

The United States Army Medical Research Acquisition Activity (USAMRAA), Fort Detrick, Maryland intends to issue a sole source contract to Global Action Alliance Inc for a Marketing Tool Subscription in support of the U.S. Army Medical Research and Development Command (USAMRDC)/Defense Health Agency (DHA), Office of Research and Technology Applications (ORTA)/Medical Technology Transfer Office (MTT). The contractor will provide a subscription (10 seats) for a commercial Artificial Intelligence (AI) tool to assist licensing professionals with identifying potential biotechnology and pharmaceutical companies having the scientific expertise and research & development capabilities to license DHA intellectual property (inventions) to advance the inventions to commercial products for the Department of Defense (DoD). Furthermore, the tool will have the ability to provide a comprehensive summary of the commercial landscape related to the USAMRDC/DHA technology to include patents filed and their assignees, clinical trials conducted with results, and business information to include company size, location, products and points of contact to allow MTT to identify technology matches for commercialization based on a criterion, set of keywords, or generative prompts provided by end-users. In accordance with FAR 13.106-1(b)(1)(i), only one source is reasonably available. USAMRAA intends to award a sole source contract to Global Action Alliance Inc under NAICS code 518210 and PSC code 7A20. Through use of their WISE-R platform, Global Action Alliance Inc is the only vendor that can provide a product that meets all of the capabilities required by Office of Research and Technology Applications (ORTA)/Medical Technology Transfer Office (MTT). This notice of intent is for information purposes only. All sources eligible to provide this service must respond in writing. Responses must be supported with clear and convincing evidence that articulates the ability to provide services outlined above. A request for documentation will not be considered as an affirmative response. If no responses are received, by the closing date of this notice, sufficiently documenting that comparable services are available, a sole source award will be made. Responses to this notice shall be sent to Ms. Skylar A. Wells at skylar.a.wells2.civ@health.mil.
