

Performance Work Statement (PWS)
CONTRACTOR OPERATED CIVIL ENGINEER SUPPLY STORE
(COCESS)

20 December 2024

1 DESCRIPTION OF SERVICES

- 1.1 **BACKGROUND** To provide a simplified method for Civil Engineer Squadron (CES) personnel and Facility Managers to purchase quality materials, tools and equipment used for work tasks, construction, recurring preventive maintenance, repairs and the Base U-Fix-it program. The Contractor shall be responsible for performing identified Inventory Technician (InvTech) transactions in TRIRIGA. The Contractor shall have a storefront located in behind the ISOCES building on Hurlburt Field, FL. The store shall contain a variety of commercial and industrial products and stock high-use/critical/consumable materials for immediate purchase. Suggested high-use stock items are identified in Appendix B – Historical High-Use/Critical Items. Store management and personnel shall provide quality customer service.
- 1.1.1 **CE COCESS Warehouse/Bldg 90053/415 Independence Road, Hurlburt Field, FL. 32544.** The COCESS store is a convenient source for the Contractor and authorized personnel to use for filling material requests. The store shall be stocked and managed by the Contractor. All items and materials in the store shall be the property of the Contractor until sold to authorized Government personnel. The Government will provide recommended high-use/recurring items for the store; however, it is the responsibility of the Contractor to decide which items to stock in the store.
- 1.1.1.1 **COMMERCIAL MATERIALS.** The typical areas of commercial materials include electrical, plumbing, heating, ventilation, air conditioning, refrigeration, sheet metal, welding, pipe fitting, carpentry, pavement, controls and alarms, painting, hardware, liquid fuels maintenance, power production, generators, water and waste treatment, pest control and general construction. This list is not all inclusive.
- 1.1.1.2 **U-FIX-IT STORE.** The U-FIX-IT program is intended for Facility Managers to perform minor maintenance and repair tasks that do not require special tools or technical expertise. Examples of U-FIX-IT tasks include changing light bulbs (ceiling height defined in the Facility Management Reference Guide or base Handbook), replace nuts/bolts/screws or facility hardware, replace switch plates/electrical outlet covers, paint small room or hallways, touch up painting, etc.
- 1.1.1.2.1 Facility Managers are authorized to obtain approved materials from the COCESS store with an approved U-FIX-IT Work Task. Approved items may be either store stock items and/or items procured through a Purchase Order. All U-FIX-IT Purchase requests will be approved by the Chief of Material Control (COR).
- 1.2 **SCOPE.** The Contractor shall provide all necessary labor, supervision, equipment, supplies, transportation and materials to support a Contractor Operated Civil Engineer Supply Store (COCESS) located on Hurlburt Field, FL. The Contractor shall source, purchase, receive, issue, deliver and stock a variety of materials, equipment, parts and supplies for construction and facility maintenance and repair for use by authorized Government personnel.
- 1.3 **STORE STOCK OWNERSHIP.** The Contractor shall own all store stock until sold to the government. At contract completion, the Contractor shall retain ownership of store stock not sold to the government. The government reserves the right to purchase the store stocked items at contract completion.

1.4 SPECIFIC SUPPORT SERVICES

- 1.4.1 **FIRM FIXED PRICE.** All items purchased on this contract are considered Firm Fixed Price (FFP). Sale prices shall include fully burdened prices that account for delivery/freight costs and/or pass through charges. Premium freight charges shall be approved separately by the COR prior to an item being placed on order.
- 1.4.2 **PRE-PRICED ITEMS.** Pre-priced items are defined as items found in the online pricing database(s) identified in Attachment Y, Pricing Discount Coefficient Table. During the initial solicitation of the contract, the Contractor shall complete a bid schedule for Attachment Y, Pricing Discount Coefficient Table to identify discount percentages for categorically assigned items.
- 1.4.2.1 For items listed in primary and alternate databases, the Contractor will discount the appropriate list price using a categorically proposed coefficient identified in Attachment Y. Multiplying the fixed coefficient for the appropriate category to the database's listed price of the item at the time of sale will result in the sale price of the item to the Government. The Contractor may further discount an item below the calculated sale price at the Contractor's own discretion. Contractor shall use the sale/list price when applying fixed coefficient's (contractors shall not use any temporary clearance prices).
- 1.4.2.2 For items not listed in the pricing database(s), the Contractor shall follow the Non- Priced Items (NPI) procedures described in paragraphs 1.4.5. and 1.6 of this PWS.
- 1.4.2.3 Pre-priced items valued at or above \$25,000 require approval from the Contracting Officer (CO) prior to purchase.
- 1.4.3 **ONLINE PRICING DATABASE.** Online pricing databases or catalogues (referred to collectively henceforth as "databases") shall be used to calculate sale prices of items found within the database(s). The Contractor shall identify a primary and alternate database from the following list of optional databases to price items for each COCESS item category:

COCESS ITEM CATEGORIES	CORRESPONDING DATABASE OPTIONS
1. HVAC	https://www.grainger.com/ https://www.repairclinic.com/ https://www.ferguson.com/
2. Plumbing	https://www.grainger.com/ https://www.ferguson.com/
3. Electrical	https://platt.com/ https://www.grainger.com/ https://www.homedepot.com/ (Ft Walton, Store #6301)
4. Building Supplies (includes Lawn & Garden/Hardware)	https://www.homedepot.com/ (Ft Walton, Store #6301) https://www.grainger.com/

- 1.4.3.1 The sale price of each item shall be determined by calculating the categorically specific discount coefficient for the item using Attachment Y, Pricing Discount Coefficient Table. Attachment Y will identify a primary and alternate database(s) per category. If an item is located in the primary database, the item shall be sold for no more than the resulting categorical discount. If an item cannot be found in the primary database, the Contractor shall utilize the alternate database and sell the item for no more than the

resulting categorical discount of the alternate database. See paragraph 1.4.2.2 for additional information regarding items not found in either the primary or alternate databases.

1.4.3.2 The utilization of online databases is for pricing purposes only. Contractors are not required to purchase items from any particular supplier or distributor, regardless of pricing database. See paragraph 1.4.2. PRE-PRICED ITEMS for additional information regarding the required use of online pricing database(s).

1.4.4.3 The Contractor shall seek agreement/concurrence with the COR when pricing what are believed to be categorically ambiguous items. If agreement on an item's category cannot be reached by the Contractor and the COR, the Contractor shall request Contracting Officer determination for categorizing the item(s) in question.

1.4.4 INITIAL OPERATIONS REVIEW AND SUPPLEMENTAL PRICED ITEM (SPI) LIST. During the initial 30 calendar days following contract award, the Contractor and the COR may agree to add items not found in the proposed databases to a SPI List.

1.4.4.1 The COR will develop a pricing bid schedule for SPI items to submit to the CO for approval. The CO will send the item bid schedule to the Contractor to provide fully burdened prices. The items on the bid schedule shall include, at a minimum, the Inventory Item Number (if available), Item Name, item description, manufacturer part number and/or supplier's part number, unit of measure, manufacturer name and estimated initial usage levels (for contract period of performance). Once the Contractor has returned the fully burdened bid schedule to the CO, the CO may issue a contract modification to incorporate the items into a SPI List.

1.4.4.2 The Contractor may also work with the CO during execution of the contract to periodically add commonly purchased items not found in the databases identified in Attachment Y, to the SPI List following the same procedures identified in paragraph 1.4.3.1.

1.4.4.3 The Contractor shall use Microsoft Office Excel to supply the COR with a current, electronic pre-priced store stock item listing within the first 30 calendar days of contract award. This listing shall include the name of the item, description, manufacturer (or supplier), manufacturer part number, and current item sale price. All "over-the-counter" items sold in the store must be priced in accordance with Pre-Priced paragraph 1.4.2 of this PWS. Any item pricing using database pricing procedures described in 1.4.2.1 shall have price verified at the date of sale to ensure a current, up-to-date sale price.

1.4.5 OFFLINE TRANSACTIONS. The Contractor may use an Off-Line Transaction Form (Appendix A) to document over-the-counter sales to expedite transactions. However, prior to 1200 noon on the following duty day, all transactions from the previous duty day shall be accurately documented in TRIRIGA.

