Special Notice

DESCRIPTION

The Department of Veterans Affairs (VA), Network Contracting Office (NCO) 17, is issuing this Notice of Intent (NOI) to inform industry contractors of the Government's intent to execute a Sole Source Award under FAR Part 13 – Simplified Acquisition Procedures, specifically FAR 13.106-1(b).

The intended Contractor is GE Precision Healthcare, LLC, a Large business, located at 3000 North Grandview Boulevard., Waukesha, WI 53188-1615.

The VA North Texas Healthcare System located at 4500 S. Lancaster Road, Dallas, TX 75216 is seeking a one year full-service contract for the GE Imaging equipment located in the VA North Texas Healthcare System that is identified in the Statement of Work. The VA North Texas Healthcare System in Texas requires preventative maintenance and repair services for the government-owned GE Imaging equipment at the facility. The Contractor shall provide unlimited repairs, parts, software updates, associated devices, unlimited labor and travel, and perform preventive maintenance in accordance with manufacturer recommendations during the hours of 8am-5pm Monday-Friday.

The VA National Acquisition Center (NAC) has an Indefinite Quantity (IDIQ) Contract with GE Precision Healthcare, LLC. Annual service maintenance plans to existing equipment located at the VHA medical facilities are to be issued as a sole source delivery/task order against IDIQ VA797H-17-D-0024. This applies to all service maintenance agreement orders through February 17, 2027.

The North American Industry Classification System (NAICS) Code for this requirement is 334517 – Irradiation Apparatus Manufacturing and the Small Business Administration (SBA) Size Standard for this sector is 1000 Employees.

THIS NOTICE OF INTENT IS NOT A REQUEST FOR COMPETITIVE QUOTES. No solicitation document is available and telephone requests will not be honored. No award will be made on the basis of unsolicited quotations or offers received in response to this notice. Any response to this notice must show clear, compelling, and convincing evidence that competition will be advantageous to the Government. Information received in response to this notice must clearly demonstrate the capability of meeting the Government's need as stated above. The intent of this synopsis is for informational purposes only. Information received will normally be considered solely for the purpose of determining whether to conduct a competitive procurement.

All inquiries and concerns must be addressed in writing via e-mail to **Anitra Carter** at anitra.carter@va.gov with the following information referenced in the subject line, **36C25725Q0340 – GE Imaging Equipment SMA** no later than 10:00 AM Central Standard Time, Thursday, March 6, 2025.

A determination not to compete this requirement, based upon responses to this notice, is solely within the discretion of the Government. The Government is not responsible for any potential costs incurred from interested parties desiring to respond to this notice. The interested parties bear full responsibility to ensure complete transmission and timely receipt.

Special Notice

Statement of Work

Title: GE Imaging Equipment SMA

Scope of Work: The contractor shall provide services to repair, perform preventive maintenance (PM), calibrations, defective part replacement, fully funded Biomed training (if applicable), or other support services in accordance with VA's requirements for devices listed under the section "Equipment Listing". All devices are located within the VA North Texas Healthcare System (VANTHCS).

Description of Work: The Contractor shall ensure proper service levels are maintained and make certain that equipment performance is optimal in accordance with manufacturer specifications.

All work must be performed by qualified technician in compliance with applicable manufacturer's recommendations, codes, and standards in its entirety. Maintenance and repair (when necessary) shall be performed as indicated in manufacturer's requirements and recommendations for device(s). Additional inspections and tests shall be performed as needed or upon request of the Government.

The contractor shall provide all labor, transportation, expertise, and material for the specified service contract for the VA equipment in accordance with the original equipment manufacturer specifications. Reference the section "Equipment Listing" for equipment type and the required service.

Hours of Performance: Work shall occur Monday – Friday during normal duty hours. After hours work is authorized upon approval of Biomedical Engineering department. Service shall start upon contract award. Delivery for all issues requiring corrective and periodic maintenance shall be available during standard business hours. Telephone and remote diagnostics shall be available during standard business hours.

Holiday	Date
New Year's	January 1 st
Martin Luther King's Birthday	3 rd Monday in January
President's Day	3 rd Monday in February
Memorial	Last Monday in May
Juneteenth	June 19 th
Independence Day	July 4 th
Labor Day	1 st Monday in September

Veteran's Day	November 11 th
Thanksgiving Day	4 th Thursdays in November
Christmas Day	December 25 th

Check in Requirements: The Field Service Engineer must report to the Biomedical Engineering Department to obtain a badge and sign in with the Biomedical Engineering Service before work begins. Submit any mobile media devices that would be used on the system to a virus scan. Upon completion of work, the Field Service Engineer must report to the Biomedical Engineering Service to sign out and brief Biomedical Staff or Supervisor if Biomedical Staff is unavailable concerning completion of service. At the end of briefing Field Service Engineer will return the badge and sign out in the Biomedical Engineering Department.

