

Statement of Work
Apex Ada v5.0 and Apex Ada v4.4 for Mission Software Support Team
(MSFST)

1.0 SCOPE

The MH60RS software support stand-up Mission Software Fleet Support Team (MSFST) has been tasked to procure and maintain software. The Original Equipment Manufacturer (OEM), Lockheed Martin, is currently using the software. PTC Apex Ada v5.0 for Linux/Intel targeting LynxOS / PowerPC and Apex Ada V4.4 for Solaris/SPARC are currently being used for the older and newer releases of the MH60RS software. The software needs to be procured with 1 year of annual software support, with keys provided for each version.

2.0 Requirements

2.1 Vendor shall:

2.1.1 Vendor will provide a current license file, to include all licensing options specified in the requirements of this request, for the current version of the software application for the customer to install on their network-licensing server or PC.

CLIN	Description	Quantity
CLIN 0001	PTC Apex Ada V4.4 for Solaris/SPARC	1
CLIN 0002	PTC Apex Ada v5.0 for Linux/Intel targeting LynxOS / PowerPC	5

2.1.2 Vendor will provide new license file as required for any new software version releases for the period of performance. License file(s) are to be delivered via e-mail to the customer's point of contact (POC) e-mail address and/or downloadable from the vendor's website; accessible to the customers POC registered account with the vendor.

2.1.3 Vendor will provide all new revisions and patches as developed for the period of performance. Software will be accessible via download from the vendor's website and accessible to the end users registered accounts with the vendor.

2.1.4 Vendor will provide telephonic technical and e-mail support Monday to Friday (excluding Public Holidays) 09:30 hours to 17:00 PST as required by the customer for the period of performance. Support issues typically are software configuration issues, "bugs" in the software or licensing issues. Vendor will provide customer directions for fixes or methodologies to resolve all such issues.

2.2 Period of Performance

2.2.1 Service shall begin on the effective date of purchase order until one year for the customer service support, software revisions, patches etc.

2.2.2 In the event that the services delivered under this order by the contractor do not meet all specifications and technical criteria established by the contract, BOTH the contractor and FRCSW designated government personnel are to contact the Contracting Officer at COMFRC CPG, Patuxent River, MD immediately.

2.2.3 FRCSW personnel are not authorized to extend the delivery and or period of performance, change pricing, terms, or conditions or to allow the contractor to "fix" a problem. Changes to the contract shall be made by mutual agreement between the Government and Contractor via a formally issued SF-30 contract modification. If an issue surfaces during performance of the contract, the issue shall be elevated to the Contracting Officer for disposition.

3.0. Designated Government Personnel

3.1 TPOC: Don Hill
