

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? ☐ Yes ☒ No

Contracting Activity: 30 Contracting Squadron/PKB

Project/Program Name: Repair Auto Box Maker

Purchase Request / Local ID Number: F4D3C35024A001

Estimated Contract Cost (including Options): [REDACTED]

Section B: Description of the Supplies/Services Required

Determine the operational status of Heavy Duty Box Machine (HBM72) (Serial#2100059) and restore it to full functionality, including operator training. The requirement for the repair of the T-ROC automated box maker machine is driven by the need to restore the machine's functionality and ensure the continued efficiency and effectiveness of warehouse operations, which supports the packaging and shipping of over [REDACTED] assets annually.

Section C: Justification for Soliciting from a Single Source or Brand Name

Due to the discontinued nature of this specific machine, all components and software are obsolete. The HBM72 is designed and manufactured by T-ROC equipment and contains a proprietary program written specifically at T-ROC giving them the unique capability to repair the HBM72. While other manufacturers would be able to perform repairs on physical parts of the machine, the owner and founder is currently the only individual capable of programming T-ROC machines manufactured before 2015. T-ROC does not have any subcontractor or third parties that would be capable to perform this repair leaving them as the sole source capable of fulfilling this requirement.

Section D: Efforts to Obtain Competition

30 LRS was not able to find an alternate source to perform the repair. After contacting the manufacturer, it was found that they were the only capable vendor. Contracting will be issuing a sources sought to ensure there is no other sources available.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

30 LRS will conduct a market survey for future requirements to maximize competition as much as possible. Upgrading machinery with new software or programming to include more potential vendors for repairs will be considered.