Contractor must immediately notify their COR or Contracting Officer if contract performance is jeopardized due to contractor employees being denied entry into VA Facilities.

Unscheduled Maintenance (Repair Service):

Special Notice

- A. Contractor shall maintain the equipment in accordance with the manufacturer's specifications. The Contractor will provide repair service which may consist of calibration, cleaning, oiling, adjusting, replacing parts, and maintaining the equipment, including all intervening calls necessary between regular services and calibrations. All required parts shall be furnished.
- B. The Contracting Officer, Contracting Officer's Representative or designated alternate has the authority to approve/request a service call from the Contractor.
- C. Response Time: - Contractor's FSE must respond with a phone call to the COR or his/her designee within two (2) hours after receipt of telephoned notification from 8 a.m. to 9 p.m. If the problem cannot be corrected by phone, the FSE will commence work (on-site physical response) within two (2) hours after receipt of this second notification and will proceed progressively to completion without undue delay.

Scheduled Maintenance:

- A. The Contractor shall perform preventative maintenance (PM) to ensure that equipment listed in the schedule performs in accordance with TJC, NFPA-99, UL, OSHA, VA, and CDRH Standards. (An outline of the PM procedures and schedule shall be provided to the Biomedical Engineering Department). The Contractor shall provide and utilize procedures and checklists with worksheet originals indicating work performed and actual values obtained (if applicable). This documentation shall be provided to Biomedical Engineering at the completion of the PM. The contractor shall provide written description of Preventive Maintenance Inspections (PMI). This description shall include an itemized list of the procedures performed, including electrical safety. PM services shall include, but need not be limited to, the following:
 - a. Reviewing operating system software diagnostics to ensure that the system is operating in accordance with Section 3, Conformance Standards or the manufacturer's specifications.
 - b. Calibrating and lubricating the equipment.
 - c. Performing remedial maintenance of non-emergent nature.
 - d. Testing and replacing faulty and worn parts and/or parts likely to become faulty, fail or become worn.
 - e. Inspecting and replacing where indicated, electrical wiring and cables for wear and fraying.
 - f. Inspecting, and replacing where indicated, all mechanical components which may include, but is not limited to: X-ray tube mounting hardware, patient restraints and support devices, cables and mounting hardware, chains, belts, bearings and tracks, interlocks, clutches, motors, keyboards, and patient couches for mechanical integrity, safety, and performance.
 - g. Returning the equipment to the operating condition defined in Section 3, Conformance Standards.
 - h. Providing documentation of services performed.
 - i. Inspecting and calibrating the hard copy image device.
- B. PM services shall be performed in accordance with, and during the hours defined in, the preventive maintenance schedule established herein. All exceptions to the PM schedule shall be arranged and approved in advance with the COR.
- C. Any charges for parts, services, manuals, tools, or software required to successfully complete scheduled PM are included within this contract, and its agreed upon price, unless specifically stated in writing otherwise.

Documentation: Contractor shall furnish a detailed field service report upon completion of work to Biomedical Staff in the Biomed Department. Payment will not be processed until a properly completed service report is received. The service report shall contain, at a minimum, the following information:

- Type, model, System ID, and serial number (s) of all equipment on which maintenance was performed

Special Notice

- Total time spent performing maintenance.
- Detailed narrative description of the services required
- Copies of all test reports
- Complete list of parts replaced
- Date and time the repair was completed

The service report shall itemize every item in the specification. Each item shall state the "as found" condition or values, the "calibrated to" or "adjusted to" values, the factory design tolerances, and a complete description of all work performed concerning the items. Included will be a list of new parts used and recommended future repairs.

Period of Performance:

The period of performance will be one year from 4/17/2025 to 4/16/2026.

Place of Performance:

Department of Veterans Affairs
Dallas VA Medical Center
4500 S. Lancaster Road
Dallas, Texas 75216

Contracting Officer Representatives: Prior to contract award, the Contracting Officer shall designate a VA Medical Center employee as the COR. All work coordination shall be made through the COR. The Contractor shall be provided a copy of the letter of delegation authorizing the COR at the commencement of the term of the contract. No other person shall be authorized to act in such capacity unless appointed in writing by the Contracting Officer.