1.4.6 NON-PRICED ITEMS (NPI). NPIs are those items/materials not found in the database(s) identified in Attachment Y, Pricing Discount Coefficient Table or any SPI List placed on contract in accordance with the procedures described in paragraph 1.4.3. No NPI "over-the-counter" sales are authorized. All NPI purchases under the micro-purchase threshold must be approved by the COR. All NPI purchases over the micro-purchase threshold must be approved by the CO. The Contractor shall acquire all NPIs using fair and reasonable pricing in accordance with paragraph 1.6 of this PWS. All NPI items shall be quoted at fully burdened prices, including core charges for batteries.

1.4.7 SOURCES OF SUPPLY. The Contractor shall acquire items from merchants or vendors of their choice and should include local and small businesses. The Contractor shall use manufacturers and other industry sources for obtaining information to compare prices. The Contractor shall perform all research required to successfully procure all PO and GPC item requests.

1.4.8 DELIVERY. The Contractor shall accept deliveries at Hurlburt Field, FL. Alternate delivery locations are permissible but shall require approval from the COR prior to delivery. The Contractor shall inspect all boxes for damage prior to acceptance. Items addressed to COCESS shall be processed into the Contractor's inventory or set aside until PO material requirements are complete. Notify the COR or his/her designated representative of all other items delivered to CES personnel. Upon request, the Contractor shall move and store items into the holding area of the Government Warehouse (GW).

1.4.9 CONTRACT ATTRIBUTES AND RESPONSIBILITIES. The Contractor shall follow instructions in the most current Material Control Reference Guide for processes and procedures for ensuring material control transactions are processed correctly. Unless otherwise stated, the following are mandatory attributes of this PWS:

1.4.9.1 Perform InvTech responsibilities/tasks for material transactions in TRIRIGA as identified in the Material Control Playbook and the TRIRIGA Materiel Control Management Reference Guide.

1.4.9.2 Perform market research to provide fair and reasonable pricing in accordance with the Pre-Priced Items and Non-Priced Items processes.

1.4.9.3 Acquire items/materials from assigned TRIRIGA POs.

1.4.9.4 Provide items/materials within the RDD or ADD.

1.4.9.5 Coordinate with COR for identified InvTech material transactions.

1.4.9.6 Accept deliveries of materials from shipping companies.

1.4.9.7 Process "Receipt" transactions in accordance with this PWS

1.4.9.8 Provide a customer-friendly COCESS store environment that presents a clean, organized and systematic product identification.

1.4.9.9 Sell COCESS store stock "Over-the-Counter" to authorized personnel in accordance with this PWS.

1.4.9.10 Advise customers on return policy and method

1.4.9.11 Accept return of unused material when returned in full issue quantity and process credit to Government within 14 calendar days of issue.

1.4.9.12 Provide a current status of orders (including back orders and materials with long lead time) upon request.

1.4.9.13 Maintain electronic database and appropriate electronic and hard copy documents.

1.4.10 Hazardous Materiel Receipt: Contractor shall utilize the EESOH-MIS to process receipt of hazardous material

1.4.11 Hazardous Material Labeling and Issue (if applicable). The Contractor shall utilize the approved hazardous material tracking system's bar-coding functions to assign bar code numbers and print bar code labels (when required) when hazardous material is issued. The appropriate bar code label shall be affixed to each hazardous material container before issuance.

1.4.12 Processing Transactions. Processing of transactions within the EESOH-MIS and TRIRIGA is required for all PRs, POs, Issues, Receipts and PO Invoices. See the Materiel Control reference guide for instructions on how to perform these duties.

1.4.13 Hazardous Materiel Exemption List (if applicable). All items approved for the Hurlburt Field Hazardous Material Exemption List do not require input into EESOH-MIS.

1.4.14 WARRANTIES. The Contractor shall provide the original warranty documents to the COR at the time of sale and keep a copy on file for one year.

1.4.15 SALES TICKETS. The Contractor shall utilize a Contractor-generated sales ticket. This sales ticket shall be used for sales of all items sold "over-the-counter" and for items sold on POs for work tasks/PR items.

1.4.15.1 Sales tickets must include the following information, at a minimum:

- Contractor's company name
- Contractor's unique sales ticket number
- Date sold
- PO identification number
- Work task number
- Inventory item number (if available)
- Line-item description (including manufacturer and part number)
- Unit quantity
- Unit price
- Item extended total (quantity multiplied by unit price)
- NPI freight costs on a separate line (if applicable)
- Sales Ticket total cost
- A line for printed customer name and signature

1.4.15.2 Freight Tickets. The Contractor shall retain all original freight tickets. The Contractor shall make two (2) copies of any NPI shipping/freight tickets/invoices showing freight costs over \$20. One copy shall be distributed to the COR daily and the second copy shall be collected for the month to accompany the summary of sales report to the CO.

1.4.15.3 Sales Ticket Distribution. The Contractor shall retain all original sales tickets. The Contractor shall make two (2) copies of all sales tickets. One copy shall be distributed to the COR daily and the second copy shall be collected for the month to accompany the summary of sales report to the CO.

1.4.16 REQUIRED REPORTS AND LISTINGS. The Contractor shall provide the reports and listings in an electronic format. The Contractor shall use a format that is compatible with the Government's software (e.g. Microsoft Word, Excel, etc.). The Contractor shall submit reports and listings within specified time frames for each report.

1.4.16.1 DAILY SALES TICKETS. The Contractor shall submit copies of the Contractor generated daily sales tickets to the COR not later than 0900 on each duty day for the previous duty day's sales. This includes all PO and over-the-counter sales. If freight is over \$20, a copy of the vendor invoices shall be included (once received). The daily sales tickets shall be reconciled against the monthly summary of sales report prior to invoice payment.

1.4.16.1.1 The Contractor shall collect the daily sales tickets and all vendor invoices showing NPI freight charges. Copies of these documents shall be submitted to the COR and CO at the end of each month to support the sales shown on the monthly summary of sales report.

1.4.16.2 MONTHLY SUMMARY OF SALES REPORT. The Contractor shall submit a monthly summary of sales report to the COR and CO. This report is due no later than the fifth duty day of the month for the previous month. The summary report shall show the date range of sales (beginning to end of previous month), the range of sales ticket numbers (beginning and ending) and have separate totals for all applicable POs. The report shall also identify whether an item's price was calculated using Attachment Y, Pricing Discount Coefficient Table, or the SPI or NPI processes described in Sections 1.4.3 and 1.6.1. If Attachment Y pricing was used, the report shall document the category of the item, applicable pricing database, and corresponding coefficient used to determine the final sale price. If the item was priced using the NPI process described in paragraph 1.6.1 of this PWS, the report shall document the date the item was approved for sale by the COR or CO depending on the price of the item (under the micro-purchase threshold items are approved by the COR, over the micro-purchase threshold items are approved by the CO).

1.4.16.3 COCESS STORE STOCK LISTING. The Contractor shall submit an Excel listing of all items available in the COCESS Store to the COR. This report should be sent electronically to the COR within 30 calendar days of the beginning of the contract and as changes are made (**CDRL A0001**). All store stock items shall be input into TRIRIGA in accordance with Section 1.3.2 of this PWS and the TRIRIGA Materiel Control Management Reference Guide with a quantity of zero.

1.4.16.4 EMPLOYEE LISTING. The Contractor shall submit a listing of all Contractor employees on Hurlburt Field, FL to the COR and CO. The listing shall also include phone contact information for after duty hours for the COCESS Store Manager and alternate manager. This report shall be sent electronically to the COR and CO within five (5) duty days from the start of the contract and as changes are made (**CDRL A0002**).

1.4.17 RECORD KEEPING AND INSPECTION. The Contractor shall maintain all sales record files including freight charges and supporting documents for the entire order period of this contract. Upon completion or termination of the contract, the Contractor shall turn these records over to the Government.

1.4.17.1 All records are subject to the Freedom of Information and Privacy Act. The Contractor shall immediately make these records available to the COR or CO upon request for review/inspection

1.4.17.2 The Contractor shall keep these items current and maintain and dispose of them IAW the requirements established in Air Force Instruction (AFI) 33-322, Records Management Program, paragraph 10, Air Force Manual (AFMAN) 33-363, paragraph 6.4, Air Force Manual (AFMAN) 33-364, paragraph 2.13, and the Air Force Records Disposition Schedule. The COR can provide further guidance and referenced instructions upon request.

