4. Authority Cited: 10 U.S.C. 3204(a)(1), FAR Part 6.302-1 -- Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements.

5. Reason for Authority Cited: The National Professional Fishing League is the only league offering the services required and pursued by the U.S. Army's Angler Team. In addition, the requiring activity reached out to other Leagues, these leagues either will not promote the Army or they've decided to not do business with the U.S. Army.

As described at FAR 6.302-1(a)(2), when the supplies or services required by the agency are available only from one responsible source, or for DoD, NASA and the Coast Guard, from only one or a limited number of responsible sources, and no other types of supplies or services will satisfy agency requirements, full and open competition need not be provided for. If brand name, add the following: As further described in FAR 6.302-1(c), an acquisition or portion of an acquisition that uses a brand-name description or other purchase description to specify a particular brand-name, product, or feature of a product, peculiar to one manufacturer does not provide for full and open competition, regardless of the number of sources solicited; and shall be justified and approved in accordance with FAR 6.303 and 6.304.

Further market research was completed with a notice of Intent to Sole Source this procurement. There were no inquiries received.

Alternative:

The anglers will not be able to attend the fishing events that directly support the recruiting mission which would be negatively impacted if this J&A is not approved. With our anglers participating in these fishing events the U.S. Army is put into the public spotlight thereby creating an awareness for recruiting possibilities.

6. Efforts to Obtain Competition: A search was conducted utilizing various sites within the internet, there were no other organizations within the angler associations that would allow the U.S. Army to be visible to a large population.

a. Effective Competition: Because this is a sole source action, effective competition is not applicable.

b. Subcontracting Competition: The prime contractor is a Veteran Owned, Small Business who is the sole owner, operator, and coordinator of the fishing events therefore there are no opportunities to subcontract.

7. Actions to Increase Competition: There is an ongoing effort to increase the visibility of the U.S. Army and to increase recruited personnel into the Army. Accordingly, USAREC will continue to monitor the commercial sector for additional organizations similar to NPFL to promote the U.S. Army in the future.