Information Technology Security Requirements: The contractor, their personnel, and their subcontractors shall be subject to the Federal laws, regulations, standards, and VA Directives and Handbooks regarding information and information system security as delineated in this contract. The contractor shall comply with all Federal laws and regulations the VA has developed when VA sensitive information is accessed, used, stored, generated, transmitted, or exchanged by and between VA and a contractor. The information made available to the contractor by VA for the performance of this contract will be used only for the purposes of performance under this contract. The certification and accreditation requirements do not apply to this requirement and a security accreditation package is not required.

Security Statement: Sensitive VA information is contained within the systems covered by this contract.

Biomedical Engineering shall perform virus scans on all removable media prior to use on VA medical equipment. This includes all types of removable media, including media (e.g., USB devices, CDs, dongles, etc.) that has been issued by VA, media not issued by VA, and media brought in by vendors or independent service organizations. Within accordance of VA Directive 6500, *Information Security Program*, September 2007

The Vendor will not transfer any VA information to a location outside the VA and only to VA locations determined by the VA System Administrator. The information in these systems may be covered by the Privacy Act 1974 which contains criminal penalties of abuse of information.

Special Notice

During onsite service, the Vendor shall be chaperoned by VA Personnel. However, the vendor shall not be issued a User ID/Password.

Non-volatile memory devices, working or non-working, shall NOT be removed from the VA Medical Center Dallas until the ISO has certified that the data has been destroyed. For magnetic devices and media, the data destruction will be by degaussing. Other forms of cleansing will be used for non-magnetic media.

The vendor will not have remote access to complete the repair(s) and preventive maintenance.

Non-volatile memory devices, working or non-working, shall NOT be removed from the VA facility until the ISO has certified that the data has been destroyed. For magnetic devices and media, the data destruction will be by degaussing. Other forms of cleansing will be used for non-magnetic media.

The vendor will have remote access to complete the repair(s) and preventive maintenance.

1. GENERAL

Contractors, contractor personnel, subcontractors, and subcontractor personnel shall be subject to the same Federal laws, regulations, standards, and VA Directives and Handbooks as VA and VA personnel regarding information and information system security.

2. ACCESS TO VA INFORMATION AND VA INFORMATION SYSTEMS

- a. A contractor/subcontractor shall request logical (technical) or physical access to VA information and VA information systems for their employees, subcontractors, and affiliates only to the extent necessary to perform the services specified in the contract, agreement, or task order.
- b. All contractors, subcontractors, and third-party servicers and associates working with VA information are subject to the same investigative requirements as those of VA appointees or employees who have access to the same types of information. The level and process of background security investigations for contractors must be in accordance with VA Directive and Handbook 0710, Personnel Suitability and Security Program. The Office for Operations, Security, and Preparedness is responsible for these policies and procedures.
- c. Contract personnel who require access to national security programs must have a valid security clearance. National Industrial Security Program (NISP) was established by Executive Order 12829 to ensure that cleared U.S. defense industry contract personnel safeguard the classified information in their possession while performing work on contracts, programs, bids, or research and development efforts. The Department of Veterans Affairs does not have a Memorandum of Agreement with Defense Security Service (DSS). Verification of a Security Clearance must be processed through the Special Security Officer located in the Planning and National Security Service within the Office of Operations, Security, and Preparedness.
- d. Custom software development and outsourced operations must be located in the U.S. to the maximum extent practical. If such services are proposed to be performed abroad and are not disallowed by other VA policy or mandates, the contractor/subcontractor must state where all non-U.S. services are provided and detail a security plan, deemed to be acceptable by VA, specifically to address mitigation of the resulting problems of communication, control, data protection, and so forth. Location within the U.S. may be an evaluation factor.

Special Notice

- e. The contractor or subcontractor must notify the Contracting Officer immediately when an employee working on a VA system or with access to VA information is reassigned or leaves the contractor or subcontractor's employ. The Contracting Officer must also be notified immediately by the contractor or subcontractor prior to an unfriendly termination.

