The Thursday, 27 March 2025 Robins Requirements Symposium is a one-day event designed to inform the private sector on portfolio focus areas and acquisition forecasts at Robins AFB necessary to accomplish its mission “to provide War Winning Capabilities on Time, on Cost.” This event accomplishes this goal by bringing interested parties together for a series of presentations by leaders of Air Force Life Cycle Management Center (AFLCMC), Air Force Sustainment Center (AFSC) and other Robins AFB organizations. These briefings will help characterize the requirements necessary to further the Robins AFB mission. Participants will have the opportunity to learn more about the capabilities of Robins AFB as well as requirements that will be satisfied by contracts awarded to large and small businesses.

The National Defense Industrial Association drives strategic dialogue in national security by identifying key issues and leveraging the knowledge and experience of its military, government, industry, and academic members to address them. NDIA, comprised of its Affiliates, Chapters, Divisions, and 1,780 corporate and 65,000 individual members, is a non-partisan, non-profit, educational association that has been designated by the IRS as a 501(c)3 nonprofit organization—not a lobby firm—and was founded to educate its constituencies on all aspects of national security.
