

Sources Sought Notification

Title: Loudermilk Phase II AML Reclamation

Announcement Number: DOISFBO250001

Bureau: Office of Surface Mining Reclamation and Enforcement (OSMRE)

Response Date: 05/08/2025

I. DISCLAIMER

a. This is a **Sources Sought Notification (SSN)** notice issued in accordance with FAR 10 & FAR 36 to conduct market research. This SSN is issued solely for information and planning purposes – it does not constitute a Request for Bid (RFB) or Request for Proposal (RFP) or a promise to issue an RFB/RFP in the future.

b. The Government will not pay any costs incurred in the preparation of information for responding to this market survey or the Government's use of the information. Any information submitted by respondents to this SSN is strictly voluntary. All submissions become Government property and will not be returned. This request for information does not commit the Government to contract for any supply or service whatsoever.

c. The Office of Surface Mining Reclamation and Enforcement (OSMRE) is not, at the time, seeking proposals or quotes and will not accept unsolicited proposals or quotes. Not responding to this SSN does not preclude participation in any future procurements.

II. PURPOSE

The OSMRE is seeking a construction vendor to complete the Loudermilk Phase II AML Reclamation. The purpose of this SSN is to identify potential vendors capable of providing AML Reclamation construction services that can accomplish the full reclamation of an emergency AML site in Pittsburg County. This action is critical for the protection of public health, safety, and property from extreme danger of adverse effects of coal mining practices, including when an emergency exists constituting a danger to the public health, safety, or general welfare. If not awarded, the residents of Oklahoma are at risk of imminent harm. Pursuant to the Supreme Court decision in *McGirt v. Oklahoma*, OSMRE is charged with enforcing SMCRA on Tribal lands within Oklahoma.

In support of this effort, the OSMRE is conducting market research to further refine requirements and establish the best acquisition approach. Please note that requirements defined to date may change before issuance of a final RFB/RFP.

III. REQUIREMENTS

The site consists of a surface coal mine that was abandoned by 1958. The Priority 2 Abandoned Mine Land (AML) hazards located at this site are dangerous highwalls (DH), hazardous water bodies (HWB) and spoil areas (SA) listed in the Office of Surface Mining Reclamation and Enforcement's AML Inventory

System database. We propose to utilize approximately 65 acres of spoils on site to grade and shape the site to conform to the adjacent topography maintaining the current overall flow of stormwater, eliminating the DH and HWB hazards.

Please submit the following in addition to the requested submittal found below:

1. Please provide your capability statements.

Also provide the following information:

1. Interested party's size determination.
2. UEI number.
3. GSA contract number (if applicable)
4. Any other information the OSMRE needs...

IV. RESPONSES

Responses are requested by 05/08/2025 Any response received after these dates will also be considered but may not be included in initial reporting or assessments.

All responses should be submitted electronically in PDF format and emailed to the points of contact: Cathy Boulware at cboulware@osmre.gov. The subject line of the email should read as follows "SSN: DOISFBO250001, Loudermilk Phase II AML Reclamation."

Respondents must submit capability statements and information describing the general approach/solution to addressing the listed requirements. General marketing information or reference to vendor web sites will not be considered responsive to this notice. No telephone, mail, or fax responses will be accepted.
