

Statement of Work (SOW)

1.0 General

The 916th AMXS Hydraulics shop (916 AMXS/HYDR) mission is to provide maintenance support for the KC-46 aircraft for the United States Air Force and SJAFB mission partners. This Statement of Work (SOW) addresses the need to procure Honeywell brake rebuild tools for the KC-46 aircraft in building 4919, Room 177. The new support equipment tools are needed to rebuild KC-46 brakes. These tools will provide the user to complete brake tear down and brake build up per 32-43-12.

2.0 Scope of Work

Installation by the vendor is not required. The 916th Hydraulics section will be responsible for securing tooling to a work bench located in building 4919, Room 177.

3.0 Equipment Required

The scope of this request is to conduct all work required to complete the **KC-46 equipment installation** for the (**916 AMXS**). The scope of this project is to procure required tools to disassemble and reassemble KC-46 brakes. All of our work must be performed following applicable and appropriate technical order 32-43-12.

4.0 Delivery

The delivery of equipment will be needed 120 days after award of contract. Delivery will be through one of the gates to SJAFB. This will be coordinated prior to delivery to allow base access for delivery company. Please call MSgt John Grimm at 919-722-8301 to coordinate base access. The 916th DoDACC is: FE4809.

5.0 Shop Delivery

The 916th will provide any special lifting tools (forklift) to aid in removing equipment from delivery truck if needed. Please call MSgt John Grimm at 919-722-8301 to coordinate base access and delivery.

6.0 SUPPORTING DOCUMENTATION FOR REQUIRED TOOLS

BRAKES	Lifting Tool 2558216	Brake Handling	Used to remove brake assembly from assembly fixture to perform heat stack repairs	QTY:01
BRAKES	Assembly Shim 2558615	Brake Build Up	Used to prevent excessive adjuster pull through during leakage test after heat stack repairs	QTY:01
BRAKES	Adjuster Pin, Installation Tool 2558668	Brake Build Up	Used to protect packings in the piston inside diameter during installation of the adjuster pin	QTY:01
BRAKES	Assembly Fixture 2558637	Brake Build Up	Used to assist in carbon disc and piston housing installation	QTY:01
BRAKES	Piston Bushing Adapter Socket 2558644	Brake Build Up	Used to Install piston bushing assembly	QTY:01

7.0 STANDARD WARRANTY

The contractor shall provide any Original Equipment Manufacturer (OEM) standard commercial warranty applicable to the products being purchased at no additional cost to the Government.

Prior to project acceptance, the contractor shall provide the customer with all manufacturer warranties as needed for any component incorporated into this project such as equipment manuals, literature, CDs and DVDs and other documentation on all equipment.

Prior to project acceptance, the contractor shall provide written procedures, points of contact within company, and required information for all warranty services prior to project acceptance. This information shall include written confirmation of the warranty period, phone numbers and contact information/procedures for technical support, troubleshooting assistance, and replacement of faulty equipment.

8.0 GENERAL INFORMATION:

ITEMS MUST BE BRAND NEW. REFURBISHED ITEMS ARE NOT AUTHORIZED.