3. VA INFORMATION CUSTODIAL LANGUAGE

- a. Information made available to the contractor or subcontractor by VA for the performance or administration of this contract or information developed by the contractor/subcontractor in performance or administration of the contract shall be used only for those purposes and shall not be used in any other way without the prior written agreement of the VA. This clause expressly limits the contractor/subcontractor's rights to use data as described in Rights in Data - General, FAR 52.227-14(d) (1).
- b. VA information should not be co-mingled, if possible, with any other data on the contractors/subcontractor's information systems or media storage systems in order to ensure VA requirements related to data protection and media sanitization can be met. If co-mingling must be allowed to meet the requirements of the business need, the contractor must ensure that VA's information is returned to the VA or destroyed in accordance with VA's sanitization requirements. VA reserves the right to conduct on site inspections of contractor and subcontractor IT resources to ensure data security controls, separation of data and job duties, and destruction/media sanitization procedures are in compliance with VA directive requirements.
- c. Prior to termination or completion of this contract, contractor/subcontractor must not destroy information received from VA, or gathered/created by the contractor in the course of performing this contract without prior written approval by the VA. Any data destruction done on behalf of VA by a contractor/subcontractor must be done in accordance with National Archives and Records Administration (NARA) requirements as outlined in VA Directive 6300, *Records and Information Management* and its Handbook 6300.1 *Records Management Procedures*, applicable VA Records Control Schedules, and VA Handbook 6500.1, *Electronic Media Sanitization*. Self-certification by the contractor that the data destruction requirements above have been met must be sent to the VA Contracting Officer within 30 days of termination of the contract.
- d. The contractor/subcontractor must receive, gather, store, back up, maintain, use, disclose and dispose of VA information only in compliance with the terms of the contract and applicable Federal and VA information confidentiality and security laws, regulations and policies. If Federal or VA information confidentiality and security laws, regulations and policies become applicable to the VA information or information systems after execution of the contract, or if NIST issues or updates applicable FIPS or Special Publications (SP) after execution of this contract, the parties agree to negotiate in good faith to implement the information confidentiality and security laws, regulations and policies in this contract.
- e. The contractor/subcontractor shall not make copies of VA information except as authorized and necessary to perform the terms of the agreement or to preserve electronic information stored on contractor/subcontractor electronic storage media for restoration in case any electronic equipment or data used by the contractor/subcontractor needs to be restored to an operating state. If copies are made for restoration purposes, after the restoration is complete, the copies must be appropriately destroyed.
- f. If VA determines that the contractor has violated any of the information confidentiality, privacy, and security provisions of the contract, it shall be sufficient grounds for VA to

Special Notice

withhold payment to the contractor or third party or terminate the contract for default or terminate for cause under Federal Acquisition Regulation (FAR) part 12.

- g. If a VHA contract is terminated for cause, the associated BAA must also be terminated and appropriate actions taken in accordance with VHA Handbook 1600.01, *Business Associate Agreements*. Absent an agreement to use or disclose protected health information, there is no business associate relationship.
- h. The contractor/subcontractor must store, transport, or transmit VA sensitive information in an encrypted form, using VA-approved encryption tools that are, at a minimum, FIPS 140-2 validated.
- i. The contractor/subcontractor's firewall and Web services security controls, if applicable, shall meet or exceed VA's minimum requirements. VA Configuration Guidelines are available upon request.
- j. Except for uses and disclosures of VA information authorized by this contract for performance of the contract, the contractor/subcontractor may use and disclose VA information only in two other situations: (i) in response to a qualifying order of a court of competent jurisdiction, or (ii) with VA's prior written approval. The contractor/subcontractor must refer all requests for, demands for production of, or inquiries about, VA information and information systems to the VA contracting officer for response.
- k. Notwithstanding the provision above, the contractor/subcontractor shall not release VA records protected by Title 38 U.S.C. 5705, confidentiality of medical quality assurance records and/or Title 38 U.S.C. 7332, confidentiality of certain health records pertaining to drug addiction, sickle cell anemia, alcoholism or alcohol abuse, or infection with human immunodeficiency virus. If the contractor/subcontractor is in receipt of a court order or other requests for the above-mentioned information, that contractor/subcontractor shall immediately refer such court orders or other requests to the VA contracting officer for response.
- l. For service that involves the storage, generating, transmitting, or exchanging of VA sensitive information but does not require C&A or an MOU-ISA for system interconnection, the contractor/subcontractor must complete a Contractor Security Control Assessment (CSCA) on a yearly basis and provide it to the COTR.