1.4.18 DELIVERY. The Contractor shall accept deliveries at Hurlburt Field, FL. Alternate delivery locations are permissible but shall require approval from the COR prior to delivery. The Contractor shall inspect all boxes for damage prior to acceptance. Items addressed to COCESS shall be processed into the Contractor's inventory or set aside until PO material requirements are complete. Notify the COR or his/her designated representative of all other items delivered to CES personnel. Upon request, the Contractor shall move and store items into the holding area of the Government Warehouse (GW).

1.4.18.1 REQUIRED DELIVERY DATE (RDD). Work Tasks in TRIRIGA will identify RDDs for individual items or material required for purchase. The Contractor shall not input, edit, or adjust the RDDs in TRIRIGA. RDDs will be based on one of the following three material requirement classifications:

1.4.18.1.1 Emergency requirements. Requirements for corrective maintenance work materiel requests that must be available immediately. Emergency work is designed to mitigate the emergency but not necessarily restore to the operating condition prior to the emergency event. The Government will provide a list of any recommended specialty items and desired stock levels to communicate items that are anticipated to be required for immediate over the counter issue. Some items such as electrical transformers, breakers, or utility valves may require stocking to assure immediate availability for emergency responses that are integral to restoring service to a wide number of customers. Emergency requirements must have an agreed Delivery Date (ADD, see paragraph 1.8.2) within 24 hours of requirement notification.

1.4.18.1.2 Plant Operations or Preventative Maintenance. Requirements for items or materiel repetitively purchased throughout the year. Such items are used to support plant operations or preventive maintenance and shall be available for issue from the store within 48 hours of request. The Government will provide the contractor with a list of these items which are strongly encouraged for store-stock in order to ensure the 48-hour RDD requirement is met.

1.4.18.1.3 Scheduled Sustainment and Enhancement Work. All other requirements for items or material are considered Scheduled Sustainment and Enhancement Work.

1.4.18.1.4 AGREED DELIVERY DATE (ADD). The ADD is an adjusted delivery date agreed to by the Contractor and the Government's authorized customer in instances when the Contractor cannot meet the RDD or proposes an adjusted delivery date to obtain better pricing. If an ADD is established for an item,

the Contractor shall complete delivery of the specified ADD. TRIRIGA does not provide an option for an ADD; therefore, the Contractor shall request revision of the RDD in TRIRIGA by the COR or CO when appropriate. Under no circumstances shall the Contractor adjust the RDD in TRIRIGA.

1.4.18.1.5 ESTIMATED DELIVERY DATE (EDD). Per the Materiel Control Playbook and Reference Guide, if the Government requests an EDD, the Contractor shall provide the EDD within 1 duty day from the time of the initial request/purchase order is received. TRIRIGA does not use EDDs, so this process would be performed entirely outside of the TRIRIGA system, by either email, phone call, or face-to-face interaction.

1.4.18.1.6 OPTION TO CANCEL. The Government reserves the right to cancel orders for items at no cost to the Government and purchase items from other sources if the Contractor cannot meet any of the following: (1) RDD (2) ADD or (3) Competitive Price. These occurrences will be recorded in the Contractor Performance Assessment Reporting System (CPARS).

1.4.18.1.7 EXCUSABLE DELAYS. The Contractor's performance rating will not be negatively impacted for late deliveries caused by excusable delays. Excusable delays are the result of events beyond the reasonable control of the contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather and delays of common carriers. See FAR clause 52.212-4 (f) for additional information regarding excusable delays.

1.4.18.1.8 EMERGENCY PICK-UP AND DELIVERY. Occasionally, COR may require the Contractor to immediately procure and pick-up item(s) available in the local area within a 50 miles radius of Hurlburt Field, FL and deliver the item(s) to the COCESS receiving area. There will not be a pick-up/delivery cost to the Government for any items procured within the 50 miles.

1.4.19 HOLDING AND STORAGE. Upon Acceptance of an item by the Government, the Contractor shall update TRIRIGA IAW the TRIRIGA Materiel Control Management Reference Guide. The Contractor shall be responsible for holding items in storage for work tasks until all items have been received for the corresponding task. Partial release or distribution of items to authorized users prior to the Government's Acceptance of all work task items will require written authorization from the COR.

1.4.19.1 Government accepted items may require holding beyond completed delivery of the work task order. The Contractor shall store such items in Building 90053 Material Control Warehouse and identify the item's location in TRIRIGA IAW paragraph 1.3.2 of this PWS and the TRIRIGA Materiel Control Management Reference Guide.

1.4.19.2 The Contractor shall be responsible for replacing lost or misplaced Government Property that is lost or misplaced within a Contractor controlled facility or area. As outlined in paragraph 3.1 of this PWS, Area 1 is designated exclusively for contractor use and Area 2 will be designated as shared use by the contractor and government. Materials or property stored in Area 2 is not a Contractor controlled area and does not fall under this provision. The Government reserves the right to access and use all on-base warehouse facilities as necessary.

1.4.20 DOCUMENTING RECEIPT OF ITEMS. The Contractor shall process receipt of all items in EESOH-MIS, IAW AFI32-7086, Hazardous Material Management and paragraph 1.12.3 and TRIRIGA IAW the TRIRIGA Materiel Control Management Reference Guide and paragraph 1.3.2 of this PWS. The

Contractor shall also provide paper copy receipt to authorized users upon Government Acceptance of an item, to include over-the-counter sales referenced in Section 1.10.2. of this PWS. Daily sales reports shall be submitted to the COR prior to 1200 noon on the following duty day. At a minimum, daily sales reports shall include the information categorized in Attachment A.

1.4.20.1 CORRECTIONS AND ADJUSTMENTS. Minor pen and ink changes on original sales slips shall be initialed by the contractor and verified by the COR. Corrections may also be itemized on a separate sales slip and cross-referenced to the original sales slips. The paperwork should reflect the materials were inspected by the appropriate Government representative and signed off as being received by the Government for payment.

1.4.20.2 CREDITS: Sales slips documenting returned items shall be clearly marked "CREDIT." Any net credit amount must be easily identified (via parenthesis, font color, etc.) to facilitate addition. When an exchange is turned in prior to or subsequent to the delivery of the related new or rebuilt item, the two sales slips must be cross-referenced. Canceled/voided and "credit" sales slips must be given the same distribution and retained in the same sequence as regular sales slips. An exchange involving no change in price will also be documented in accordance with this paragraph.

2.0 DELIVERABLES

<u>DATA Item Number</u>	PWS Paragraph	Title	Delivery Date/Description
A0001	1.3.13.3	COCESS Store Stock listing	Due within 30 calendar days of contract start
A0002	1.3.13.4	Employee Listing	Due 5 duty days from contract start and as changes are made
A0003	4.1.1	Emergency Support List	Within 30 days of contract start
A0004	4.2.1.1	On-Site Store Manager List	Due 10 calendar days of contract start
A0005	4.2.6.1	Tririga Access	Completed within 30 days of starting work
A0006	5.2.6	Final Report	Due 10 Duty days following contract termination/completion
A0007	5.2.7	Contractor Environmental Awareness Training	Completed 30 days of work start
A0008	4.2.15	Contractor Transition	Due 10 Calendar days after award
A0009	4.2.17	Phase-Out Plan	Due 30 Calendar days after contract award

SERVICES SUMMARY

#	Performance Objective	PWS Reference	Performance Threshold
1	Customer Service	1.1	No more than 2 valid complaints per 100 customers served.
2	TRIRIGA InvTech Roles and Responsibilities Compliance	1.4.9.1. and 4.2.2	90% of the time
3	Contractor Training Compliance	4.2.2.6, 4.2.3, 4.2.5, 4.2.6 – 4.2.6.5	95% on time
4	Premium Freight and Transportation Charges COR Approval	1.4.1., 4.2.7.2., 4.2.8.4,	98% of the time
5	Items>\$25K CO Approval	1.4.2.3	100% of the time
6	Off-Line for Over-the-Counter Sales updated next duty day	4.2.9.4.1, 4.2.9.4.2.	98% of the time
7	NPI Quotes Received on Time	4.2.7.3.	98% of the time

