DESCRIPTION

Notice of Intent to Sole Source
Materialise Software Contact
VA-25-00060402

The Department of Veterans Affairs, Technology Acquisition Center (TAC), intends to award a sole source contract under the authority of 41 U.S.C 253(c) (1) - FAR 6.302-1 Only one responsible source and no other supplies or services will satisfy agency requirements, to MATERIALISE USA LLC. to provide software license renewal for Materialise Magics version 28.01 and Mimics version 26, upgrades, and technical support for prepping parts and builds to send to various printer, and to segment medical imaging to create medical models for patients.

The Mimics software shall include the base, analysis, and design modules. The base module allows the user to segment the desired anatomy of a patient Computed Tomography (CT) or Magnetic Resonance Imaging (MRI) scan. The analysis module allows the user to compare the segmented parts to the original imaging to ensure the models are as accurate as possible to the patient's anatomy. The design module allows the user to cut and add pieces to the anatomical model to make a stand for the model, cut the model into parts to allow the end user to see all the anatomy they need, and any other additional parts that need to be added to the original model.

The Magics software shall include the following modules: Build Processor EOS Plastics, SG+, Build Processor Trumpf, MAGICS RP, Build Processor HP, Import Module, Nester Module, Structures Module. These modules allow the Magics software to import all the parts that need to be printed; allows for final processing and changes to be made to the parts as needed; and creates the build file with the print instructions for the 3D printers.