GENERAL RULES OF BEHAVIOR

- a. Rules of Behavior are part of a comprehensive program to provide complete information security. These rules establish standards of behavior in recognition of the fact that knowledgeable users are the foundation of a successful security program. Users must understand that taking personal responsibility for the security of their computer and the information it contains is an essential part of their job.
- b. The following rules apply to all VA contractors. I agree to:
 - (1) Follow established procedures for requesting, accessing, and closing user accounts and access. I will not request or obtain access beyond what is normally granted to users or by what is outlined in the contract.
 - (2) Use only systems, software, databases, and data which I am authorized to use, including any copyright restrictions.
 - (3) I will not use other equipment (OE) (non-contractor owned) for the storage, transfer, or processing of VA sensitive information without a VA CIO approved waiver, unless it has been reviewed and approved by local management and is included in the language of the contract. If authorized to use OE IT equipment, I must ensure that the system meets all applicable 6500 Handbook requirements for OE.
 - (4) Not use my position of trust and access rights to exploit system controls or access information for any reason other than in the performance of the contract.
 - (5) Not attempt to override or disable security, technical, or

Special Notice

management controls unless expressly permitted to do so as an explicit requirement under the contract or at the direction of the COTR or ISO. If I am allowed or required to have a local administrator account on a government-owned computer, that local administrative account does not confer me unrestricted access or use, nor the authority to bypass security or other controls except as expressly permitted by the VA CIO or CIO's designee. (6) Contractors' use of systems, information, or sites is strictly limited to fulfill the terms of the contract. I understand no personal use is authorized. I will only use other Federal government information systems as expressly authorized by the terms of those systems. I accept that the restrictions under ethics regulations and criminal law still apply. (7) Grant access to systems and information only to those who have an official need to know. (8) Protect passwords from access by other individuals. (9) Create and change passwords in accordance with VA Handbook 6500 on systems and any devices protecting VA information as well as the rules of behavior and security settings for the particular system in question. (10) Protect information and systems from unauthorized disclosure, use, modification, or destruction. I will only use encryption that is FIPS 140-2 validated to safeguard VA sensitive information, both safeguarding VA sensitive information in storage and in transit regarding my access to and use of any information assets or resources associated with my performance of services under the contract terms with the VA. (11) Follow VA Handbook 6500.1, Electronic Media Sanitization to protect VA information. I will contact the COTR for policies and guidance on complying with this requirement and will follow the COTR's orders. (12) Ensure that the COTR has previously approved VA information for public dissemination, including e-mail communications outside of the VA as appropriate. I will not make any unauthorized disclosure of any VA sensitive information through the use of any means of communication including but not limited to e-mail, instant messaging, online chat, and web bulletin boards or logs. (13) Not host, set up, administer, or run an Internet server related to my access to and use of any information assets or resources associated with my performance of services under the contract terms with the VA unless explicitly authorized under the contract or in writing by the COTR. (14) Protect government property from theft, destruction, or misuse. I will follow VA directives and handbooks on handling Federal government IT equipment, information, and systems. I will not take VA sensitive information from the workplace without authorization from the COTR. (15) Only use anti-virus software, antispyware, and firewall/intrusion detection software authorized by VA. I will contact the COTR for policies and guidance on complying with this requirement and will follow the COTR's orders regarding my access to and use of any information assets or resources associated with my performance of services under the contract terms with VA. (16) Not disable or degrade the standard anti-virus software, antispyware, and/or firewall/intrusion detection software on the computer I use to access and use information assets or resources associated with my performance of services under the contract terms with VA. I will report anti-virus, antispyware, firewall or intrusion detection software errors, or significant alert messages to the COTR. (17) Understand that restoration of service of any VA system is a concern of all users of the system. (18) Complete required information security and privacy training, and complete required training for the particular systems to which I require access.

PRIVACY

- a. Contractors and any subcontractors must adhere to the provisions of Public Law 104-191, Health Insurance Portability and Accountability Act (HIPAA) of 1996. This includes both the Privacy and Security Rules published by the Department of Health and Human Services (HHS).
- b. As required by HIPAA, HHS has promulgated rules governing the use and disclosure of protected health information by covered entities, Veterans Health Administration (VHA). In accordance with HIPAA, the contractor may be required to enter into a Business Associate Agreement (BAA) with VHA.
- c. Business associates must follow VHA privacy policies and practices when applicable. All contractors and business associates must receive privacy training annually.
- d. For contractors and business associates who do not have access to VHA computer systems, this requirement is met by completing VHA National Privacy Policy training, other VHA approved

Special Notice

privacy training or contractor furnished training that meets the requirements of the HHS Standards for Privacy of Individually Identifiable Health Information as determined by VHA.

- e. For contractors and business associates who are granted access to VHA computer systems, this requirement is met by completing VHA National Privacy Policy training or other VHA approved privacy training. Proof of training is required upon request.

