

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)?☐ Yes☒ No

Contracting Activity: 355 Contracting Squadron

Project/Program Name: 48 RQS Automatic Cargo Parachute Releases

Purchase Request / Local ID Number: [REDACTED]

Estimated Contract Cost (including [REDACTED] \$ [REDACTED])

Section B: Description of the Supplies/Services Required

The 2.5K Automatic Cargo Parachute Release is a fully automatic precision device designed to disconnect the recovery parachute from a UAV after ground impact in winds up to 25 knots. The 5K Automatic Cargo Parachute Release is a fully automatic precision device designed specifically to disconnect the parachute from the load after ground impact. These items are required to successfully disconnect parachutes from the loads and effectively drop a payload safely.

Section C: Justification for Soliciting from a Single Source or Brand Name

IAW, 6.302-1 – 10 USC 2304(c)(1), Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements: Under the Technical Order No. 13C7-1-5 published by the Department of the Air Force states that there are only two acceptable cargo releases used for the Automatic Cargo Parachute Release. The requiring cargo release needed by the 48 RQS are NSN: 1670-01-310-2875 and NSN: 1670-01-337-4366, which are two of the approved automatic cargo release under Technical Order No. 13C7-1-5. It is mandatory that this specific cargo release is to be procured due to Technical Order No. 13C7-1-5 published by the Department of the Air Force.

Section D: Efforts to Obtain Competition

Although a specific Cargo Release under Technical Order No. 13C7-1-5 is required, at this time only one company has been found that can provide this cargo release. Currently, market research has shown that only one company can provide this cargo release and other companies that can provide this cargo release is only purchasing the one source with a markup to sell to the government. This method of other businesses purchasing from the one and only source and to sell the cargo release to the government at a higher price is just an unnecessary bypass as stated in the FAR.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

Until the Technical Order No. 13C7-1-5 doesn't require a specific Cargo Release, only one company can provide this as stated by the publication. Additionally, if another company can provide capabilities to provide this item without going through an unnecessary bypass, competition can be promoted for this requirement.

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
