CLEARANCE OF TECHNICAL INFORMATION FOR PUBLIC RELEASE

INSTRUCTIONS

IF AUTHOR/PRODUCER IS PICATINNY-BASED:

Picatinny-based authors/producers are responsible for initiating the clearance process and ensuring that their material is approved for public release. This is accomplished by attaching one copy of the material (manuscript, photos, videotapes and any other material that requires clearance) to this form and obtaining the necessary signatures. When clearance is granted, the Picatinny Public Affairs Office (the last office in the clearance process) will forward one copy of this form along with the attached material to the Picatinny Information Center for archival purposes and provide another copy of this form to the author/producer. It is the author/producer's responsibility to notify all interested parties of the release approval and to make subsequent distribution.

IF AUTHOR/PRODUCER IS A CONTRACTOR:

A contractor initiates the clearance process by forwarding the material to a Picatinny sponsor, who in turn begins the clearance process in the same manner as a Picatinny-based request. When clearance is granted, the Picatinny Public Affairs Office (the last office in the clearance process) will forward one copy of this form along with the attached material to the Picatinny Information Center for archival purposes, and provide another copy of this form to the Picatinny sponsor. It is the Picatinny sponsor's responsibility to notify the

contractor and any other interested parties of the release approval and to coordinate subsequent distribution with the contractor. Because contractor-submitted videotape material requires clearance at the Defense Department level, recommend that these submissions be made at least 90 days prior to the projected public release date. Only Picatinny-related portions of multi-topic videotapes will be reviewed here.

RECOMMENDED DISTRIBUTION:

Each signator in the *Required Approvals* section recommends distribution based on the categories listed at the bottom of the form. The approved distribution is circled at the bottom of the form and will equal the most stringent distribution category selected by the signators.

COMMENTS

(Use this space, and additional pages as necessary, to make additional remarks or written changes to the submitted material. If changes are made directly on the material, a note to that effect in the *Required Approvals* section under "Remarks" is all that's necessary.)

For more information on the clearance process or this form, please contact the Picatinny Arsenal Public Affairs Office; DSN 880-6365; (973) 724-6365.
