

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)?☐ Yes☒ No

Contracting Activity: 5 CONS/PKB

Project/Program Name: 5 MXG MTF VR Computers

Purchase Request / Local ID Number: F3C2MG5105AW01

Estimated Contract Cost (including Options): \$ [REDACTED]

Section B: Description of the Supplies/Services Required

5 MXG Maintenance Training requires three specialized desktop computers to run AETC directed Virtual Reality (VR) training software.

Section C: Justification for Soliciting from a Single Source or Brand Name

5 MXG Maintenance Training uses AETC provided VR software for B-52 specific maintenance training tasks. This software is tailored to specific aircraft types and is the only authorized software for B-52 VR training. To obtain the software, 5 MXG/CC was required to submit a request to AETC for approval. The request template included specific system requirements that have to be met to use the software. The system requirements are specific to RAVE Computer model MVI25-T-5080-1. The approval was received and a single computer was purchased in FY24 to evaluate the training procedures. MXG now requires an additional three computers to allow mass B-52 maintenance training in a VR environment. Having four identical computer systems ensures there are no variations in the VR training environment. This is essential to meeting the training requirements set forth by AETC.

Section D: Efforts to Obtain Competition

AETC directed system requirements include RAVE Computer specific components. RAVE confirmed they are the sole provider and distributor of their computers and software. This precludes other computer vendors from meeting the requirements.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

Future purchases of VR computer systems will begin by obtaining updated system requirements from AETC. Every effort will be made to source systems from multiple vendors provided the AETC requirements can be achieved.

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