8	Hazardous Material Approval Compliance	4.2.8.3.	98% of the time
9	"Like-Item" Substitutes Approval	4.2.2.3., 4.2.8.5.	100% of the time
10	Contractor's Merchandise Return Policy Compliance	1.4.9.10, 4.3.9.5.	98% of the time
11	Provide Items by Required/Agreed Delivery Date for All Requirement Categories. Provide Estimated Delivery Date Upon Request	1.4.9.4	95% of the time
12	Performs Receipt and Issue Transactions in TRIRIGA and EESOH-MIS to Authorized Users	1.4.9.7, 1.4.10,1.4.1 2,1.4.20	90% of the time
13	Hazardous Material Labeling and Transaction Processing	1.4.10	98% of the time
14	Warranties Provided to COR and Copy Kept on File for 1 Year Compliance	1.4.14	98% of the time

15	Sales Ticket Processing and Compliance	1.4.15.	98% of the time
16	Required Reports and Listings Compliance	1.4.16	98% on time and in correct format
17	Record Keeping and Inspection Compliance	1.4.17.	98% of the time
18	COCESS Store Hours of Operation and On-Site Manager Availability Compliance	4.1 – 4.1.3	98% of the time
20	Hazardous Material Spill Response Compliance	5.2.4	100% of the time

2.1 COR SURVEILLANCE. The COR will inspect and evaluate the Contractor's performance objectives to ensure materials are received in accordance with requirements set forth in this PWS. The COR will inspect by validating actual work performance, checking management information reports, investigating customer complaints, conferring with facility managers or otherwise inspecting the task results to determine whether performance meets the standards contained in this PWS. The COR may use a random inspections and customer complaints to perform surveillance. Results of the surveillance will be recorded and become the official Air Force record of the Contractor's performance. The COR is authorized to designate personnel who are authorized to obtain materials from the on-base store. The COR performs technical surveillance over the operation of the store and performs other duties as authorized and required by the CO.

3 GOVERNMENT FURNISHED PROPERTY AND SERVICES. The Government furnished items listed below will not be used for any purpose other than fulfillment of the requirements of this contract.

3.1 FACILITIES. The Government will provide a portion of the Government warehouse facility and basic utilities at Building 90053. The inside space is approximately 3400SF, office space is approximately 408SF and unsecured outside space is approximately 600SF (Area 1). Area 1 will be designated exclusively for contractor use. The Contractor shall return the property to the Government in the same condition as received, fair wear and tear and approved modifications are acceptable. A second area, approx. 5,000 SF will be provided for use as a holding area (Area 2). Area 2 will be designated as shared use by the contractor and COR(s).

3.1.1 The Contractor shall allow the COR access to area 1 during normal duty hours (M-F, 0630-1530).

3.1.2 SERVICES

3.1.2.1 Telephone Service. The Government will only provide base and local commercial telephone service. The Contractor is responsible for long distance service, fax and internet service for Contractor provided computers. These services shall be at the Contractor's expense.

3.1.2.2 Security, Fire and Medical Services. The Government will provide police and fire protection on Hurlburt Field, FL. In the event of a medical emergency, call "911" for transportation of an injured employee to the local hospital. The Government will provide emergency medical treatment on site for life-threatening emergencies only until a civilian ambulance arrives.

3.1.2.3 Trash Removal. The Contractor shall be allowed to use trash dumpsters for the purpose of disposing of store-generated trash. All trash accumulated in the office and "store stock" areas shall be taken to the dumpster by Contractor personnel.

3.1.2.4 Recycling Program. The Government will provide cardboard and other recycling containers at 1 SOCES/bldg 90053 for joint use of Government personnel and Contractor personnel.

3.1.2.5 Utilities. The Government will provide basic utilities of gas, electricity and water. The Contractor shall observe conservation practices as regards the use of Government utilities. The Contractor shall instruct employees in utilities conservation practices.

3.1.3 DAMAGE TO GOVERNMENT FACILITIES AND EQUIPMENT. The Contractor shall reimburse the Government if details of formal investigation of fire or other related or unrelated structural damage result in pecuniary liability assessed to the Contractor. The Contractor shall replace all damaged or lost Government Furnished Facilities, Government Furnished Equipment and Government Furnished Materials at no cost to the Government.

3.1.4 GOVERNMENT LIABILITY. The Government shall not be liable for any loss or damage to the Contractor's property including stock or for expenses incidental to such loss or damage.

3.2 EQUIPMENT. The Government may furnish existing shelving and counters in the warehouse in "as is" condition. Office items, listed as three desks, a table, four filing cabinets, and 2 metal cabinets will be furnished for use in the operation of the COCESS without cost to the Contractor. All Government furnished equipment shall be returned at the conclusion or termination of this contract.

3.2.1 The Contractor shall maintain, retain and replace any items, at the Contractors expense, with similar items if damage is caused by the Contractor.

3.2.2 GOVERNMENT FURNISHED COMPUTERS. The Government will provide one (1) computer with monitor, one (1) printer, computer hardware and appropriate software and Local Area Network (LAN) connection. The Contractor shall be responsible for all consumable supplies such as paper, toner, compact discs, etc. The Contractor is prohibited from using software on Government computers that is not approved by the Government. The Contractor shall work with the COR and/or CO to obtain Government approval for requested software downloads/uploads to Government computers.

3.2.2.1 Maintenance, upgrades or replacement of the Government provided computers, monitors and printer will be provided by the Government at the Government's discretion.

3.3 Key Control. The Base Locksmith will issue entry keys to contract employees on a temporary hand receipt (AF Form 1297); this will also be kept electronically. Contractor shall be responsible for security and control of all issued keys. An annual key inventory shall be accomplished jointly by the Contractor and COR. The Contractor shall NOT duplicate keys issued by the Government. Lost keys shall be reported immediately to the COR.

3.4 GOVERNMENT FURNISHED TRAINING

3.4.1.1 COMPUTER BASED TRAINING. Once the CAC is issued, the employee shall in- process with the Computer System Administrator (CSA). The Contractor employee will be given a government email address. The Contractor employee then has 30 days to complete the following required annual computer-based training (CBT): Cyber Awareness, Force Protection and DoD Combating Trafficking in Persons General Awareness. This training is located at the following link <https://golearn.adls.af.mil/login.aspx> . This training is an annual requirement to retain access to the Government network.

3.4.2 The Contractor shall allow the COR access to area 1 during normal duty hours (M-F, 0630-1530)

3.4.3 Utilities.

The Government will provide basic utilities of gas, electricity and water. The Contractor shall observe conservation practices as regards the use of Government utilities. The Contractor shall instruct employees in utilities conservation practices.

3.4.3.1 Materials.

The Government will provide TRIRIGA Materiel Control Management Reference Guide Material Control Playbook

3.4.4 Equipment.

All Contractor personnel will require access to TRIRIGA for processing material transactions. The Government will provide one (1) computer and a printer on the Government network for Contractor personnel to use for recording the mandatory transaction data in TRIRIGA.

3.5 SECURITY DOCUMENTATION

The details of any and all security documentation maintained and developed under this contract will become and remain the property of the government.

3.5.1 BASE ACCESS Contractor employees shall provide information to assist in the completion of background checks for employees requiring access to Hurlburt Field. This information shall consist of but is not limited to full name (first, middle, last), social security number, date of birth, address, driver's license number and state of issue, number of years residency in the state of Florida. This information will be protected under the procedures listed in the Privacy Act of 1974. A background check must be completed prior to access to Hurlburt Field.

3.5.1.1 If the background check reveals a contractor employee or prospective employee with an adverse criminal history or as a potential threat to the health, safety, operational mission of the installation, then the Government reserves the right to restrict or deny access to Hurlburt Field for that individual.

3.5.2 Base Passes Return.

The contractor is ultimately responsible to return all employee base passes to the CO, COR, or COR if employees are terminated or no longer employed for this agreement. If base pass cannot be returned, the Contractor must report the First and Last Name, Date of Birth, and the reason they are no longer employed to the CO, COR, or HAC manager within three (3) calendar days of termination or absence of leave.

4 GENERAL INFORMATION

4.1 HOURS OF OPERATION. The Contractor shall operate the COCESS store, Monday – Friday 0630-1530. The Contractor shall ensure that sufficient personnel are available during store hours.

