FROM: Kristina Sullivan, Chief
Procurement Operations Branch

SUBJECT: Justification for Other than Full and Open
Competition

The purpose of this memorandum is to request your approval of the attached Justification for Other than Full and Open Competition for the procurement of Comprehensive Medical Services for the Federal Correctional Center Lompoc located in Lompoc, California for the period of April 1st, 2025, through September 30th, 2025. The overall estimated value for this service is not expected to exceed \$4,248,044.80.

Note from CMCS Section Chief: The Field Acquisition Office is currently evaluating technical proposals in preparation of awarding a Comprehensive Medical Services contract.

If you have any questions, please let me know.

Attachment

Justification for Other than Full and Open Competition (JOFOC)
FCC Lompoc

Pursuant to the Federal Acquisition Regulations (FAR) Subpart 6.302-1(a)(2), the Federal Bureau of Prisons (BOP) has determined the procurement of comprehensive medical services (CMS) for the Federal Correctional Complex (FCC), hereinafter referred to as "institution", located in Lompoc, California, meets the criteria established for other than full and open competition. It is further determined that only one responsible source is capable of providing services to the institution, and that such an award would prevent serious injury, financial, or other liabilities to the Government. This limitation on competition is justified as supported by the following information:

1. Identification of the agency and the contracting activity, and specific identification of the document as a "Justification for other than full and open competition."

Department of Justice
Federal Bureau of Prisons
FCC Lompoc
3901 Klein Blvd.
Lompoc, California 93436

2. Nature and/or description of the action being approved.

This action to be approved is for the acquisition and continuation of community and institution based comprehensive medical services with "Lompoc Valley Community Healthcare Organization." (LVCHO). LVCHO is the incumbent and has agreed to newly negotiated rates for CMS via monthly Firm Fixed Unit Pricing purchase orders until a new CMS contract can be awarded. This interim action will provide the institution the required and necessary acquisition of medical services for the inmate population. The proposed period of performance will be from April 1, 2025, through September 30, 2025.

The pending award of the new contract will be an indefinite delivery/requirements type contract with Firm Fixed Unit Pricing. The requirement will be publicized through the Governmentwide point of entry.

3. A description of the supplies or services required to meet the agency's needs.

As part of the mission of the institution, comprehensive medical services are provided to the inmate population. In meeting the healthcare needs of the inmate population, the BOP provides essential medical, dental, and mental health services to Federal inmates. When a medical need arises that cannot be provided by the institution medical staff, referrals are made to community-based medical providers. These services include Inpatient/Outpatient Facility and Physician services, as well as Outpatient Institution Services of Audiologist, CT Services, MRI Services, Optometrist, and Ultrasound.

The services will be procured by purchase orders. The proposed performance period will be from April 1, 2025, through September 30, 2025, with an estimated total cost of \$4,248,044.80

4. An identification of the statutory authority permitting other than full and open competition.

The statutory authority permitting other than full and open competition is 41 U.S.C. 3304(a)(1) as implemented by FAR 6.302-1, Only One Responsible Source. Specifically, FAR 6.302-1(a)(2) provides for the applicability of this authority in situations "when the supplies or services required by the agency are available from only one responsible source."

5. A demonstration that the proposed contractor's unique qualifications or the nature of the acquisition requires use of the authority cited.

A Request for Contract Action packet for CMS at the institution has been provided to the Field Acquisition Office (FAO). FAO is currently working towards award of a competitive acquisition. In the interim, the institution must continue to offer medical services to the inmate population. LVCHO has been the incumbent contractor for over five years and continues to provide the necessary medical services through their established network of local medical facilities and physicians. Additionally, LVCHO also continues to provide various onsite outpatient institution services to meet the Government's needs. All provider credentialing and background clearances have been completed.

The immediate availability of community-based health care services is critical to avoid any disruption in obtaining the necessary medical services and to ensure the orderly operation of the institution. In an effort to maintain continuity of care, the Government has determined that it is in the best interest to continue to utilize LVCHO, who can provide the required medical services without delay. Their established medical network ensures the institution's medical needs are fulfilled.

Therefore, to maintain continuity of medical care for the diverse inmate population, continuing services with LVCHO and their network of medical service providers alleviates delay and disruption of the overall mission of basic and emergent medical care. Any delay would lead to serious injury to the Government, as it would greatly impact our medical mission, patient care and would cause operational disruptions to the inmates.

6. A description of efforts made to ensure that offers are solicited from as many potential sources as practicable, including whether a notice was or will be publicized as required by subpart 5.2 and if not, which exception under 5.202 applies.

The requirement will be publicized through the Governmentwide point of entry.

7. **A determination by the Contracting Officer that the anticipated cost to the Government will be fair and reasonable.**

LVCHO has agreed to continue providing services via purchase orders, at a newly negotiated rate. These rates were determined to be fair and reasonable in accordance with FAR 15.404-1(b)(2)(i). The Contracting Officer (CO) has analyzed the current market trend by comparing the negotiated rates with LVCHO against the rates of recently awarded contracts for similar services. Both the negotiated rates and the rates of the recently awarded contracts have been determined to be fair and reasonable. It is in the best interest of the Government to continue services with LVCHO during this interim period until a new competitive contract can be awarded.

8. **A description of the market research conducted and the results or a statement of the reason market research was not conducted.**

This CO has conducted market research appropriate to the circumstances and legitimate needs have been identified. Information specific to the services being acquired has been thoroughly documented above. I have determined services of a type customarily available in the commercial marketplace are obtainable. The services under this contract are vital to the Government and must be continued without interruption. A review of the results of recent market research undertaken to meet similar requirements has identified multiple vendors which are capable of meeting the needs of the Government. However, it has been determined only one source is currently available to provide immediate services to maintain continuity of care while a competitive acquisition is being processed. LVCHO, as the incumbent provider, is able and willing to continue services with no lapse in coverage until a new contract is awarded.

9. **Any other facts supporting the use of other than full and open competition.**

There are no other supporting facts identified.

10. **A listing of the sources, if any, that expressed, in writing, an interest in the acquisition.**

There are no other sources available that would be able to provide the services in the immediate timeframe required by the Government.

11. **A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required.**

The acquisition of these services is necessary pending the award of a CMS contract. The requirement is being competed by the FAO. As supported in this document, our experience indicates that a single source provider for CMS is beneficial to the agency and the inmate population we service. Once the new contract is competitively awarded, further justification for other than full and open competition will not be necessary.

12. Contracting officer certification that the justification is accurate and complete to the best of the contracting officer's knowledge and belief.

In accordance with FAR 6.303-2(b)(12), I hereby certify that this justification is accurate and complete to the best of my knowledge and belief. I further certify to the best of my knowledge and belief that this request is not the result of a lack of acquisition planning, or a desire to expend funds while those funds are still available.
