

JUSTIFICATION FOR AN EXCEPTION TO FAIR OPPORTUNITY (BRAND NAME)
FY25 SpecBuilder Software Renewal
HTC711-25-Q-D005
25-01

1. CONTRACTING ACTIVITY:

United States Transportation Command Directorate of Acquisition (USTRANSCOM TCAQ)
IT Programs and Support Services Division (TCAQ-D)
508 Scott Drive, Building 1900W
Scott AFB, IL. 62225-5357

2. DESCRIPTION OF ACTION BEING APPROVED & DESCRIPTION OF SUPPLIES OR SERVICES REQUIRED TO MEET THE AGENCY'S NEEDS:

USTRANSCOM Command, Control, Communications, and Cyber Systems Directorate (TCJ6) requires an exception to fair opportunity for the FY25 SpecBuilder Software Renewal. Award of a firm-fixed price contract is anticipated with a Period of Performance of 21 Oct 24 – 20 Oct 25. The estimated value of this requirement is [REDACTED].

3. AUTHORITY & SUPPORTING RATIONALE:

FAR 13.106-1(b)(1)(i). Soliciting from a single source (including brand name)

4. JUSTIFICATION/BRAND NAME:

The particular brand-name, product, or feature is essential to the Government's requirements and the market research indicates other companies' similar products, or products lacking the particular feature, do not meet, or cannot be modified to meet the agency's needs. This brand name requirement is a follow-on to purchase order HTC71124P0001, awarded by USTRANSCOM TCAQ to Edifecs Inc. USTRANSCOM uses SpecBuilder software to simplify and accelerate authoring, testing, and publishing of American National Standards Institute (ANSI) Accredited Standards Committee (ASC) X12 specifications. SpecBuilder enables USTRANSCOM to create standardized data exchange between DoD components, systems, and commercial trading partners and ensures compliance with the ANSI ASC X12 standard for Electronic Data Interchange (EDI) as directed by DoD Directive (DoDD) 4500.09. SpecBuilder by Edifecs is the only software that can be used by USTRANSCOM to modify ANSI ASC X12 EDI specifications and the only one recommended by X12 leadership. Failure to have the ability to modify USTRANSCOM Implementation Conventions (ICs) will result in lack of standardized data exchange formats, increased data quality issues, delays in shipping processes, impacts on in-transit visibility, degraded billing and payment processing, non-compliance with federal and DoD regulations governing shipping requirements, and contractual implications between DoD and commercial carriers, shippers, vendors, and value-added networks.