4.1.1 Emergency Support. The Contractor shall provide emergency support during other than normal duty hours as described above only upon authorization by the CO. Emergency personnel must be authorized to purchase, receive and issue materials. Emergency personnel must be able to be reached and respond to the workplace within two (2) hours after notification. The Contractor shall provide the COR and CO a listing of emergency personnel and an acceptable means (cell phone, telephone, etc.) of how they can be contacted within 30 days from contract start (**CDRL A0003**). It is estimated that emergency support will be required approximately two (2) times annually.

4.1.2 Holidays. Excluding Emergency Support, the Contractor is not required to provide routine services on the following holidays:

New Year's Day - 1 January
Martin Luther King Day - 3rd Monday in January
President's Day - 3rd Monday in February
Memorial Day - last Monday in May
Juneteenth – June 19
Independence Day - 4 July
Labor Day - 1st Monday in September
Columbus Day - 2nd Monday in October
Veteran's Day - 11 November
Thanksgiving Day - 4th Thursday in November
Christmas Day - 25 December

If these holidays fall on Saturday, the preceding Friday will be observed. If these holidays fall on Sunday, the following Monday will be observed. If a holiday falls on a scheduled service day, the Contractor will be responsible for rescheduling services for the first day post the holiday observance.

4.1.3 Base Closures. The Contractor is not required to report to work if the base is closed due to weather, exercises, or actual alert unless CO directed emergency support is required.

4.1.4 Performance of Service During Crisis or Heightened Security. Services at Hurlburt Field, FL are considered mission essential, and service will continue in the event of a crisis or heightened security caused by a national emergency, natural disaster or other cause, as necessary, in support of the Air Force mission. Contractor employees with approved background checks will be allowed access to the base for performance of work, except during "Charlie" conditions. If the "Charlie" condition exists for an extended duration, some services may be required. The CO may direct that services continue a case-by-case basis.

4.2 CONTRACTOR RESPONSIBILITIES.

4.2.1 KEY PERSONNEL.

4.2.1.1 On-Site Store Manager. The Contractor shall provide an on-site Store manager who shall be responsible for contract performance daily. The on-site manager shall have a minimum of two (2) years' experience in merchandising the type of materials used for this contract or supply logistics. The name of this person and an alternate shall be designated in writing to the CO and COR within ten (10) calendar days of contract award (**CDRL A0004**). The Store Manager and alternate shall have full authority to act for the Contractor on all contract matters relating to the daily operation of the COCESS contract. During normal hours, the on-site manager or alternate shall be available within 30 minutes to meet on the installation with Government personnel to discuss issues.

4.2.1.2 On-Site Purchaser. The Contractor shall provide at least one (1) person on-site purchasers for procuring materials, goods, and services necessary for the successful execution of a contract. The primary objective of this role is to ensure that all materials are purchased in a timely, cost-effective, and efficient manner, while maintaining compliance with contractual requirements, company policies, and industry standards.

4.2.1.3 On-Site Warehouse technician. The Contractor shall provide at least one (1) person to manage the warehouse and store for government and facility managers authorized users and the receipt and issue of materials. Oversee the day-to-day operations of the warehouse, including receiving, storing, and shipping of goods, to ensure that all activities are carried out efficiently and safely.

4.2.1.4 Contractor personnel shall present a neat, professional appearance and be easily recognized. Steel toed work shoes shall be required for working in the warehouse.

4.2.1.5 All contractor personnel must be able to read, write, speak and understand the English language.

4.2.1.6 The Contractor shall not employ any person who is an employee of the United States Government if the employment of that person would create a conflict of interest, nor shall the Contractor employ any person who is an employee of the Department of the Air Force, either military or civilian, unless such person seeks and receives approval IAW DOD 5500.7, Joint Ethics Regulation.

4.2.2 TRIRIGA. The Contractor and the Government shall use TRIRIGA functionality for all material control processes such as creating specifications and inventory items, creating stock locations, creating purchase requests (PR), processing purchase orders (PO), receiving inventory, stocking the Government warehouse (GW), issuing of parts and PO invoicing. TRIRIGA is the official material control IT system, and its use is mandatory. The Contractor will be provided InvTech rights within TRIRIGA for data entry.

4.2.2.1 While TRIRIGA does not transfer any PO information to actual vendors, the PO assignment to the Contractor by the COR will serve as the notice to proceed with the order. The Contractor shall use their own procedures for order request items.

4.2.2.2 The Contractor shall comply with the InvTech roles and responsibilities identified in the Material Control Playbook and TRIRIGA Material Control Management Reference Guide. The Reference Guide will be provided by the Authorized Government Representative (COR) or COR at the contract start." The Reference Guide provides step by step instructions for performing tasks in

TRIRIGA.

- 4.2.2.3** All TRIRIGA Item Specifications and Item Names are specific to a manufacturer and part number and cannot be changed to substitute a different item unless these part numbers are already included as part of the item description. If a “like-item” substitute is approved in accordance with section 1.6.2.5 of this PWS, the COR must update TRIRIGA with the appropriate substitute item information. Inventory Item Numbers may change over the course of the contract. These numbers are specific for an item specification/name and an inventory location. If the location changes, a new Inventory Item Number will be created. Therefore, the manufacturer, part number, and item description are the important information elements of any item description in TRIRIGA.
- 4.2.2.4** All Contractor personnel will require access to TRIRIGA for processing material transactions. The Government will provide one (1) computer and a printer on the Government network for Contractor personnel to use for recording the mandatory transaction data in TRIRIGA.
- 4.2.2.5** The Contractor may use its own IT system to order and track materials, barcode and scan inventory, account for COCESS store inventory/stock, forecast customer needs, perform trend analysis and issue Sales Tickets outside of TRIRIGA at no cost to the Government. Any double entry of data will not be charged to the Government.
- 4.2.2.6** The Contractor shall comply with the instructions presented in the most current edition of the NexGen IT Materiel Control Management Reference Guide for processes and procedures to ensure material control transactions are performed as required in TRIRIGA. The COR shall provide all hands-on TRIRIGA training to the Contractor. See paragraph 4.2.2.3. for other network access and training requirements.
- 4.2.3 COMPUTER ACCESS AND TRAINING.** For Contractor personnel to gain access to the Government Network to use TRIRIGA and other computer-based training programs, each employee must have a Department of Defense Common Access Card (CAC). This process shall be started within the first five (5) duty days from contract start.
- 4.2.4 CAC ACCESS.** The Contractor employee shall initiate the request to access the Government network access through the COR. The COR will ensure the employee’s information is entered into the Trusted Agent Sponsorship Program so that a CAC card can be issued. The employee MUST remember their PIN number from the CAC activation process.
- 4.2.5 SECURITY BACKGROUND CHECK.** Contractor employees shall be required to submit an Air Force Form 2583 for a National Agency Check and Inquiries (NACI) background check. Once the CES Security Manager receives the Form 2583, they will input the information into the system. You will receive an e-mail to submit information into the e-QIP application at the following link <https://nbib.opm.gov/e-qip-background-investigations/>. The background check process may take several months to complete. Contract employees may be permitted to work before completion of the NACI but will not be allowed TRIRIGA access until the investigation is completed.
- 4.2.6 COMPUTER BASED TRAINING.** Once the CAC is issued, the employee shall in- process with the Computer System Administrator (CSA). The Contractor employee will be given a government email address. The Contractor employee then has 30 days to complete the following required annual computer-based training (CBT): Cyber Awareness, Force Protection and DoD Combating Trafficking in Persons General Awareness. This training is located at the following link

<https://golearn.adls.af.mil/login.aspx> . This training is an annual requirement to retain access to the Government network.

4.2.6.1 TRIRIGA ACCESS. Contractor personnel shall be required to complete the one-time computer based training for “NexGen IT TRIRIGA Transformation Course Ver 1.1” at the following link https://afcec.adls.af.mil/kc/main/kc_frame.asp?blnWhatsNew=True&guid= . This training is required for InvTech access in TRIRIGA. Certificate of completion will be provided to the COR within 30 days of starting work (CDRL A0005).

4.2.6.2 Once the background check and the above training is completed, the employee shall go to the NexGen IT site at the following link <https://nexgenit.csd.disa.mil/my.policy>. The COR will give the employee directions for submitting their System Authorization Access Request (SAAR) for TRIRIGA.

