

ARMY CONTRACTING COMMAND - ABERDEEN PROVING GROUND (ACC-APG)

The Procurement Pulse

ACC-APG's Quarterly Industry Newsletter

October 2024 | 1st Edition

Welcome to the first edition of Army Contracting Command Aberdeen Proving Ground (ACC-APG)'s quarterly newsletter, "The Procurement Pulse" This newsletter is intended to serve as an additional resource to share information about our teams and integrated defense acquisition activities.

Feedback and/or suggestions on types of content for future issues is welcome. [Send us a note!](#)

ABOUT US

ACC-APG is one of the supporting contracting centers aligned under ACC headquarters, which is a major subordinate command of Army Materiel Command (AMC). ACC-APG provides comprehensive contracting, business advisory support and sustained expertise through eight major competency areas: research and development; command, control, communications, computers, cyber, intelligence, surveillance, and reconnaissance (C5ISR); test and evaluation; chemical, biological, radiological, and nuclear defense (CBRND), sustainment and Soldier protection; and digital capabilities.

Our executive director and staff components are located at APG, MD; and we have a contracting presence in Adelphi, MD; Ft. Belvoir, VA; Ft. Huachuca, AZ; Frederick, MD; Natick, MA; Research Triangle Park, NC; Tobyhanna Army Depot, PA; Austin, TX; Orlando, FL; and White Sands Missile Range, NM.

ACC-APG IN THE NEWS

GEN Randy George, US Army Chief of Staff, Ms. Danielle Moyer, Executive Director, U.S. Army Contracting Command - Aberdeen Proving Ground (ACC-APG); Ms. Tara Murphy Dougherty, CEO, Govini; Mr. Shyam Sankar, CTO, Palantir Technologies; and Mr. Christian Brose, Chief Strategy Officer, Anduril Industries discussed "accelerating the velocity of warfighter capability delivery."

Ms. Moyer spoke of the culture shift we're experiencing across Army contracting, emphasizing the importance of changing our mindset; being more agile and less prescriptive on requirements; and increasing collaboration and transparency with industry to make the best business decisions and award contracts faster. **Listen here:** [DVIDS - Video - AUSA 2024 - Increasing the Speed of Warfighter Innovation](#)

DIGITAL CAPABILITIES CONTRACTING COE UPDATE

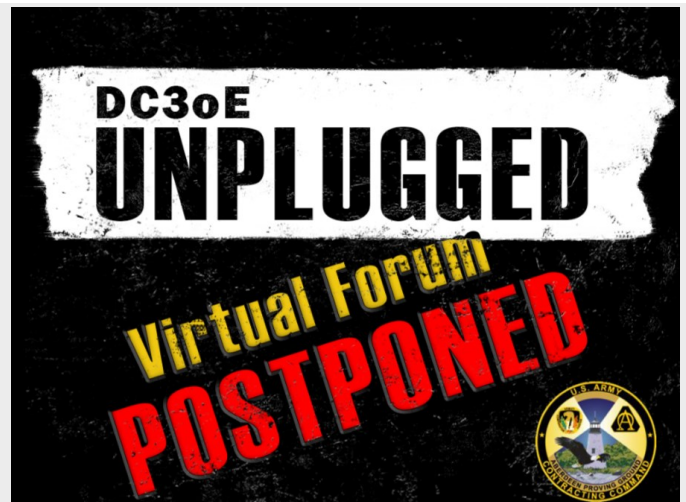

To maintain transparency and fluidity with industry, we wanted to share more on the progress made by the Digital Capabilities Contracting Center of Excellence (DC3oE) as we move towards attaining Full Operating Capability (FOC) this December.

In 4QFY24, the DC3oE hosted its first virtual APBI with Ms. Jennifer Swanson, Deputy Assistant Secretary of the Army (Data, Engineering and Software); Mr. Leo Garciga, U.S. Army Chief Information Officer; with participation from more than 500 government and industry partners. The team has also conducted 200 individual engagements with industry partners on many topics, including improving our software contracting practices.

As the DC3oE evolves, we will integrate industry contracting support. Therefore, collaboration with our partners becomes increasingly important. With that said, the "DC3oE Unplugged," which was originally scheduled for November 7, has been postponed. Please keep an eye out on SAM for updates. This event serves as another opportunity to participate in candid discussions, fostering mutual understanding and valuable feedback. We will discuss accomplishments to-date; changing perceptions on software procurement; and next steps; as well as Modern Software Development (MSD) RFP changes and an ordering procedures overview.

We are committed to remaining actively engaged with industry partners on how to build better partnerships while maintaining a competitive environment. We welcome any thoughts or suggestions you have to help strengthen these conversations as we work to align our efforts.

To read more on the DC3oE, [click here](#).

PRICING COST ACCOUNTING SYSTEM WORKSHOP

The contract pricing branch of our CONOPS Division will host a cost accounting system workshop on November 14 from 10:00-11:30 a.m. EST via MS Teams. Whether you are a current DoD contractor or a business seeking new opportunities with the government, we welcome you to discover the simple and straightforward path to getting an approved cost accounting system. Our team, including representatives from the Defense Contracting Audit Agency (DCAA) and the Defense Contracting Management Agency (DCMA), will be on hand to walk you through the “myths” surrounding cost accounting systems and the actual process you will follow, with the points of contact you should know. Our goal is to fully prepare you to compete, win, and perform on efforts in our critical mission portfolio here at ACC-APG and across the DoD. Registration is open until October 31. **For more details and to register, [click here](#).**
