictated, whatever the vendor provides.                                                                                                                                                                           |
| 48 | In line with compliance does not equal sustainment, do you have products that leverage security? | We rely on what MARFORCYBER provides (e.g. ACAS, HBSS, Defender, Tanium, etc.) USMC PKI Workstations are non-domain work stations. Only PKI personnel can touch them.                                                         |
| 49 | have you seen any BYOD requirements                                                              | No.                                                                                                                                                                                                                           |
| 50 | On mobile devices, are we Soft Cert or Purebred?                                                 | DoD/DISA Purebred.                                                                                                                                                                                                            |
| 51 | Since this will be FFP, are you going to give more information on the training events required?  | Yes, there will be more definition provided. We are currently looking at 15 sessions per year.                                                                                                                                |
| 52 | Will there be staffing plans provided?                                                           | No however the Government will be providing historical staffing levels. This is a mature system, nothing needs to be developed, however the Government wishes to hear what industry has to offer. Feedback is very important. |
| 53 | is Marine corps PKI considered in sustainment?                                                   | Yes, we are in sustainment. There are new requirements all the time that we have to adjust to.                                                                                                                                |

|    |                                                                                          |                                                                                                                                                                                                 |
|----|------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 54 | Why is the Marine corps still on Microsoft certificate authorities?                      | We have a project in place to move off of MS Certificate Authorities.                                                                                                                           |
| 55 | Are you transitioning to quantum cryptography?                                           | Yes, Our intent is to transition PQC via algorithm evolution.                                                                                                                                   |
| 56 | for the web app supporting enrollment, is that a product?                                | it is not homegrown, we use what comes down from DISA PKI/PKE.                                                                                                                                  |
| 57 | Are responsibilities exclusively for PKI product analysis?                               | Yes, mainly PKI product analysis and ancillary requirements                                                                                                                                     |
| 58 | Is there anything on high/high or SIPR and below?                                        | SIPR and below.                                                                                                                                                                                 |
| 59 | Will you be sending a conformed RFP prior to official RFP?                               | Likely the Government will issue a draft RFP.                                                                                                                                                   |
| 60 | What is your timeline to release the RFP?                                                | Likely this summer.                                                                                                                                                                             |
| 61 | Are materials and ODC's going to be a plug number or how will that be presented?         | We are looking at Cost Reimbursement for Travel, no ODC.                                                                                                                                        |
| 62 | What are the on-site support requirements?                                               | 100% in office only work.                                                                                                                                                                       |
| 63 | Does the Government have a ratio of Conus/OCONUS work?                                   | Historically, 2 personnel for OCONUS, everyone else CONUS. Dropping one OCONUS site.                                                                                                            |
| 64 | Where will training need be?                                                             | Historically, it has been within 10 miles of Quantico.                                                                                                                                          |
| 65 | Will Overtime be allowed?                                                                | Overtime will not be allowed.                                                                                                                                                                   |
| 66 | Are the LRA's going to be co-located with the MEF G6's?                                  | I and II MEF is with the G-6, III MEF is with 3 Network Battalion. HQMC LRA is at the Pentagon.                                                                                                 |
| 67 | Who trains the registration authority?                                                   | DISA.                                                                                                                                                                                           |
| 68 | does PKI do the audits?                                                                  | JFHQ-DoDIN conducts tri-annual audits on RA Operations -- required by the CPS and RPS. Marine Corps PKI performs bi-annual audits on Marine Corps LRAs, again a requirement of the CPS and RPS. |
| 69 | Can you answer historically how many people have supported this requirement in the past? | Historically, it has been 25-26 contractors.                                                                                                                                                    |
| 70 | Is the Government physically shipping tokens under this requirement?                     | Yes.                                                                                                                                                                                            |
| 71 | Why is the CSFC PKI on this solicitation and not the CSFC contract?                      | Directed by HQMC DC-I. USMC PKI is the only authorized CA operator in the Marine Corps.                                                                                                         |

|    |                                                                                                                       |                                                                                                                                                   |
|----|-----------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| 72 | Will you establish a reading room that will provide references, SOP's and order of business?                          | No.                                                                                                                                               |
| 73 | Will Travel and ODC be a plug number?                                                                                 | Yes.                                                                                                                                              |
| 74 | How many training classes in 1 year?                                                                                  | 15 classes/year.                                                                                                                                  |
| 75 | In the event of an OCI, will you accept an OCI mitigation plan?                                                       | The solicitation will likely address this.                                                                                                        |
| 76 | Will a transition-in phase be required?                                                                               | There will not be a transition-in period. the contractor shall be fullt staffed and be fully mission capable on day one of period of performance. |
| 77 | How will knowledge be transferred?                                                                                    | Current SOPs and documentation.                                                                                                                   |
| 78 | Have you made a determination on small business set aside and/or subK requirements?                                   | Currently, the intent is to solicit with a small business set aside, no sub-contractor plan required.                                             |
| 79 | Has the Government considered SeaPort NxG SBSA or the GSA Oasis+ WOSB intelligence services?                          | Yes. The Government considered all GWACS available, however posting the solicitation on SAM.GOV ensured maximum competition.                      |
| 80 | Are 1:1 vendor sessions available?                                                                                    | None are anticipated.                                                                                                                             |
| 81 | Will the number of key personnel be reduced to a more manageable number?                                              | Recent PWS revisions address key personnel.                                                                                                       |
| 82 | Can the cyber-bites conference center be used by the Government for the training/conference piece of the requirement? | Yes.                                                                                                                                              |
| 83 | Have you considered any expansions into digital forensics and incident response in cyber services?                    | No -- this function is provided by another entity within the Marine Corps. PKI provides support when required.                                    |
|    |                                                                                                                       |                                                                                                                                                   |
|    |                                                                                                                       |                                                                                                                                                   |
|    |                                                                                                                       |                                                                                                                                                   |
