CONTRACTING RELATED

Is hereby Changed to Read

A. PERIOD OF PERFORMANCE: The ordering and delivery period for all items is 01 October 2025, through 30 September 2030, with a thirty-day delivery carryover period through 30 October 2030, and a onetime option to adjust the period of performance for an additional 10% quantity increase for each line item in accordance with FAR 52.217-6 and FAR 52.217-7 from 01 October 2030 to 31 March 2031 for administrative reasons. Awarding the 10% quantity increases for the adjusted period of performance does not obligate the Government to exercise the option.

If an offer is submitted on the Solicitation Lines for the 5 year delivery period then an offer must be submitted for the same Solicitation Lines on the Attachment S - Options Pricing Submission Spreadsheet.

UPDATED ATTACHMENT S - Options Pricing Submission Spreadsheet is added as an excel spread sheet for submission into the DLA Energy PC&S Offer Entry Tool (OET).

IS HEREBY REMOVED FROM INSTRUCTIONS FOR PAST PERFORMANCE INSTRUCTIONS FOR PAST PERFORMANCE is changed to READ Factor 1: Past Performance Note: Offerors Past performance information will be obtained by the Government through any other source available to the Government which may include: 1. Past Performance, Best Value, Supplier Performance Risk System (SPRS) 2. Contractor Performance Assessment Reporting System (CPARS) 3. SAM.GOV Federal Awardee Performance and Integrity Information System (FAPIIS) 4. Databases, management agency, and interviews with program managers, contracting officers, or fee determining officials. The Government will use information provided by the offeror, established centralized past performance database systems and sources other than those identified by the offeror such as the Contractor Performance Assessment Reporting System (CPARS), SAM.GOV Federal Awardee Performance and Integrity Information System (FAPIIS), and /or other databases; and from Management Agency, interviews with program managers, contracting officers, or fee determining officials. Factor 3: Price HAS BEEN UPDATED TO INCLUDE PRICE EVALAUTION PROCESS In accordance with FAR 52.217-6, the quantity increase for each Option line item will be 10% of the base contract line item quantity/requirement. For example, the quantity for the base line item is 10,000 gallons multiplied by 10% would equal an Option quantity of 1,000 gallons. The total price of the Option will be calculated by multiplying the Option quantity by the Option unit price. An example of the calculation of total price of the Option is below. Example: The Option quantity of 1,000 gallons multiplied by the Option unit price of 2.50/gallon = \$2,500.00 which is the total price of the Option. Each line item number for the base contract period (5-years) has a correlating Option line item number. In accordance with FAR 52.217-7, the ordering period for the Option line items (as identified in "Attachment S - Options Pricing Submission Spreadsheet") is: 01 October 2030 through 31 March 2030. In accordance with FAR Part 52.217-5 Evaluation of Options, for award purposes, the total price for the Option line item will be added to the total price of the basic line item/requirement. Evaluation of option does not obligate the Government to exercise the option(s). Example of the calculation of the evaluated price is below. The total Option (line item) price is \$2,500.00 + the total price of the basic requirement is \$10,000 = \$12,500.00 which is the total evaluated price. The total evaluated price, including options for quantity increases under FAR 52.217-6 and additional ordering period under FAR 52.217-7, and all other non-priced factors will be considered as part of the award decision Except as provided in this Amendment, all other terms and conditions set forth under solicitation SPE605-25-R-0208 and SPE605-25-R-0208 amendment 0001 remain in-force and unchanged.
