

**PHOENIX AREA IHS
SINGLE SOURCE DETERMINATION
SIMPLIFIED ACQUISITION PROCEDURES (SAP)
AUTHORITY: FAR 13.501(a)**

1. Location: CRSU

2. Description of Supplies or Services: The IHS Parker Indian Health Center has a need for Reference Laboratory Testing because it is not able to provide all emergent (STAT) laboratory testing that may be needed by the emergency and inpatient departments.

3. Requisition: IHS1508435

4. Estimated Value of Procurement: \$417,185.16

5. Reason for authority cited. The contracting officer has determined the circumstances of the contract deem only one source reasonably available.

(Identify and include only one of the following).

☒ Only one available source.

☐ Urgency – The nature of the requirement has been deemed urgent and following competitive procedures would result in unacceptable delays.

☐ Authorized Service Provider

☐ Exclusive Licensing Agreement

☐ Brand Name – The particular brand name is essential to the requirement and market research indicates similar products do not meet or cannot be modified to meet agency needs. If the justification is to cover only the portion of the buy which is brand name, then it should so state; the approval level requirements will then only apply to that portion.

☐ Industrial Mobilization

6. Rationale:

The requirement has crucial time specifications due to the nature of the lab tests and likely contributing to the limited sources. Emergent turn-around-time is within 1 hour of specimen collection, to meet standards of patient care. Blood products expire within 30 minutes of leaving the blood bank refrigeration, so blood and/or blood products must be acquired within a 15-20 minute radius of the IHS Parker Indian Health Center.

7. Impact:

The lack of STAT laboratory testing and availability of blood products would directly impact the ability of the Emergency Department and Inpatient to provide adequate patient care. Patients needing these service would have to be transported to another facility that can perform the testing or provide blood products and greatly increased costs and at a great inconvenience to the patient (poor quality of care provided) if testing reveals no other actions necessary.

8. Recommended Source(s):

La Paz Regional Hospital Laboratory – LGBCMGXW25Y7

Under the authority of **FAR 13.501(a)**, the undersigned hereby determines the circumstances of this contract action deem only one source is reasonably available as supported herein.
