Section C: Justification for Soliciting from a Single Source or Brand Name

In accordance with AFI 10-3503, Personnel Parachute Operations, rescue operators are required to wear parachute risers, drogues and airbags as part of free-fall jumps, and per AFI 10-3503 Chapter 9, 9.1.1.3, USAF parachutists will only use the equipment for which they have received system-specific training. Additionally, the Air Force Personnel Parachute Program (PPP) Approved For Use List (AUL) specifically identifies the SPECIAL OPERATIONS VECTOR-3 TANDEM SIGMA as an authorized parachute system to be worn by rescue operators. This parachute system as well as the individual components (i.e., risers and drogues) are manufactured and sold by Complete Parachute Solutions (CPS). Finally, Air Combat Command Personnel Parachute Program (PPP) Category III AUL, identifies that the airbags authorized for use are manufactured by CPS. Failure to procure these items would jeopardize deployment readiness and training for rescue operators. Therefore, it has been determined that a Notice of Intent to Sole Source will be posted to the GPE (SAM.gov) and if there are no positive responses, the requirement will be direct awarded to COMPLETE PARACHUTE SOLUTIONS, INC.

Section D: Efforts to Obtain Competition

It is the goal of the 355th Contracting Squadron to utilize the most efficient and affordable services in an effort to meet the customer's needs in a timely manner. Mandatory sources did not have the required item, limiting our ability to utilize mandatory sources. The Parachute Risers, Drogues & Airbags are proprietary products of Complete Parachute Solutions (CPS) and are available through this vendor only.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

If/When future acquisition requirements arise, efforts will be made through market research to preclude use of a Sole Source contract execution.