Records Management Statement:

1. Contractor shall comply with all applicable records management laws and regulations, as well as National Archives and Records Administration (NARA) records policies, including but not limited to the Federal Records Act (44 U.S.C. chs. 21, 29, 31, 33), NARA regulations at 36 CFR Chapter XII Subchapter B, and those policies associated with the safeguarding of records covered by the Privacy Act of 1974 (5 U.S.C. 552a). These policies include the preservation of all records, regardless of form or characteristics, mode of transmission, or state of completion.

2. In accordance with 36 CFR 1222.32, all data created for Government use and delivered to, or falling under the legal control of, the Government are Federal records subject to the provisions of 44 U.S.C. chapters 21, 29, 31, and 33, the Freedom of Information Act (FOIA) (5 U.S.C. 552), as amended, and the Privacy Act of 1974 (5 U.S.C. 552a), as amended and must be managed and scheduled for disposition only as permitted by statute or regulation.

3. In accordance with 36 CFR 1222.32, Contractor shall maintain all records created for Government use or created in the course of performing the contract and/or delivered to, or under the legal control of the Government and must be managed in accordance with Federal law. Electronic records and associated metadata must be accompanied by sufficient technical documentation to permit understanding and use of the records and data.

4. VA Medical Center Dallas and its contractors are responsible for preventing the alienation or unauthorized destruction of records, including all forms of mutilation. Records may not be removed from the legal custody of the VA Medical Center Dallas or destroyed except for in accordance with the provisions of the agency records schedules and with the written concurrence of the Head of the Contracting Activity. Willful and unlawful destruction, damage or alienation of Federal records is subject to the fines and penalties imposed by 18 U.S.C. 2701.

In the event of any unlawful or accidental removal, defacing, alteration, or destruction of records, Contractor must report to VA Medical Center Dallas. The agency must report promptly to NARA in accordance with 36 CFR 1230.

5. The Contractor shall immediately notify the appropriate Contracting Officer upon discovery of any inadvertent or unauthorized disclosures of information, data, documentary materials, records or equipment. Disclosure of non-public information is limited to authorized personnel with a need-to-know as described in the [contract vehicle]. The Contractor shall ensure that the appropriate personnel, administrative, technical, and physical safeguards are established to ensure the security and confidentiality of this information, data, documentary material, records and/or equipment is properly protected. The Contractor shall not remove material from Government facilities or systems, or facilities or systems operated or maintained on the Government's behalf, without the express written permission of the Head of the Contracting Activity. When information, data, documentary material, records and/or equipment is no longer required, it shall be returned to VA Medical Center Dallas control or the Contractor must hold it until otherwise directed. Items returned to the Government shall be hand carried, mailed, emailed, or securely electronically transmitted to the Contracting Officer or address prescribed in the [contract vehicle]. Destruction of records is EXPRESSLY PROHIBITED unless in accordance with Paragraph (4).

6. The Contractor is required to obtain the Contracting Officer's approval prior to engaging in any contractual relationship (sub-contractor) in support of this contract requiring the disclosure of

Special Notice

information, documentary material and/or records generated under, or relating to, contracts. The Contractor (and any sub-contractor) is required to abide by Government and VA Medical Center Dallas guidance for protecting sensitive, proprietary information, classified, and controlled unclassified information.

7. The Contractor shall only use Government IT equipment for purposes specifically tied to or authorized by the contract and in accordance with VA Medical Center Dallas policy.

8. The Contractor shall not create or maintain any records containing any non-public VA Medical Center Dallas information that are not specifically tied to or authorized by the contract.

9. The Contractor shall not retain, use, sell, or disseminate copies of any deliverable that contains information covered by the Privacy Act of 1974 or that which is generally protected from public disclosure by an exemption to the Freedom of Information Act.

10. The VA Medical Center Dallas owns the rights to all data and records produced as part of this contract. All deliverables under the contract are the property of the U.S. Government for which VA Medical Center Dallas shall have unlimited rights to use, dispose of, or disclose such data contained therein as it determines to be in the public interest. Any Contractor rights in the data or deliverables must be identified as required by FAR 52.227-11 through FAR 52.227-20.

11. Training. All Contractor employees assigned to this contract who create, work with, or otherwise handle records are required to take VHA-provided records management training, Talent Management System (TMS) Item #3873736, Records Management for Records Officers and Liaisons. The Contractor is responsible for confirming training has been completed according to agency policies, including initial training and any annual or refresher training.
