

Department of Defense Mentor-Protégé Program

Protégé Pilot Initiative Application Template

Program Purpose. *This pilot program provides Protégés performing in DoD reimbursable agreements as of July 1, 2023, an opportunity to request funds for projects supporting advancement of engineering, software development, or manufacturing customization in support of the War Fighter. Request are limited to a maximum of up to 25% of the annual budget of the respective reimbursable agreement. Successful applications will result in a Not To Exceed, Zero Fee line item added to the Mentor's Agreement. The proposed amount will be used exclusively by the Protege for the project. Mentors may propose not more than an additional 3% of the 25% pilot costs for the administration of the Protégé's project.*

Refer to Attachment 10 for full program guidance.

Essential Details:

1. The mentor assumes **no** liability regarding how the protégé uses the funding. However, the mentor is expected to review the protégé submission for accuracy, relevancy and reasonableness. The mentor will be required to sign the application along with the protégé firm affirming their endorsement of the submission.
2. If the protégé fails to meet milestones after receiving funding, the mentor assumes **no** responsibility. The protégé **will not** receive any additional funds until the milestones have been met.
3. DCMA will evaluate the protégé firm's performance in accordance with what the protégé firm has outlined in their application submission.
4. The protégé's use of funding must correlate directly to the milestones in the protégé pilot initiative submission and has no overall bearing/impact to the mentor-protégé agreement's risk rating that is given by DCMA.

5. DCMA will review the progress and performance of the protégé's activities related to funding received under this pilot. The protégé will be subjected to reporting and is required to provide monthly status reports on expenditures, milestones, and any additional information (i.e., comments, issues, concerns, successes). This information shall be provided to the mentor.
6. The funding received by the protégé under this pilot has no impact on the data rights of the protégé regarding the technology they are developing.
7. In accordance with the NDAA 2023, this pilot was established to incentivize participation of protégé firms in the DoD Mentor-Protégé Program. Further to encourage mentor-protégé agreements focused on technology in the areas of engineering, manufacturing and software customization is prepared for integration with a DoD program or system. There is no requirement that such technology is provided to the US Government by the end of the mentor protégé agreement.

Section 12. Protégé Cost Share. *As applicable, add the estimated value of any expenses that will be self funded that directly relate to your proposal and indicate the % of the overall project funded by this proposal and % share of the overall project funded by the Protégé. Note that Protégé share is not required. The % share will be used to assure that all aspects required for successful completion of the Research/Development project are accounted for.*

Section 13. Return on Investment (ROI). *Provide both a qualitative and quantitative description of the potential ROI for this project. Qualitative to include impacts to the Protégé, the Industrial Base and the War Fighter. Quantitative to include projected benefits gained (i.e.% increase in capacity, schedule improvement, efficiency gained, quality improvement, system effectivity improvements, and any projected quantifiable War Fighter benefits).*