4.2.6.3 After the SAAR is completed, the employee will be notified on their government email that they have access to TRIRIGA. The COR will provide InvTech duties and direction for any necessary training within the TRIRIGA system.

4.2.6.4 Contract employees have the right to obtain a copy of the background check report from the Security Monitor. Contract employees have the right to challenge the accuracy and completeness of any information contained in the report through the Privacy Act Program. The CO shall inform the Contractor of any employee whose criminal history background checks result in an unfavorable or derogatory report. An unfavorable or derogatory report will result in the CAC being revoked.

4.2.6.5 EESOH-MIS ACCESS. Contractor personnel shall be required to submit their SAAR to 1 SOCES/Environmental Element, HAZMAT SAAR Administrator, for access to EESOH-MIS system.

4.2.7 FAIR AND REASONABLE PRICING. The Contractor shall offer fair and reasonable pricing for NPIs.

4.2.7.1 NPI MATERIALS PRICE COMPARISON. All price comparisons must be for the same manufacturer and part number items as requested.

4.2.7.2 Ordering NPIs Equal To or Less than the Micro-Purchase Threshold. The COR shall use an on-line search to determine fair and reasonable pricing for any single NPI purchase for a PO where the total fully burdened price (to include freight) is equal to or less than the micro-purchase threshold. The COR shall assign the PO to the Contractor to purchase.

4.2.7.3 Ordering NPIs over the Micro-Purchase Threshold. No GPC purchases may be made through COCESS for items over the micro-purchase threshold. If the pricing for any single NPI is over the micro-purchase threshold, the Contractor must obtain two (2) quotes or advertised prices from different sources of supply for the item, in addition to the Contractor’s proposed sale price, for a total of three (3) quotes. The Contractor shall provide quoted pricing to the COR within 2 duty days for commercially available items and within 5 duty days for special order items. Pricing/quote information will then be forwarded to the CO for approval prior to the PO being assigned to the Contractor to purchase.

4.2.8 OTHER PRICING CONSIDERATIONS.

4.2.8.1 Evaluating One Quote. For NPI materials over the micro-purchase threshold, where only one

response is received, price fairness and reasonableness shall be determined and approved by the CO.

4.2.8.2 Sole Source/Brand Name. At times the Government will require sole source/brand name materials. The COR shall request a sole source/brand name justification from the requestor for all sole source/brand name NPIs. The sole source/brand name justification shall be sent to the CO for approval. The COR must receive the CO approval prior to assigning the PO to the Contractor. In the event the Contractor cannot provide multiple quotes as required by the NPI processes, the Contractor shall submit their proposed sale price in accordance with paragraph 1.6.2.1, Evaluating One Quote.

4.2.8.3 Hazardous Material Approval. The Contractor is responsible to verify the shop via approved for HAZMAT request, via EESOH-MIS Chemical Authorized User List. If a hazardous material is not currently approved, the Contractor shall send the request back to the shop so that they may initiate the new HAZMAT request. Once the shop has been authorized to purchase the HAZMAT item, they will submit a request in EESOH-MIS. The Contractor shall verify that the HAZMAT is authorized for the shop and the quantity allowed. See section 1.12. for further information.

4.2.8.4 Transportation/Shipping Charges. Pre-priced items shall not have reimbursable transportation charges as they are fixed price. The Contractor shall obtain Free on Board (FOB) pricing when available from their source of supply. Freight charges beyond FOB shall require preapproval by the COR. Premium freight charges for expedited shipment of emergency items must have verified funding and approval by the COR prior to ordering the item(s). Freight/shipping charges are reimbursable for NPIs where freight costs could not be determined prior to shipment. All reimbursable freight charges shall be a separate line on the Contractor Sales Ticket.

4.2.8.5 "Like-Item" Substitutes. If a requested item is available in the database(s) identified in Attachment Y, but the Contractor recommends a like-item substitute that is not available in the database, the like-item substitutes shall be sold for equal to or less than the pre-priced sale price of the originally requested database item. Following approval of a like-item substitute, the COR must update TRIRIGA with the appropriate requested item information. For those generic items for which the database is listed as a manufacturer or as approver of an item, those items will not require prior approval from the COR for "like-item" substitutes unless a brand name justification is provided. Hazardous items shall not be substituted.

4.2.9 PROCUREMENT OF MATERIALS.

4.2.9.1 AUTHORIZED PERSONNEL TO REQUEST PURCHASE OF MATERIALS. The COR is authorized to request purchase of materials through the issuance of a PO.

4.2.9.1.1 SALES TO UN-AUTHORIZED PERSONNEL. Any sales made to un-authorized personnel may result in non-payment.

4.2.9.2 ITEMS EXCLUDED FROM PURCHASE. The following items are excluded from this contract:

4.2.9.2.1 Materials under Maintenance and Repair Contracts. Parts and materials covered under separate contracts for maintenance and repair will not be purchased under this contract unless approved by the CO.

4.2.9.2.2 Centrally Managed/Procured Items. Centrally managed/procured items or items that

require purchase from mandatory sources (such as office furniture) will not be furnished under this contract except as authorized by the CO for Defense Logistics Agency (DLA) and General Services Administration (GSA) items.

4.2.9.3 NON-OBLIGATION TO PURCHASE. This contract does not obligate or require the purchase of materials by any organizations within or affiliated with Hurlburt Field or the United States Air Force. CES reserves the right to purchase materials from other commercial sources or federal contracts.

4.2.9.4 AUTHORIZED USERS FOR MATERIAL ISSUE. The Contractor shall not issue items to individuals who are not authorized CES users or facility managers. The COR will provide the Contractor with a list of authorized users and facility managers.

4.2.9.4.1 OVER-THE-COUNTER SALES. The authorized user MUST have a TRIRIGA work task in the TRIRIGA system to complete over-the-counter sales. Over-the-counter sales are for COCESS store stock items only. No over-the-counter sales are authorized for NPIs.

4.2.9.4.2 OFF-LINE TRANSACTIONS. When the computer system is non-operational, the Contractor shall be required to track transactions that will need to be input into TRIRIGA at a later date. The Contractor shall use the established off-line issue form to track items that need to be received and issued (see Appendix A). Once the TRIRIGA system is operational, all off-line issue forms must be input into TRIRIGA. The COR will provide training on this process

4.2.9.5 CONTRACTOR'S MERCHANDISE RETURN POLICY. The Contractor shall accept returns of full issue, unopened or unused items identified on the Government's suggested store stock item listing within 60 business days of issue to the Work Task or shop with no penalty to the Government. If items that are not listed on the suggested store stock item listing are incorrectly ordered by fault of the Government, the Government will be responsible for restocking fees or other penalties associated with returning the item to the vendor of purchase. The Contractor shall obtain approval from the COR before charging additional vendor restocking fees. Throughout the duration of the contract, the Contractor shall prominently post the return policy for customers to review upon entering the store. The contractor shall honor and provide a fully detailed merchandise return policy for any item purchased. This information shall be made available with all purchases and will be tailored to the type of product and reason returned. If items cannot be returned to the manufacturer once purchased, the Contractor shall inform the customer prior to purchase.

4.2.9.5.1 A sales issue ticket documenting the returned items shall be clearly marked as a "credit" and shall show any vendor's restocking fee as one item and return shipping fee as a second item. Sufficient restocking fee documentation from the vendor is required prior to Government reimbursement. The Contractor shall not charge a restocking fee in addition to the vendor's restocking fee.

4.2.9.6 INVOICING. The contractor shall submit an original summary invoice electronically to the Defense Finance Accounting System (DFAS) utilizing Wide-Area-Work-Flow. The contractor shall self-register at <https://wawf.eb.mil>. The Contractor must be registered in the System for Award Management (SAM) and must establish an electronic business point of contact in SAM.
(4.3)

4.2.9.7 SUBMITTING INVOICES IN WAWF. The Contractor shall submit invoices in accordance with the contract's CLIN schedule. Invoicing should occur monthly.

4.2.9.7.1 The COR shall verify that daily sales tickets reconcile against the monthly summary of sales report prior to approving the invoice is WAWF. If there are any issues, the COR will reject the invoice and work with the COCESS Store Manager to correct any issues prior to the Contractor resubmitting an invoice for payment.

