

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? ☐ Yes ☒ No

Contracting Activity: PZ (Arnold) OL Holloman

Project/Program Name: EDM Extended Warranty 2025

Purchase Request / Local ID Number: TBD

Estimated Contract Cost (including Options): [REDACTED]

Section B: Description of the Supplies/Services Required

The 846th Test Squadron's (TS) primary test capability is the Holloman High Speed Test Track (HHSTT) where they utilize rocket powered sled trains to simulate flight like environments and scenarios with the control and recovery of a ground-based system.

The 846 TS utilizes a Mitsubishi Wire Electronic Discharge Machine (EDM), model number MV4800, to machine complex rocket sleds, test track hardware and test articles. This machine is vital to manufacture hypersonic sled parts for missions. In March 2025, the machines purchased extended warranty plan expired, leaving the machine without a repair plan. A single repair would exceed the cost of a extended warranty plan. The 846 TS requires the purchase of a new extended warranty to support current and future test missions for a period of performance of one (1) year from date of award and three (3) option years.

This is expected to be a firm fixed price contract.

Section C: Justification for Soliciting from a Single Source or Brand Name

This is a Sole Source requirement. Only one business can provide the required service and equipment. Sole source letter is attached to this package.

The 846 TS uses a Mitsubishi Wire Electronic Discharge Machine (EDM), model number MV4800, to machine complex rocket sleds, test track hardware and test articles. In March 2025, the machines purchased warranty plan expired, leaving the machine without a repair plan. Previous sole source contract: FA9101-22-C-B003. This machine is mission critical for the 846 TS mission support. Any break downs lasting more than two weeks will negatively impact the mission schedule of the 846TS. As a point of historical record, equipment breaks downs, and the contracting efforts of repairs take on average four months. An extended warranty would allow repairs to take place quickly and without gaps in operations. Unavailability of this vital asset due to unscheduled breakdown will negatively impact mission schedules for several National Defense weapon development programs.

[REDACTED]

As stated in the Sole Source letter from the Original Equipment Manufacturer (OEM), Mitsubishi holds all proprietary rights to the technical/design data and software source code for equipment and has delegated MC Machinery as the only authorized reseller/service provider.

Section D: Efforts to Obtain Competition

The Government is continually reviewing trade journals, attending trade shows, and surveying the market if future requirements may be satisfied in a competitive environment.

The Government reached out to ensure MC Machinery Systems, Inc. is the only company able to meet requirements. Mitsubishi Corp of Tokyo identified MC Machinery as the OEM rep within the United States.

Single Source Justification (Simplified Acquisition)

The need to utilize OEM parts and technicians and the time sensitive nature of this requirement has led us to limit competition. MC Machinery Systems, Inc. is the U.S. OEM representation for the Mitsubishi Wire EDM tool brand.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

Market research has included Internet searches, looking at acquisition history (which was a sole source), discussions with other possible sources and finally the OEM vendor. The discussion with Mitsubishi Corporation revealed that they have only one authorized vendor for this contract, MC Machinery Systems. Efforts will be made to continue to monitor and conduct market research for additional resources for the purchase of an OEM approved repair and preventative maintenance contract.

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
