Acquire, for the first time, directly from the actual manufacturer.

A/RMSC D

The data needed to acquire/repair this part competitively is not physically available, it cannot be obtained economically, nor is it possible to draft adequate specifications or any other adequate, economical description of the material for a competitive solicitation. A/RMCS 3, 4, or 5 are valid.

The latest configuration has been checked and all records (ITIMP, JDRS/ASE, etc.) have been properly aligned, identified, and documented, these items have been deemed Non-Critical (NC). This acquisition will be solicited to Northrop Grumman (78022 ADMIN/76823 SITE) because they're the only source with the technical data required to manufacture, test and certify this item prior to unit delivery. In the absence of any technical data, it is imperative that the Government deal strictly with Northrop Grumman (78022 ADMIN/76823 SITE) for manufacturing these items. The Government does not physically have in its possession any engineering or technical data to manufacture with other than Northrop Grumman (78022 ADMIN/76823 SITE) currently.

and as a result

No other sources expressed an interest in this acquisition. In addition, this requirement was re-synopsisized for a period of 5 days starting on 13 MAR 2025 due to the age of the original synopsis. As a result, no additional sources expressed an interest.

Market research was conducted in accordance with far part 10. The results of the market research conducted (or the reason(s) market research was not conducted) are as follows

The latest configuration has been checked and all records (ITIMP, JDRS/ASE, etc.) have been properly aligned, identified, and documented. This item has been deemed Non-Critical (NC). However, the data necessary to solicit this item from sources other than Northrop Grumman (78022 ADMIN/76823 SITE) is not physically available and is uneconomical to obtain currently. The available technical data is insufficient for the development of new sources. Source Development Department files indicate no Source Approval Request (SAR) has been received from any party interested in becoming an approved source. Northrop Grumman (78022/76823) is the only approved source at this time.

7. Determination of Fair And Reasonable Cost

The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. Actions to Remove Barriers to Future Competition

For reasons set forth in Paragraph (5 & 6), NAVSUP WSS has no plans at this time to compete future contracts for the subject item covered by this document. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible. Also, future requirements will be advertised on the government-wide point of entry.
