

DEPARTMENT OF VETERANS AFFAIRS

JUSTIFICATION FOR SINGLE SOURCE AWARDS IAW [FAR 13.106-1](#)

FOR

UNDER SAT

Funding ID: F364518-25-2000057

1. **Contracting Activity:** Department of Veterans Affairs, National Cemetery Administration, on behalf of Danville National Cemetery, 721 Lee St, Danville, VA 24541.
2. **Brief Description of Supplies/ Services required and the intended use/Estimated Amount:**
Danville National Cemetery requires a total of 21,344 pounds of lime to be applied to their soil for the purpose of augmenting the Ph Levels. The Contractor will be required to supply the lime and apply it to the grounds in small applications over a period of 6 months.
Period of Performance: 6 months from date of award
Estimated Value: \$3,800
3. **Unique characteristics that limit availability to only one source, with the reason no other supplies or services can be used:** Tri Services is the current Contractor for the grounds' maintenance contract (36C78625D50078), and they performed a soil test as a part of that contract. The current requirement for the lime application was not included in the grounds' maintenance contract because it was unknown that it would be required. There was a variety of potential treatments, if any, that may have been required depending on the results of the test; therefore, it was not included in the contract. Additionally, the specific quantities required would have not been known ahead of time either because that is also dependent on the results of the soil test.
It is not in the Government's best interest to have two different Contractors performing overlapping grounds' maintenance services. The result of one's efforts could impact the others work. If the Contractor that applies the lime, does so incorrectly, and problems arise as a result, it would impact the work of the current grounds maintenance contractor and possibly create additional costs or efforts that were not accounted for under the current contract. If the current grounds maintenance Contractor is the only one responsible for grounds maintenance services, including the lime applications, it eliminates the potential risk of conflicts between two parties that are both responsible for the cemetery grounds.
In addition to the authority at FAR 13.106-1, VAAR 819.7008 authorizes sole source awards to SDVOSBs. Tri Services is a VetCert certified SDVOSB.
4. **Description of market research conducted and results or statement why it was not conducted:**
Market Research was not conducted because it is in the government's best interest to use the current grounds' maintenance Contractor. Using the current Contractor eliminates potential conflicts that could arise from two different Contractor's being responsible for overlapping aspects of grounds maintenance for the cemetery.
5. **Determination by the CO that the Anticipated Cost to the Government will be Fair and Reasonable:**
The Contracting Officer anticipates that the cost to the Government will be fair and reasonable.
