

## Soldier-Borne Mission Command (SBMC)

### Industry Questionnaire

PdM IVAS is seeking Industry feedback on the planned SBMC (formerly known as IVAS Next) effort as follows:

|                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                            |

1. Would your company be a prime contractor on the SBMC effort?

**Answer:**

**All responses are for Government information only; responses will not be published and will be considered proprietary.**

2. Would your company be part of a teaming arrangement for this effort? If so, with what companies? Have the teaming arrangements been formalized?

**Answer:**

3. For this effort, do you believe a Federal Acquisition Regulation procurement, or an Other Transaction Agreement would be more applicable? Which contract vehicle would you prefer and why?

**Answer:**

4. If an Other Transaction (OT) Agreement was selected, would your company meet one of the following conditions of the authority outlined by 10 USC 4022 (d):

1. At least one (1) Non-Traditional Defense Contractor (NTDC) participating to a significant extent in the prototype project. Non-Traditional Defense Contractor (NTDC) designation defined in section 3014 of Title 10 US Code §3014?
2. All significant participants in the transaction other than the Federal Government are small business or non-traditional defense contractors.
3. At least one third of the total cost of the prototype project is to be paid out of funds provided by sources other than the Federal Government.

**Answer:**

5. Would you suggest contracting incentives for this effort? If yes, please describe.

**Answer:**

6. If awarded a contract/agreement, how soon could you deliver an SBMC prototype?

**Answer:**

7. After reviewing the Government's SBMC requirements provided in the IVAS Next Request for Information and the IVAS Next Virtual Industry Day brief, are there any requirements you would not be able to meet or that you would recommend be changed? Please explain.

**Answer:**

9. Aside from the information provided thus far in the SBMC/IVAS Next documents provided, what additional information is needed for your company to develop an SBMC solution?

**Answer:**
