

Title: Sole Source to Biomeriux, Inc. for The BioFire SpotFire System and Panels.

The Oklahoma City Area Indian Health Center intends to award a non-competitive, sole source Blanket Purchase Agreement to proposed contractor Biomerieux, Inc. authority cited FAR Part 5.406(a) - Only one source is capable of providing the equipment at the level or quality required because the equipment is unique or highly specialized.

Biomerieux, Inc. is the manufacturer and only source licensed and authorized agency to provide the required equipment to ensure there is no interruption in services that will negatively affect direct patient care.

This notice of intent to award a sole source contract is not a request for competitive proposals. There will be no solicitation available for competitive quotes. Any response to this notice must show clear and convincing evidence, that competition would be advantageous to the Government. Respondents are advised that the Government is under no obligation to acknowledge receipt of the information received or provide feedback to respondents with respect to any information submitted. Provide response to: maryann.yocham@ihs.gov. Last day to provide affirmation written response is May 19, 2025 at 4:00pm CDT.

A determination by the Government not to compete the proposed procurement base upon responses to this notice is solely within the discretion of the Government. Information received will be considered solely for determining whether to conduct a competitive procurement in the future. Any solicitation resulting from the analysis of information obtained will be announced to the public in Federal Business Opportunities. However, responses to this notice will not be considered adequate responses to a solicitation. No proprietary, classified, confidential, or sensitive information should be included in your response. The Government reserves the right to use any non-proprietary technical information in any resultant solicitation (s).

JUSTIFICATION AND APPROVAL FOR OTHER THAN FULL AND OPEN COMPETITION

Completion Instructions: The Department of Health and Human Services (HHS) has established a standard template for the preparation of a J&A for Other Than Full and Open Competition. If this is an 8(a) set-aside, please note this form is not required unless the acquisition is valued (including all options) at greater than \$22 million. This template is NOT applicable for actions using simplified acquisition procedures ([FAR Part 13](#)), Federal Supply Schedule orders ([FAR 8.4](#)) or task or delivery orders subject to fair opportunity ([FAR 16.505](#)).

Tailor all aspects of this template to the individual acquisition. Consult [FAR Subpart 6.3](#) for guidance. An addendum may be added in case additional space is needed.

When this document is printed, the blue italic instructions are automatically deleted on the printed version.

Acquisition Title: BIOMÉRIEUX, INC. Spot Fire

Agency: AGENCY

Acquisition Year (FY): 2025

Author and Title: Benjamin Olson Laboratory Supervisor

2. Description of Action:

Nature:	☒ New Requirement	☐ Follow-on Requirement	
	☐ Modification to Existing Purchase Order/Contract Number:		
Pricing:	☒ Firm-Fixed Price	☐ Time & Materials	Cost
	☐ Other:		
Funds:	☐ OMA	☒ Other Funds:	

Name of Proposed Contractor(s): BIOMÉRIEUX, INC.

Street Address: 515 Colorow Dr

City, State, Zip: Salt Lake City, Utah 84108

3. Description of Services or Supplies:

Basis for Approval (FAR 6.303-1(d)):	☒ Individual Basis	☐ Class Basis
--	--	--------------------------------------

The total estimated value of the proposed action, including all options is \$ 845,500.00

As applicable, briefly describe the services or supplies required to meet the agency's needs, including make & model number where appropriate. Include quantities of supplies or period of performance for services. Provide information for any options included. If the action is a modification to an existing contract, distinguish clearly between the work covered by the original contract and the work to be obtained by the proposed modification.

Requesting state of the art, Biomerieux 4707797 (2) for respiratory testing. This is a "FDA approved CLIA Waived Polymerase Chain Reaction (PCR) system". Other systems available are currently under FDA Emergency Use Authorization only. The Biomerieux VC-SPOTFIRE can differentiate between COVID-19, Influenza A, Influenza B, Respiratory syncytial virus (RSV), and Rhinovirus in 16 minutes, with one sample collection. A 15 panel respiratory target test kit is also available if indicated, with the same 16 minute turn-around testing time, with no additional sample required. The correct management depends on the accurate diagnosis of each

4. Authority and Rationale: Identify the statutory authority, FAR title and FAR citation permitting other than full and open competition. It may be one of the following most commonly used citations by the operating divisions of the Department of Health and Human Services (HHS), but other exceptions may apply per [FAR Subpart 6.3](#).

Actions other than simplified acquisition procedures (select only one and provide an explanation):

☒ **FAR 6.302-1:** Only one responsible source and no other supplies or services will satisfy agency requirements, 41 U.S.C. 3304(a)(1)

Explain why the intended contractor is the only responsible source who can provide the required supplies or services. Discuss the unique capabilities, expertise, etc. that support the lack of competition/why no other type of supplies or services will satisfy agency requirements. Explain factors/unique qualifications such as proprietary data or exclusive licensing rights, if applicable. When competition is limited to items particular to one manufacturer, this justification must explain why the particular brand name, product, or feature is essential to the Government's requirements, and that market research indicates other companies' similar products, or products lacking the particular feature, do not meet, or cannot be modified to meet the agency's needs in accordance with [FAR 11.105](#). If in connection with a follow-on contract for continued development or production of highly specialized equipment, detail the substantial duplication of cost or unacceptable delays.

Biomerieux is the manufacturer of the V-Spotfire system and owns proprietary to this equipment. This system is only available through Biomerieux.

