

Notice of Intent to Sole Source
HT941025N0087

THIS IS A NOTICE OF INTENT TO AWARD A SOLE SOURCE NON-PERSONAL SERVICES CONTRACT AND IS NOT A REQUEST FOR COMPETITIVE QUOTES. The Defense Health Agency Contracting Activity (DHACA), Healthcare Contracting Division - West (HCD-W), San Diego, intends to negotiate and award a firm fixed price contract for Installation of A-DEC Dental Chairs 12 ea at NH Okinawa and 6ea at NH Yokosuka. This notice is an addendum to previous notice # HT941025N0078. These services are required for Government-owned A-DEC INC, Outside the Continental of the United States (OCONUS) in support of USNH Okinawa and U.S. Navy Medicine Readiness and Training Command (USNMRTC) Yokosuka, Japan in accordance with Federal Acquisition Regulation FAR 13.106-1(b)(1)(i), only one source being available to meet the Government's needs, to:

A-DEC INC
2601 E Crestview DR
Newberg, Oregon
97132-9528, United States

The North American Industry Classification System (NAICS) code for this requirement is 339114—Dental Equipment and Supplies Manufacturing and the business size standard is 750 - number of employees. The Product Service Code (PSC) is N065— installation of equipment- medical, dental, and veterinary equipment and supplies.

The objective of this sole source award is to procure the de-installation of existing dental chairs, installation of twelve (12) at NH Okinawa and six (6) at NH Yokosuka new A-Dec 511B Dental Chairs and 500B Periodontics Dental Equipment Packages, and blanket-wrapped service. These services are critical to maintaining operational readiness of the USNMRTC Yokosuka clinic and ensuring the delivery of safe and effective dental care to eligible beneficiaries. Proper installation and calibration of dental delivery units are paramount due to the irreversible nature of many dental procedures.

A-Dec Inc. is the Original Equipment Manufacturer (OEM) and the only responsible source capable of providing the required installation and de-installation services. Market research confirmed that in-house Biomedical (BIOMED) technicians lack the specialized A-Dec OEM certifications and training necessary for proper installation, de-installation, and calibration of this equipment. Furthermore, A-Dec Inc. is the only authorized provider with technicians capable of performing this work in Okinawa and Yokosuka, as they do not currently maintain a dealer network in Japan. Utilizing non-OEM personnel would violate NAVMED P-5132 Equipment Management Manual (Rev. 12-2015) section 10-4(7).

This notice of intent is not a request for competitive proposals, and no solicitation document exists for this requirement. Sources interested in responding to this notice are required to submit a capability statement that includes management and technical data and cost information, in sufficient detail and with convincing evidence that clearly demonstrates the capability to provide the required services for United States Naval Hospital Okinawa and U.S. Navy Medicine Readiness and Training Command (USNMRTC) Yokosuka. Capability statements shall not exceed six (8.5 x 11 inch) pages using a font size no smaller than 10-point. All capability statements received by the due date of this notice will be considered by the Government. A request for documentation or additional information or submissions that only ask questions will not be considered as an affirmative response. A determination by the Government not to compete based on responses to this notice is solely within the discretion of the Government. Information received will be considered solely for the purpose of determining whether to conduct a competitive procurement or to proceed with a sole source purchase order.

If a vendor challenges the basis of this requirement, please email capability statements as a Microsoft Word or Adobe PDF attachment to Ashley Hodge at ashley.n.hodge4.civ@health.mil. The closing date is no later than 8:00am Pacific Daylight Time, 15 May 2025.

NO TELEPHONE REQUESTS/OFFERS WILL BE HONORED.
