

Single Source Justification (Simplified Acquisition)**Section A: General Contract Information**Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)?☐ Yes☒ No

Contracting Activity:

Project/Program Name: NMC/KMF relocation and re-installation

Purchase Request / Local ID Number: [REDACTED]

Estimated Contract Cost (including Options): [REDACTED]

Section B: Description of the Supplies/Services Required

[REDACTED] located at Davis-Moahan AFB is requesting relocation and re-installation services for Key Management Facility (KMF) and Network Monitoring Management Server (NMS) racks and peripheral IT equipment.

Section C: Justification for Soliciting from a Single Source or Brand Name

The Enterprise Land Mobile Radio (ELMR) Life-cycle Management & Sustainment Services (LMSS) contract (FA805523D3001), awarded by the 771 Enterprise Sourcing Squadron (ESS) to Motorola Solutions Inc. (MSI) in partnership with AFIMSC LMR Product Management Office (PMO), provides for Dept of the Air Force focus on category management to drive consistency of service and equipment as well as cost savings and reliability across the enterprise by researching, planning and consolidating like needs. But, it has been identified by the AFIMSC LMR PMO that the ELMR LMSS contract does not support the customer's relocation and re-installation requirement. However, through direct contact with MSI and receipt of an approved AF1067 package from the Customer/AFIMSC LMR Product Management Office (PMO), it has been determined that if the work is not completed by MSI directly, the KMF/NMS equipment will not be covered within the scope of the ELMR LMSS contract when requiring sustainment, repair, and maintenance actions in the future. Therefore, based on the foregoing information this requirement will be executed utilizing a Sole Source J&A with contract award to MSI.

Section D: Efforts to Obtain Competition

Through market research actions as well as coordination with AFIMSC LMR PMO, 771 ESS, and MSI, 355 CONS has made efforts to obtain competition for relocation and re-installation of [REDACTED] KMF and NMS racks and peripheral IT equipment. Despite these efforts, it has been determined that only MSI can provide the required services without causing lasting negative impact to sustainment, repair, and maintenance actions of the equipment.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

The goal of the 355 CONS is to utilize the most efficient processes in order to develop competition to the maximum extent practicable. In this case, competition was restricted by scope limitations of the ELMR Sustainment Services contract (FA805523D3001) as they relate to future use of the vehicle for sustainment, repair, and maintenance actions supporting the 355 CS KMF and NMS racks and peripheral IT equipment identified in this requirement.

Single Source Justification (Simplified Acquisition)

Section F: Contracting Officer's Determination

I have determined, in accordance with FAR 13.106-1(b)(1), that the circumstances of this contract action deem only a single source is reasonably available.
