

**Single Source Justification (Simplified Acquisition)****Section A: General Contract Information**Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)?☐ Yes☒ No

Contracting Activity: 6 CONS/PKA

Project/Program Name: Smart Card Access Reader

Purchase Request/Identification Number: F2V30X5035A001

Estimated Contract Cost (including Options): \$ [REDACTED]

Section B: Description of the Supplies/Services Required

Update current Fitness Center After Hours Access program with adding a 24/7 access card reader in Lobby.

Section C: Justification for Soliciting from a Single Source or Brand Name

AFSVA/SVC awarded the Fitness Access requirement to SMARTNET INC. SMARTNET Inc is the only approved vendor with the certified Fitness Access System. IAW 34-114, 3.1.3.3 Equipment to control after-hours access should be used in accordance with Fitness Access standards which include the accredited card swipe system for registered customers. Surveillance cameras and digital video recording system will document activities within the facility during after-hours use. SMARTNET INC was mandated for use by all Fitness Centers Air Force Wide. The Fitness Center currently has one 24/7 access reader already installed at a single entry point. To expand accessibility, a second 24/7 access card reader is now required. Due to the existing infrastructure and network properties already in place the new reader must be installed by SMARTNET INC to ensure compatibility with the system update already in place and to maintain consistency with other card readers in the facility. Given the exclusive nature of the existing network and the need for seamless integration with the current system, SMARTNET INC is the only contractor capable of fulfilling this requirement due to exclusive network properties already in place from SMARTNET INC and other card readers in the facility are already in place. This ensures that the new access point will function harmoniously with the existing infrastructure while adhering to Air Force-wide standards for fitness center access control.

Section D: Efforts to Obtain Competition

AFSVA/SVC established a contract with SMARTNET INC. for the Air Force Fitness Access purchase. The contract was solicited with full and open competition and a technical evaluation was done with all the vendors that submitted quotes. AFSVA/SVC awarded the Fitness Access requirement to SMARTNET INC. SMARTNET INC is the only approved vendor with the certified fitness access system to operate the Air Force Network System.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

At this time it is unlikely that a single source requirement will be preventable unless there are more than one authorized system compatible with the Smartnet Inc system. We will continue to survey the market to possibly find other potential sources to support the Fitness Center equipment products or to determine if another product will meet the Government's needs. We will make every effort to compete for future requirements.

**Single Source Justification (Simplified Acquisition)**

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
