

**DEFENSE LOGISTICS AGENCY
CONTRACTING SERVICES OFFICE
6090 STRATHMORE ROAD
RICHMOND, VIRGINIA 23237**

LSJ No. DCSO-R2-25-10

Limited Source Justification

(1) Identification of the agency and contracting activity:

Requiring Activity: DLA Logistics Operations (J3)

Contracting Activity: DLA Contracting Services Office – Richmond (DCSO-R2)

(2) Nature and/or description of the action being approved:

In accordance with Federal Acquisition Regulation (FAR) 8.405-6(a)(1)(i)(C) – In the interest of economy and efficiency, the new work is a logical follow-on to an original Federal Supply Schedule order provided that the original order was placed in accordance with the applicable Federal Supply Schedule ordering procedures. The original order was not previously issued under sole-source or limited-sources procedures.

Pursuant to FAR 8.405-6(c), this acquisition is conducted under the authority of the Multiple-Award Schedule Program (see FAR 8.401).

Approval to solicit on a limited source basis under the authority of the Multiple Award Schedule Program. It is the government's intent to award a sole source modification to add additional support to established Firm Fixed Price (FFP) task order SP4704-24-F-0098 that was issued competitively against established Defense Logistics Agency (DLA) Strategic Transformation and Enterprise Project Support (STEPS) blanket purchase agreements (BPAs) in accordance with Federal Acquisition Regulation (FAR) 8.405, which were awarded against BPA holders' General Services Administration (GSA) Schedule Contracts. In the interest of economy and efficiency, the vendor, Deloitte Consulting LLP, is the only source capable of providing the services required.

(3) Description of the supplies or services required to meet the agency's needs:

DLA has a requirement for contractor-provided services in support of an agency-wide Campaign of Learning (CoL). The vendor will develop and maintain a platform for resources and discussions; make recommendations for a curriculum that prioritizes content focused on relevant topics and issues; establish a monthly series of short papers and podcasts; maintain and update a professional reading list; establish a professional writing program for DLA employees; and establish a series of Warfighter Talks to share senior-leader perspectives with the DLA workforce. The vendor will also support the execution of a Secret-level wargame and scalable wargames at DLA location, coordinating with the National Defense University and evaluating the outcomes and effects on participants' perspectives. Prior to the CoL being

Controlled by: DLA Contracting Services Office CUI Category: General Procurement and Acquisition/Source Selection Information see FAR 2.101 and 3.104 Distribution/Dissemination Controls: FED ONLY POC: [REDACTED]
--

implemented, the vendor will create a communication plan and develop assessment metrics and measurements to continuously audit the effectiveness of the CoL.

The total awarded task order costs and total independent cost estimates for this effort are as follows:

Base Year:		(FY2024 Defense Working Capital Funding)
Option Year:		(To Be Determined)
Awarded Total:		
CoL Mod Base Year:		(FY2025 Defense Working Capital Funding)
CoL Mod Option Year:		(To Be Determined)
CoL Mod Total:		
Overall Total:		

(4) Authority and supporting rationale:

The acquisition is conducted on a limited source basis pursuant to FAR 8.405-6(a)(1)(i)(C) – *In the interest of economy and efficiency, this new work is a logical follow-on to an original Federal Supply Schedule (FSS) order that was placed in accordance with the applicable FSS ordering procedures. The original order and BPA were not issued under sole-source or limited-sources procedures.*

The original Agency Strategic Communications Plan (ASCP) task order included providing support for the CoL, which was previously titled “Campaign of Adaptive Sustainment (CAS),” and parts of the CoL initiatives including the professional writing program. However, the urgency placed on the ASCP led to the original task order being awarded before the CoL was fully developed. Consequently, the vendor awarded the ASCP task order is already working part of the originally titled CAS requirements that have since evolved and expanded into the CoL requirements. The CAS evolving into the CoL was not known at the time of solicitation and award and therefore could not have been reasonably anticipated.

The mature CoL is comprised of six lines of effort all meant to complement each other and feed back into the ASCP. The assessment phase of the ASCP included months of work by the current vendors to interview all DLA Senior Leaders at the Senior Executive Service and Flag Officer ranks as well GS-15 and O-6 leaders in key positions across the Agency. The assessment phase was crucial in informing the ASCP and CoL. Should this modification not be allowed and a separate vendor brought in to manage the CoL, the underlying data used to build the CoL would not be transferable to the new vendor. Consequently, the government would be forced to pay the new vendor for duplicative work to capture data needed for CoL already possessed by the current ASCP vendor and paid for by the government. Moreover, the cost in time and productivity to key Agency personnel and lost time in a critical Agency program cannot be underestimated.

The services are not separable and are intertwined and similar in nature with the CoL modification support not being materially different from the task order as awarded. Awarding the remaining aspects to a different vendor will create a high risk of contracting fratricide with separate vendors working overlapping aspects of the CoL and ASCP with no clear way to delineate lines of division. Separate task orders would ultimately slow down and degrade

the effectiveness of both the CoL and the ASCP. Therefore, logically separating the CoL support from the ASCP task order is not feasible nor is it in the government's best interests as it is more resource effective and efficient to maintain support through one vendor.

(5) **Determination by the ordering activity contracting officer that the order represents the best value consistent with FAR 8.404(d):**

The Contracting Officer determines the anticipated cost to the government will be fair and reasonable and the resulting order represents the best value to the government by comparing quoted prices to the government's estimate, prices obtained through market research for the same or similar items, historical prices paid for the same or similar services, and/or another methodology.

(6) **Description of the market research conducted:**

In November 2024, a program official looked at other contracting solutions, including DLA's Strategic Transformation and Enterprise Project Support (STEPS) services Blanket Purchase Agreements. Based on the review of the STEPS BPA holders' services and other contracting solutions, further discussions were held between the program officials regarding the potential for issues if a vendor other than Deloitte was used for this CoL effort, given the aforementioned level of work and deliverables Deloitte has already provided that are inextricably linked to the CoL, and the determination made that it was in the best interest of the government to add the CoL support to the ASCP task order through a modification.

(7) **Other facts supporting the use of other than full and open competition:**

None applicable.

(8) **Statement of the actions, if any, the agency may take to remove or overcome any barriers that led to the restricted consideration before any subsequent acquisition for the supplies or services is made:**

Market research will be conducted for any additional follow-on requirements, if required, to determine if other sources exist and requirements may be competed. If another potential source emerges, DLA will assess whether competition for future requirements is feasible.

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION

I certify that any supporting data that is the responsibility of technical or requirements personnel (e.g., verifying the Government's minimum needs or requirements or other rationale for limited sources) and which form a basis for the justification have been certified as complete and accurate.
