

Single Source Justification (Simplified Acquisition)**Section A: General Contract Information**Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)?☐ Yes☒ No

Contracting Activity: ALMCMC/PZIOB

Project/Program Name: Purchase of Agilent 5800 ICP-OES Service Plan

Purchase Request / Local ID Number:

Estimated Contract Cost (including Options):

Section B: Description of the Supplies/Services Required

AFPET/PTPLE has a requirement for a Service/Preventative Maintenance Contract of an Agilent 5800 ICP-OES system, which consists of a 5800 VDV ICP-OES Spectrometer (S/N: DE2333CQ61), a Recirculating Chiller (S/N: 2303-01234), and a SPS 4 Autosampler (S/N: AU233416733). The Contract will cover a base period of 13 June 2025 to 12 June 2026, plus 4 option years covering the same 12-month period. This service contract will include 1 preventative maintenance visit per year and service/repair visits as required.

Section C: Justification for Soliciting from a Single Source or Brand Name

The ICP-OES and accessory equipment used at the Aerospace Fuels Laboratory is a highly specialized analytical instrument manufactured by Agilent Technologies, Inc. The software that is used was developed by Agilent and requires factory trained and certified experts to adjust. Agilent is the only known source of component parts that will work on the ICP-OES and the only source that will certify all components after installation. Moreover, According to a letter received from Agilent Technologies, it was found that Agilent Technologies is the only ISO-9001 certified source for factory-authorized service of Agilent hardware and software.

Section D: Efforts to Obtain Competition

Market research was conducted via vendor outreach and SMEs. However, according to a letter received from Agilent Technologies, it was found that Agilent Technologies is the only ISO-9001 certified source of this requirement.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

Until there is another ISO-9001 certified source for these services, and as long as the equipment is utilized by AFPET, there will be no competition for maintenance services. However, the subject lab equipment was procured competitively.

The Government will continue to monitor the state-of-the-art systems being developed through website searches, reading published articles, and attendance at conferences and trade shows.

Single Source Justification (Simplified Acquisition)

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