4.2.9.8 The Contractor shall bill using the following CLINs:

CLIN 0001 - COCESS Items
CLIN 0002 - Water Operations
CLIN 0003 - Entomology

4.2.10 HOUSEKEEPING. The Contractor shall insure proper housekeeping of all office space and interior and exterior storage areas. These areas shall be clean, free of trash, debris and other obstacles that create a safety or health hazard. Trash bags shall be used in all trash cans and shall be furnished by the Contractor at no additional cost to the Government.

4.2.11 HARDWARE. The Contractor shall be responsible for furnishing any additional computers that require software that cannot be downloaded to Government computers. These computers shall NOT be connected to the Government LAN. The Contractor shall be responsible for any internet services (to include internet installation) necessary for operating these computers. The Contractor shall not require the Government to log onto or use the Contractor's specific software or hardware for any reason.

4.2.12 AUTOMATED INVENTORY MANAGEMENT SYSTEM. The Contractor shall use their own system to account for the Contractor's store stock inventory. Items in the COCESS Store will be issued to Work Tasks or Work Groups using the over-the-counter procedures IAW paragraph 1.10.2. of this PWS. The Contractor may use their own system to barcode/scan products, forecast customer needs, perform trend analysis, and determine store-stock for the contractors' own needs and requirements.

4.2.13 STORAGE BINS AND SHELVING. Contractor shall provide their own storage bins for Contractor material, supplies, etc. The Government may provide storage racks and bins if available.

4.2.14 CONTRACTOR SUPPLIES Any additional supplies, equipment (i.e. forklift, pallet trucks, etc.), and services necessary for operation of the COCESS will be furnished by the Contractor at the Contractor's expense, except those listed in section.

4.2.15 CONTRACTOR TRANSITION. If the Contractor is not the incumbent, the Contractor shall provide a reasonable and realistic transition plan within ten (10) calendar days after award (**CDRL A0008**). The plan shall demonstrate how the Contractor will begin COCESS operations within 30 calendar days after contract award. This plan must contain, at a minimum, the items listed below:

4.2.15.1A chronological sequence of events from time of award until the COCESS start date (e.g. setting up store front, installing shelving, stocking shelves, hiring employees, etc.)

4.2.15.2Show how the contractor shall keep their inventory separate from the incumbent contractor's inventory.

CONTRACTOR OPERATED CIVIL ENGINEER SUPPLY STORE (COCESS)

4.2.15.3 Submit any requests for facility maintenance, repairs or improvements to the COR for routing.

4.2.16 CONTRACT MODIFICATIONS. Any changes to the PWS, appendices, exhibits or PPIL (Exhibit 1) shall require a modification to the contract to incorporate the change. The contract modification date shall be the effective date of the change.

4.2.17 PHASE-OUT PLAN. The Contractor shall provide the Government with a Phase-Out Plan within 30 calendar days after contract award (**CDRL A0009**). The plan shall demonstrate how the Contractor will end COCESS operations prior to contract end. This plan must contain, at a minimum, the items listed below:

4.2.17.1 The incumbent Contractor shall provide familiarization, to the Government or the follow-on Contractor. During the phase-out familiarization period, the incumbent shall be fully responsible for COCESS operations. The Contractor shall perform the following as part of the phase-out process:

4.2.17.2 Provide all records and programs to the COR.

4.2.17.3 Turn in all keys that are listed on the key control log to the COR or key control Government representative.

4.2.17.4 Inventory and turn over all GFP to the COR.

4.2.17.5 Turn in all Contractor employee issued CACs to 1SOFSS for destruction.

(If applicable): To minimize any decreases in productivity and to prevent possible negative impacts on additional services, the Contractor shall have personnel on board, during the *[Insert the time period, i.e., sixty (60) day, thirty (30) day, etc.]* phase in/ phase out periods. During the phase in period, the Contractor shall become familiar with performance requirements in order to commence full performance of services on the contract start date.

4.3 PERIOD OF PERFORMANCE

[State the period of performance. If applicable, include information on option periods.]

	Base Year	Option Year 1	Option Year 2	Option Year 3	Option Year 4
Award	2025				
120d Option Ltr					
60d Option Ltr					
30d Option Ltr					

4.4 PLACE OF PERFORMANCE

CE COCESS Warehouse/Bldg 90053/415 Independence Road, Hurlburt Field, FL. 32544

4.5 HOURS OF WORK

0630 -1530

CONTRACTOR OPERATED CIVIL ENGINEER SUPPLY STORE (COCESS)

4.5.1 Continuity of Operations.

The contractor shall ensure continuity of operations during periods of personnel turnover and long-term absences. Long-term absences are considered those longer than two weeks duration.

4.5.2 Normal Base Hours.

Base hours of operation are 06:30 – 15:30. The Contractor may find it necessary to deviate from the normal base hours of operation, to ensure timely completion of work under this PWS at no additional cost to the government.

4.5.3 No elements of this PWS are Mission Essential

4.6 SECURITY REQUIREMENTS. Contractor employees shall comply with Hurlburt Field security requirements. These regulations are available for review in the contracting office. The Contractor shall comply with all Hurlburt Field policies regarding entry to the installation, rules of the road, contingency operations compliance and photography prohibitions. Due to safety/security requirements, contractor personnel shall be required to *fluently* speak, understand, read, and write English

4.6.1 BASE ACCESS. Contractor employees shall provide information to assist in the completion of background checks for employees requiring access to Hurlburt Field. This information shall consist of but is not limited to full name (first, middle, last), social security number, date of birth, address, driver's license number and state of issue, number of years residency in the state of Florida. This information will be protected under the procedures listed in the Privacy Act of 1974. A background check must be completed prior to access to Hurlburt Field.

4.6.1.1 If the background check reveals a contractor employee or prospective employee with an adverse criminal history or as a potential threat to the health, safety, operational mission of the installation, then the Government reserves the right to restrict or deny access to Hurlburt Field for that individual.

4.6.2 CONTRACTOR VEHICLES. Contractor vehicles must be maintained in a safe and operational condition at all times while on Hurlburt Field. All contractor vehicles used in the performance of this contract shall be readily identified as property of the company and be maintained to present a professional appearance at all times. Contractor personnel shall operate vehicles in compliance with base traffic regulations. Any violations of base traffic regulations are considered federal offenses and are adjudicated at federal court in Hurlburt Field. The current policy for contractor personnel receiving a Driving Under the Influence (DUI) charge, on base, shall result in that person having their driving privileges on base revoked for a minimum of one year. See clause FAR 5352.242-9000, entitled "Contractor access to Air Force Installations." All vehicles shall be registered, insured, and operated by a licensed operator at all times.

4.6.2.1 Current security access restrictions at Hurlburt Field require all contractor vehicles (which are the size of a standard bread delivery truck or larger) to enter through the Commercial Gate. Proof of Insurance is required to obtain base access for the vehicle. Contractor vehicles may be subject to search prior to gaining base entry. The Contractor should plan and allow for delays as a result of increased and ever-changing security procedures

CONTRACTOR OPERATED CIVIL ENGINEER SUPPLY STORE (COCESS)

