DETERMINATION MEMORANDUM FOR SOLE SOURCE ACQUISITIONS OVER THE MICRO-PURCHASE THRESHOLD BUT NOT EXCEEDING THE SIMPLIFIED ACQUISITION THRESHOLD FAR 13.106-3(b)(3)(i)

3. BRIEF DESCRIPTION OF SUPPLIES OR SERVICES REQUIRED AND THE INTENDED USE:

The order is to upgrade our Time Division Multiplexing (TDM) service and required equipment to migrate to Session Initiation Protocol (SIP) services. This request provides a solution for the 128 ARW Wings Local Telecommunications Services. This includes a hot-line which utilizes an analogue line. All Public Safety Answering Point (PSAP) 911 services will also be required to be routed to our local responding organization. It is understood that long distance is a service that

4. UNIQUE CHARACTERISTICS THAT LIMIT AVAILABILITY TO ONLY ONE SOURCE, WITH THE REASON NO OTHER SUPPLIES OR SERVICES CAN BE USED:

Moving away from the current provider, AT&T, would require the Wing to incur additional equipment and infrastructure costs estimated to be in excess of \$48,000. It would also require a site survey to confirm successful integration into our current structure and service restoral priorities. This would result in substantial duplication cost that is not expected to be recovered through competition.

5. MARKET RESEARCH:

IAT&T provides economic and efficient benefits to purchase follow on equipment and services for converting our Time Division Multiplexing (TDM) to Session Initiation Protocol (SIP). AT&T currently owns a 3,500 foot 12 strand single mode (SM) fiber which runs the entire length of the Wing through multiple telecommunication duct banks, along with circuit cards and a telecommunications rack in our phone room. A change in manufacturer would require a lease of the current 12SM fiber or a re-run of the line at a cost of \$48,000 to the government. The material for 12 Strand SM fiber is estimated to cost \$18,500, EI MILPERS is \$17,250 with contracted labor costs of \$12,250. A change in manufacturer would also incur additional government costs to replace it switches, router and circuit cards providing core functions to the Wing.

6. PROVIDE A STATEMENT OF ACTIONS, IF ANY, THE GOVERNMENT MAY TAKE TO REMOVE OR OVERCOME ANY BARRIERS TO COMPETITION BEFORE FUTURE ACQUISITIONS ARE REQUIRED:

At this time, without total replacement of the 3,500 foot 12 strand single mode (SM) fiber throughout the base along with rack equipment located in the phone room, there is not a way to purchase services and equipment outside of AT&T without incurring costs in excess of \$48,000. Market research will be done as requirements come up to assess future

I CERTIFY THAT THIS JUSTIFICATION IS ACCURATE AND COMPLETE TO THE BEST OF MY KNOWLEDGE AND BELIEF, AND THAT COMPLETING THIS PURCHASE AS A SOLE SOURCE IS IN THE BEST INTEREST OF THE GOVERNMENT. ADDITIONALLY, I APPROVE THIS JUSTIFICATION TO LIMIT COMPETITION SUBJECT TO THE AVAILABILITY OF FUNDS AND PROVIDED THAT THE SERVICES OR SUPPLIES HEREIN DESCRIBED HAVE OTHERWISE BEEN AUTHORIZED FOR ACQUISITION.
