

JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION

SIMPLIFIED ACQUISITION PROCEDURES (SAP) FAR 13.106-1(b)																										
SOLICITATIONS MAY BE LIMITED TO ONE SOURCE ONLY IF THE CONTRACTING OFFICER DETERMINES THAT ONLY ONE SOURCE IS REASONABLY AVAILABLE. THIS DETERMINATION MUST BE SUPPORTED WITH FULL JUSTIFICATION FOR SOLE SOURCE FROM THE CUSTOMER. WHEN THE CUSTOMER DESCRIBES AN ITEM WITH A PURCHASE DESCRIPTION WHICH LIMITS THE AVAILABILITY TO ONE SOURCE, THE JUSTIFICATION MUST EXPLAIN WHY THE ITEM IS THE ONLY ONE THAT WILL MEET THE GOVERNMENT'S REQUIREMENT. STATEMENTS SUCH AS "ONLY KNOWN SOURCE" OR "ONLY SOURCE WHICH CAN MEET THE REQUIRED DELIVERY DATE" ARE INADEQUATE TO SUPPORT A SOLE SOURCE PURCHASE. Do not use marketing language in this document. Language such as "This company has made its mark," "This company is recognized as industry's best," and "This company is the leader in..." is unacceptable.																										
PURCHASE REQUEST OR REQUISITION NUMBER 52000PR250012647	PROJECT/TASK NUMBER	ESTIMATED AMOUNT (Over Micro-Purchase Threshold, but up to the SAT)

☐	10 U.S.C. § 3204(a)(7)	PUBLIC INTEREST [SECRETARY OF HOMELAND SECURITY NEEDS TO APPROVE THIS DOC]																								
BRIEF DESCRIPTION OF SUPPLIES OR SERVICES REQUIRED, AND THE INTENDED USE. The SBPL has a requirement for the repair of the Port engine off 45633 at Station Panama City. The engine may need multiple parts replacements which will require a certified MTU/Detroit technician with special tooling and troubleshooting experience. Due to low inventory levels at SFLC for overhauled condition A engines, it is in the USCG's best interest to have the engine repaired. NSN: 2895-01-590-7317																										
UNIQUE CHARACTERISTICS THAT LIMIT AVAILABILITY TO ONLY ONE SOURCE, WITH THE REASON NO OTHER SUPPLIES OR SERVICES CAN BE USED. The use of non MTU/Detroit Dealer technician for this service will have a negative impact on the Coast Guard due to the special tooling and technician certification required to perform this service. Due to the nature of the engine damage to the engine the DDEC control systems could be adversely affected and only an MTU distributor can provide the electronic diagnosis and through a MTU diagnostic software to ensure the engine is functioning properly and accurately to new factory specifications. Using only a certified MTU/Detroit Dealer technician ensures and validates the engine will be functional and reliable when installed in the CG 45' RB-M vessel.																										
A DESCRIPTION OF EFFORTS MADE TO ENSURE THAT QUOTATIONS OR OFFERS ARE SOLICITED FROM AS MANY POTENTIAL SOURCES AS PRACTICABLE (INCLUDE YOUR MARKET RESEARCH EFFORTS HERE). Research indicates that the needed special tooling to perform this repair is essential to ensuring the engines will be repaired specifically to the S60 MTU/Detroit specifications. Circumventing the required repair specifications for the S60 MTU/Detroit marine engine could cause a catastrophic failure to the engines while the vessel is under way. The COR continues to research the available market for qualified MTU/Detroit technicians that work for a distributorship that provides in house dyno testing that is vital to the acceptance of the completed repair work.																										
REASON THAT SUGGESTED SOURCE IS THE ONLY SOURCE WHICH CAN PROVIDE THE SUPPLIES OR SERVICES. The Coast Guard takes a huge risk by having a non MTU/Detroit Diesel inexperienced technician to perform work on these engines. Without having the correct performance criteria program from MTU or the required special tools, the engine could experience a catastrophic failure. If these engines are repaired by an unqualified MTU technician, they will be disqualified from receiving a manufacturer's warranty of 1 year or 1,000 hrs in service or 2 years storage as opposed to other than manufacturer's warranties which are typically 60-90 days.																										

EXPLAIN WHY AN ADEQUATE PURCHASE DESCRIPTION OR OTHER INFORMATION SUITABLE TO SOLICIT BY FULL AND OPEN COMPETITION HAS NOT BEEN DEVELOPED OR ARE NOT AVAILABLE.

The Coast Guard does not have the proprietary data or drawings or special tools to repair the S60 MTU/Detroit engines at this level. It is impossible to acquire this information, as it is patented by the manufacturer and not sold or available to the public.

PROVIDE A STATEMENT OF ACTIONS, IF ANY, THE GOVERNMENT MAY TAKE TO REMOVE OR OVERCOME ANY BARRIERS TO COMPETITION BEFORE FUTURE ACQUISITIONS ARE REQUIRED.

In this case, the Coast Guard support system for these assets does not accommodate the opportunity to reorganize its logistical support and asset standardization to utilize non-OEM testing or parts on these engines. For this type of required testing to be performed, no action can be taken within reason to remove foreseeable barriers for non-OEM competition for future acquisitions