- 4.6.3** **CONTRACTOR BADGE RESPONSIBILITIES.** The Contractor is responsible for tracking and retrieving badges from employees upon their separation, termination and/or completion of duty on Hurlburt Field. Badges from employees who are no longer employed on the contract must be retrieved and turned into the COR within ten (10) days of the individual's separation or termination. Employees who abuse their badge privileges by attempting base access beyond the dates, times, locations or specified work and other limitations may be subject to revocation of base access. Contractors may lose base pass privileges if they fail to control use of the badges or do not return them upon completion of use. Failure to control or turn in badges may result in contract termination or a decision not to exercise the option periods of this contract.
- 4.6.4** **SECURITY TRAINING.** Contractor personnel are required to attend security and Operations Security (OPSEC) orientation under Homeland Security Presidential Directive (HSPD) Title 12. The Contractor shall schedule initial and annual refresher training (for all assigned contractor personnel) through the COR. All contractor personnel shall be thoroughly briefed by the CES Security Manager on established security requirements and procedures as stipulated in Air Force Policy Directive (AFPD 31-1, Integrated Defense).
- 4.6.4.1** **Security Authority.** The Contractor shall brief all employees that they shall *immediately leave any area* upon notification by the CO, COR, constituted authority, Security Forces or when directed as occasional operational requirements, real world activities or emergencies dictate. If direction is given by personnel other than the CO or COR, notify the COR of this action and include the name of the individual, if available.
- 4.6.5** **ANTI-TERRORISM.** Hurlburt Field has an antiterrorism program that is responsible for helping secure and protect the base and its personnel from terrorist attacks. As a Contractor working on Hurlburt Field, you and your sub-Contractors are required to obey all orders from Security Forces and adhere to all security measures implemented as a result of Force Protection Condition changes (security posture changes). Additionally, you and your sub-contractors are expected to report to base security forces (850) 884 -7777 any suspicious activities, packages or items you see while conducting work on Hurlburt Field. Suspicious activities could include personnel conducting surveillance of the installation, unauthorized personnel requesting access to the installation or somebody asking a lot of questions about the base. In an effort to help familiarize you, your employees and sub-contractors about antiterrorism, Hurlburt Field has an antiterrorism binder with all of the pertinent information for awareness training available for review at the Pass and Registration Office located at Hurlburt Field Visitors Center.
- 4.6.6** **REPORTING REQUIREMENTS.** Contractor personnel shall report to an appropriate authority any information or circumstances of which they are aware may pose a threat to the security of DoD personnel, contractor personnel, resources and classified or unclassified defense information.
- 4.6.7** **WEAPONS, FIREARMS, AMMUNITION AND SECURITY.** The Contractor, Contractor employees and subcontractor personnel are strictly prohibited from possessing any weapons, firearms, explosives or ammunition on themselves, within their work areas, in Contractor owned vehicle(s) or privately owned vehicle(s) while on Hurlburt Field.

CONTRACTOR OPERATED CIVIL ENGINEER SUPPLY STORE (COCESS)

Any weapons, firearms, ammunition or security violation(s) may be cause for immediate seizure, detention and removal from the base and shall be subject to other applicable federal and state laws.

4.7 SAFETY REQUIREMENTS AND REPORTS. The Contractor shall perform work and maintain equipment in a safe manner as required by Occupational Safety and Health Administration (OSHA) standards, and AFI 91-203, Chapter 15, Air Force Consolidated Occupational Safety Instruction. The Contractor shall furnish Personal Protective Equipment (PPE) to contractor personnel as required in performance of their job.

4.7.1 The Contractor shall provide a verbal report to the CO or COR as soon as possible of each occurrence of damage to Government property or an accident resulting in death, injury, occupational disease or adverse environmental impact. Provide a completed copy of the required Mishap Data Worksheet AF Form 978, to the CO and COR within five (5) calendar days of each occurrence.

4.7.2 INSPECTIONS. The Contractor is subject to inspection by federal, state or local agencies.

4.8 Government Quality Assurance. According to the applicable Federal Acquisition Regulation, Inspection of Services clause and the Quality Assurance Surveillance Plan; the Government will evaluate the contractor's performance under this contract. Any action taken by the COR, as a result of surveillance, will be according to the terms of this contract.

4.9 Physical Security The contractor shall safeguard all government owned equipment and materials in the contractor's possession or used in the day-to-day performance of the contract.

4.9.1 CONTRACTOR-FURNISHED ITEMS AND SERVICES

Except for those items specifically stated in paragraph 3 as government-furnished, the contractor shall furnish everything needed to perform this contract.

4.10 ECMRA CONTRACTOR MANPOWER REPORTING APPLICATION

Section 2330a of title 10, United States Code (10 USC 2330a), requires the Secretary of Defense to submit to Congress an annual inventory of contracts for services performed during the prior fiscal year for or on behalf of the Department of Defense (DoD) by 31 Oct. The inventory must include the number of contractor employees using direct labor hours and associated cost data collected from contractors. Information from the secure web site is considered to be proprietary in nature when the contract number and contractor identity are associated with the direct labor hours and direct labor dollars. At no time will any data be released to the public with the contractor's name and contract number associated with the data. Contractors for other than Army components can visit https://afcmra.hqda.pentagon.mil/Help/Full_User_Guide.pdf to review user manuals and gain an understanding about the data fields that will be included in the reporting structure that is hosted at <http://www.ecmra.mil/>.

4.11 ENVIRONMENTAL, HEALTH, AND SAFETY

CONTRACTOR OPERATED CIVIL ENGINEER SUPPLY STORE (COCESS)

Environmental, Health, And Safety. The contractor shall ensure all employees receive the necessary environmental, health, and safety training to ensure compliance with all Occupational Safety and Health Acts (OSHA), and local laws. The contractor shall protect the health and safety of employees and the community, minimizing the risk of environmental pollution.

4.12 ENERGY CONSERVATION

The contractor shall comply with energy saving conservation practices as deemed necessary by the facility manager.

5 BIOENVIRONMENTAL ENGINEERING/HAZMAT REQUIREMENTS

5.1 POLLUTION PREVENTION.

Pollution Prevention. "Pollution Prevention" and "Source Reduction" are defined in the Pollution Prevention Act of 1990, 42 U.S.C. §§ 13101-13109. Contractor's obligation under this section is limited to identifying pollution prevention opportunities and shall not be construed to require the contractor to conduct activities not otherwise required by the program.

5.2 HAZARDOUS MATERIALS/CHEMICAL MANAGEMENT

5.2.1 ENVIRONMENTAL REQUIREMENTS. In addition to all applicable Federal, State and local environmental codes and regulations, the following specific guidance is provided. Hazardous Materials (HM) are defined in 49 CFR 172.101 and 40 CFR 301-304. Absolutely no HM shall be brought onto Hurlburt Field until that material is authorized for use by the CE Environmental Element at 90053. The Contractor shall take appropriate actions to comply with waste minimization and pollution prevention practices and policies.

5.2.2 HAZARDOUS MATERIALS. The Contractor shall submit his request for hazardous materials to the COR in accordance with installation's procedures. The COR shall work with the CE Environmental Element for approval of all HM to be ordered by the Contractor prior to assignment of the PO. The Contractor shall request approval by submitting a list of chemicals with attached Safety Data Sheet (SDS) and other supporting documentation for each HM to the COR. The Environmental Element has the right to prohibit the use of hazardous materials it deems to be especially hazardous to human health and environment. In the event the Environmental Element does not approve a hazardous material for use, they may provide the Contractor/COR a list of suitable substitutes.

5.2.3 HAZARDOUS MATERIALS INVENTORY. The Contractor shall maintain an up-to-date hazardous material inventory with copies of SDS(s) for all materials stored in the COCESS Store. SDS must be manufacturer specific and the most current SDS available.

5.2.4 SPILL RESPONSE. The Contractor shall maintain spill control material on hand at all times sufficient to contain a worst-case spill, both volume and hazard level. Contractor is responsible for disposal of all material used during spill clean-up. Materials must be disposed of IAW local, state and/or federal regulations. The Contractor shall "911" for spill beyond their response capability and/or pose a threat to human life or safety.

5.2.5 HAZARDOUS MATERIAL DISPOSITION. The Contractor shall contact and coordinate

CONTRACTOR OPERATED CIVIL ENGINEER SUPPLY STORE (COCESS)

disposal of HAZMAT, e.g. HAZMAT that is expired, damaged, leaking, or no longer required, through 1 SOCES/Environmental Element, Hazardous Waste Program Manager.

- 5.2.6 **FINAL REPORT.** The Contractor shall submit a final inventory, not later than ten (10) duty days following termination/completion of this contract, of all hazardous materials used since the last hazardous usage report to the COR and CE Environmental Element (**CDRL A0006**). The final inventory will list all hazardous materials used, total amount of each used and a description of the disposition of any remaining hazardous material.
- 5.2.7 **CONTRACTOR ENVIRONMENTAL AWARENESS TRAINING.** The Contractor shall ensure all employees that work on Hurlburt Field complete the Hurlburt Field Environmental Management System (EMS) Awareness training IAW AFI 32-7001, paragraph 5.6, Environmental Management within 30 days of starting work. The Contractor EMS Awareness training can be accessed at the following link <https://golearn.adls.af.mil/login.aspx> . The Contractor shall submit a list of the employee names that have completed this training to the COR and 1 SOCES/Environmental Element (**CDRL A0007**). This is a one-time requirement for all current and new contractor personnel working on Hurlburt Field.