The Biomerieux VC-SPOTFIRE is the only FDA approved CLIA Waived supplier that can perform a combo test that will differentiate SARS-CoV-2, flu, RSV and rhinovirus using one sample collection. It is also the only supplier with a 15 respiratory target test kit that is

☐ **FAR 6.302-2:** Unusual and compelling urgency, 41 U.S.C. 3304(a)(2)

If unusual and compelling urgency is the basis for the justification, explain the chronological events leading up to the requirement and explain why time constraints cannot permit even a limited competition. Describe the detrimental effects/serious injury to the mission of the requiring activity or to the government, financial or otherwise, that will result if this justification is not approved. Describe impact of required delivery/performance date. Describe the detrimental effects/serious injury to the mission of the requiring activity or to the government, financial or otherwise, that will result if this justification is not approved and the product or service cannot be provided by the intended sole source contractor. Failure to plan for expiring funds is not a valid reason for citing this exception. May not exceed one year, including all options, unless the head of the agency determines that exceptional circumstances apply.

☐ **FAR 6.302-5:** Authorized or Required by Statute, 41 U.S.C. 3304(a)(5)

Provide a citation to the statutory authorization and a brief description of its content, or identify the specified source or other agency.

☐ **Other** (See [FAR Subpart 6.3](#) for additional authority)

Provide the authority and citation to the applicable section of [FAR 6.3](#).

Provide a full explanation to justify use of the exception.

5. Agency Actions to Take or Remove Barriers That Led to Other Than Full and Open Competition (If applicable):

Describe the actions, if any, the agency may take to remove or overcome any barriers that led to the restricted consideration prior to any subsequent acquisition for the supplies of services is made. If no such actions have been taken, explain why.

NA This is the only product of its kind and is not sold by any third party company.

6. Bridge Contracts:

For contract extensions or bridge contracts when a competitive follow-on is in the process of being developed, summarize history of current contract and explain the reasons for any delays in the acquisition. Include discussion of the milestones for the follow-on action; the milestones should be as efficient as possible. Discuss why it would be neither cost effective nor realistic to expect another contractor to perform during the brief interim period; include issues such as start-up costs, phase-in, transfer of GFP, recruitment and staffing, etc. If the action is because of a protest, provide a brief discussion of the protest including the date the protest was filed and the basis of the protest. Explain that the action will provide the minimum quantity or performance period.

Not applicable

7. Actions to Increase Competition:

Describe efforts made to compete the action, including whether a notice was or will be publicized as required by FAR Subpart 5.2 or which exception under FAR 5.202 applies. If a notice was publicized, discuss the number of written responses to the synopsis and the results of the assessment of the written responses. List sources, if any, that expressed, in writing, an interest in the acquisition. Provide rationale if interested sources were rejected. If applicable, state that no other sources have expressed interest, but all offers received shall be considered. Describe what actions will be taken to increase competition before subsequent acquisition of the supplies or services is required. You may state that an action is a one-time requirement, but if a similar requirement arises, every effort will be made to compete it to the maximum extent possible. If action is sole source because of proprietary data or licensing rights and there will be a continuing need for the requirement, there must be evidence that advanced planning has been initiated to overcome the barriers to competition, or there should be documentation to support an analysis that replacement costs/licensing purchase costs outweigh the benefits of competition. If the action is a contract extension or bridge, explain actions to compete the follow-on. If action is an urgent new requirement and a competitive follow-on is anticipated, explain that efforts are underway to facilitate a full and open competition.

Market research didn't produce other firms that offer this product.

8. Market Research:

Describe the extent of the market research conducted to identify all qualified sources and the results thereof. "Market Research" is defined as those attempts you made to ascertain whether other qualified sources exist, and can include contact with knowledgeable experts regarding similar or duplicate requirements, contact with industry, results of a sources sought synopsis, or draft solicitations. Research of the marketplace may consist of written, electronic (i.e. email) telephonic, or world wide web inquiries. Lack of advanced planning is not an acceptable reason for the lack of market research, but true urgency may necessitate abbreviated market research that is limited to readily available historical and commercial information. If action is a contract extension or bridge contract, describe the market research efforts underway or completed for the follow-on. See FAR 10.002(b)(2).

Research was performed on other systems in the market with CLIA waived multi-test capability tjat includes Combo Flu, COVID, RSV and rhinovirus.

- Roche Cobas Liat System has a combo Flu and COVID test that does not include RSV.
- Luminex provides a respiratory panel that is not CLIA Waived.
- Quidel Corporation provides a FLU and SARS combo that does not include RSV
- Abbott ID NOW COVID-19 2.0 has individual COVID test. Must test for each test individually with multiple samples.

9. Procurement History:

Purchase order or contract number: 75H71124P00384 & 75H71124P00237

Was action competed?	☐ Yes	☒ No
----------------------	------------------------------	--

If action was not competed, state the cited authority, summarize rationale, and describe the actions that were supposed to be taken to increase competition and the results thereof:

Pawnee Indian Health Center awarded a sole source contract with this vendor.

10.Additional Information to support the justification:

If applicable, explain why technical packages or specifications to facilitate competition were not developed or available; describe actions taken to remedy the situation.

Providers will be able to quickly differentiate between 4-15 respiratory diseases which may require different treatments, thus better serving our patients in a more timely fashion. The Emergency Use Authorization issued by FDA will expire at some point for current applications and labs that are not prepared will no longer be able to use the current testing system until the method is FDA approved, and whether or not the test method will remain Waived is unknown.
